One of our students when asked if it was easy to learn a language by the De Brisay method, replied that it was "as easy as rolling off a log." This is a forcible, if not elegant, way of stating the case, and is not very far from the truth, for everything is made so plain and intelligible in our lessons that we believe even a fool could learn by our method. We teach Latin, French and Spanish by mail, and to learn these languages is—for an intelligent person at least—only a little more difficult than "rolling off a log." Every student is afforded an opportunity of testing the method before taking a course. Fees very moderate. Send for free circular.
