Social Science Support Group, Page 39

Little meaningful comment can be made on this group at this time, other than to note that the participation rate for women has doubled. The Department is introducing a new Information Storage and Retrieval System and envisages the employment of more SIs in this area. A competition for Bureau Information Control Officers and Central Information Control Officers is in progress. Thus far, 3 women (1-CR-4 and 2-CR-5s) have been successful; 7-CRs (4 women and 3 men) have not.
