

- Treatment of paralytic genu valgum, 254-256
 - kyphosis, 130
 - scoliosis, 148
 - torticollis, 129
- of partial paralysis, 71
- of pes calcaneus, 242, 243
 - equinus, 218
 - varus, 227, 229
- of second stage, 28
- of shortening, 282, 283, 287
- of stage of repair, 27
- in third stage, 33
- Triceps, action of, 220
- paralysis of, 196
- treatment, 196
- Trophoneurotic atrophy of muscle, 8, 22
 - changes in skeleton, 8, 24
 - causing scoliosis, 138
 - skin lesions improved by massage, etc., 29, 33
- Tunnelleur*, Spitzky's, 102, 270
- Ulcers, chronic, of skin, 8
- Ulnar nerve, nerve-grafting in paralysis, 110
 - internal anatomy of, 115
- Urine, incontinence of, 4, 7
 - retention of, at onset, 4, 7
- Vaccination against poliomyelitis, 19
 - preceding poliomyelitis, 13
- Vascularity improved by massage, 29, 30
- Vertebrae, fixation and deformity in paralytic scoliosis, 148
 - rotation of, in scoliosis, 144
- Virus, properties of, 18
- Viscera, appearance of, in acute stage, 20
- Vomiting at onset, 4
- Walking, as an exercise, 31
 - machines, 31
 - teaching art of, to paralytics, 31
- Wasting, 6
- Weight determines position of paralyzed limb, 9
- Whooping-cough before poliomyelitis, 13
- Wiring in arthrodesis, 64, 169, 170, 257
 - sinuses after, 179
 - in tendon-transplantation, 82
- X-rays, in study of bone-bolting, 211
 - of growth and size of paralytic bones, 8, 24
 - of luxations of hip, 275
 - of paralytic scoliosis, 142
 - of pes calcaneus, 241
 - of results of arthrodesis, 65, 157, 158, 171
