Odd suits, coats, skirts, being offered during the next few days at prices to ensure space for soon-coming new

Chamberlain's Trosseau.

The wedding of Mr. Austen Chamberlain and Miss Ivy Dundas was every whit as interesting from the dress point of view as it was from a social or political aspect. The new idea of carrying out a rainbow scheme of color, as regards the dresses of the bridesmaids, was voted so successful that it will probably be largely adopted for the weddings of the future. Altho gowned in uniform skirts of cream crystaline, the feature of which was a hand-painted insertion of the material, designed in large pale pink roses and their follage, four distinct colors were introduced in the agent directoire coats worn by the eight directoire coats worn by the bridesmaids, two of which were of rose pink, two of mauve , two of vertargent , and two of pale blue, while large plumed hats completed the effect. The small child bridesmaid wore a freek of ivery white conversaling. wore a frock of ivory-white crystalline, painted in a design of tiny tea-roses with a three-cornered hat of rice straw trimmed with pink moire ribbon; while the small page appeared in a little directoire suit of pale blue.

The beautiful Worth gown worn by the bride showed off her tall, slight figure to the best advantage, being composed of white satin velled with tulle frills. The vest was carried out

of the new white moir-brocade lined with chiffon and bordered on the inside with a wide chiffon ruche.

Several of the charming trousseau frocks have been designed for the visit

a band of lace being repeated on the Chinese blue and white silk handker-

Another of the simpler gowns chosen Another of the simpler gowns chosen for the same purpose is of patterned linen, the design being that of pink trefoils on a white ground. A panel piped on each side with white pique is introduced from the throat to the hem, and is ornamented with a double row of white pique buttons connected with narrow cord, the whole being completed with a tiny furn-over color completed with a tiny turn-over col-lar and cuffs of lawn threaded with dered in silk in a dainty design of

Pale blue Louisine forms the basis of a lovely evening gown which is likewise included in the trousseau, a rimming of soft-tinted lace bein- carried out in the Greek key pattern on bodice and skirt. A tucker of lace threaded with silver ribbon borders threaded with silver ribbon borders the decolletage, the lace and ribbon being repeated on the sleeves. Perhaps one of the most becoming gowns which have been included in the trousseau is a lovely dinner dress fashioned of pale lemon-colored ninon de soie; which falls in graceful folds and is work dalutily trimmed.

very daintily trimmed.

A fifth dress is designed of white at the hips, and the bodice cut in bolero form with a yoke of Irish crochet and a collar of old Brussels

One of the handsomest items of the trousseau is a beautiful Japanese ki-mono, worn in coat form over a teagown of orange mousseline de soie, the kimono itself being embroidered in a multiplicity of soft, harmonising tints, while the effect is enhanced by a waterfall of old lace. A useful coat of Irish canvas is likewise included in the trousseau, this being designed. the trousseau, this being designed with the fashionable triple capes and lined with silk. A pattern of applique leaves in red and green silk gives relief to the scheme.

Popular Playhouse is in a Fine New Dress to Open With a

effects have been an important item in the yearly improvements.

It Looks Pretty Nice.

On Monday evening next Toronto theatre-goers will have an opportunity of witnessing one of the prettlest of theatrical decorations when the Majestic Theatre opens for the regular season. The decorators have realized the charm of line and color, and the observer does not stop to question whether the design

pleasing.

The auditorium being long and narrow, it was necessary to have a color effect that would be bright and in keeping with the construction of the building with the construction of the building. The numerous panels which are a feature of the walls and cellings, both in flats and ovals, gave the decorator a good ground to work on and that a delightful color effect was produced is agreed by all who have had the opportunity to witness the work as it progressed. The basis is a rich cream with panels of a light green that blend in a pleasing effect. Surrounding all is a band of gold that winds in and out among the floral plaster pieces, giving a richness to the decorating that is heightened when the full flood of electric light is thrown on. The work on the proscenium arch is in keeping with the general decorations. The figure designs are not too heavy, as is the case in many theatres, just enough to relieve the eye and cause an involuntary, isn't that pretty?"

tulle frills. The vest was carried out in tucked tulle, below which the bodice was softly draped to over the bodice was so dice was softly draped to one side.

where it was caught with a trail of orange blossom and long ends of white tulle. The full court train was of the new white molyphysics of the new white the new white molyphysics of the new white molyphysics of the new white molyphysics of the new white the new white

Something new in the way of aerial to Brittany, where part of the honey-moon will be spent. One of these is of cornflower muslin, pinspotted with white and made in a simple manner.

Mrs. Chamberlain having adopted the sensible expedient in many instances of having her "useful skirts" to clear liar one. It consists of a platform in the ground. The bodice is furnished three sections. The end sections are with a vest of tucked lawn, adorned solid; the middle one contains a trempwith tiny lawn buttons and ecru lace lin, or elastic cloth. The entire contrivance is suspended 30 feet in the air. bottom of the skirt. To wear with this gown she has selected a natural colored Panama hat swathed with a Chinese blue and white silk handker the ground. Many other new acts, of striking novelty, are announced for the big show's performance this season.

Association has issued a statement that the employers are prepared to fight against the strike for six months.

President Hamiltonian in the strike for six months. lar and cuffs of lawn threaded with pale blue velvet ribbon and embroisociation says the unions have funds to fight eight months.

Cramps, Colic, Seasickness,

Matinee on Monday.

The past decade has witnessed a wonderful change in the appearance of the interiors of playhouses, and local auditoriums reflect this change in a marked degree. Owners of theatres now pay

ery, costumes and dressing of plays. Theatre-goers nowadays want something pleasant to look upon-restful to the eye and gratifying to the sensessomething that does not clamor for attention. And a decoration of this character is the best that can be placed in an auditorium where people come to be amused and entertained. So necessary has pleasing decorating become that in all the popular-priced theatres in the leading cities the interior color effects have been an important item in the yearly improvements.

not stop to question whether the design was based on fact or fancy. It charms. The colors are rich, and in suggestion,

are not too heavy, as is the case in

# DREAM IN DECORATION AT THE MAJESTIC THEATRE Proved Healthfulness

Scientists Affirm the Healthfulness of Good Beer

Purity means an absence of foreign matter -nothing else.

Cleanliness is a well known brewing ESSENTIAL. It is a matter of self-preservation with ALL brewers.

Purity and cleanliness alone do not assure Good Beer nor Healthful Beer.

Healthfulness depends solely upon QUALITY, and quality depends solely upon the ingredients used and upon the method of brewing.

Beer may be brewed from almost any cereal.

Many brewers use Corn as a substitute for Barley-Malt, because Corn costs less.

But the element of QUALITY, the essential of Healthfulness, must be lacking in such Beer.

Choice Barley, Selected Hops and extra quality Yeast are the prime essentials of Good and Healthful Beer.

This is a well known scientific fact.

We use the choicest Barley and Saazer Hops in brewing our Beers, adding a small quantity of Rice in pale beer.

These Saazer Hops, from a small province in Bohemia, have been found by Scientists to contain a superior quality of that wonderful health-giving substance—Lupulin.

Lupulin is creating a stir in the scientific and medical world because of its marvelous results in the treatment of nervous and digestive disorders.

We import a greater quantity of these expensive Saazer Hops than all other brewers combined.

Our storing capacity - 600,000 barrels. more than double that of any other Brewery in the United States-makes it possible for us to store (lager) our Beer from four to five months, the time necessary to thoroughly age it.

This perfect maturing brings out, to the utmost, the health-giving qualities of the choice ingredients used.

These are the facts relative to what constitutes good beer.

They are worthy the attention of every person who demands the best when eating or drinking.
