

## DEDICATION

I dedicate this book to all Americans who love their country, revere its ideals, understand and support its institutions, and are willing to give their all in order that "our Government shall not perish from the earth."

I dedicate this book to them, caring not from what human breed they sprang, regardless of their length of residence, despite any difference in religious creed or political faith, only requiring that they place our country, the United States of America, **FIRST, NOW AND FOREVER!**
