DIAMONDS MADE BY MACHINE

Professor Edgar Smith of University of Pennsylvania Finds the Inventor's Claim to Be True.

COST MORE THAN THEY ARE WORTH

Secret Lies in the Method of Cooling Carbon Heated to a High Degree.

Philadelphia, July 19.—Through the invention of a machine for developing very high temperatures, Professor Edgar Smith, of the University of Pennsylvania, has made it possible to produce diamonds in the laboratory.

Experimenters and chemists have of late been making tests with the machine, and many of them state that all that Mobsam claims for it is true.

Dr. Edgar Smith, vice president and professor of chemistry in the University of Pennsylvania, has made it possible to produce diamonds in the laboratory.

The chief problem in the formation of large crystals is the proper method of cooling the heated mass and as the present operations are only a beginning chemists are confident that it will not be long before diamonds of considerable size are made.

Diamonds and graphite are pure carbon, and are produced by heating that substance to a high degree under pressure of expanding iron. The mass is cooled quickly, air being blown over it, and the result is a diamond.

This is the theory of the Mobsam machine. A cylinder of soft iron is filled with pure sugar of charcoal. The air is driven out of the cylinder and the iron is then placed in a carbon pot filled with molten iron.

The electrodes are heated to at least 3500 degrees Centigrade. Crystallization is thus caused. The cylinder is quickly cooled, and the iron dissolved, thus freeing the crystals.

JAMIESON'S EMPLOYEES' PICNIC.

A Pleasant Sail, With Picnic and Sports at Lorne Park.

The employees of Philip Jamieson, the prominent men and boys' clothing outfit, held their annual picnic to Lorne Park on Thursday.

The weather could not have been more favorable, and the outing was the most successful and enjoyable yet held by the employees of the house.

The ladies of the committee, like the house by which they are employed, always make a success of any undertaking they assume, and the dinner and tea served by them on the grounds formed not the least enjoyable part of the day's proceedings.

The ladies of the committee were Misses Critchfield, Richards, Clark, McMillan, Hicks, Barefoot, Outman and Ross.

The afternoon's sports were carried out very successfully under the management of the following committee: S. Levy, J. Green, J. Steele, J. McGraw.

The prizes for the different events were donated by Mr. Philip Jamieson, for whom three hearty cheers were given as the steamer started on her homeward trip.

FIRST SHIRT-WAIST WEDDING.

New York, July 19.—The first shirt-waist wedding of the season is reported from Belvidere, N.J. It occurred at noon yesterday.

The bride was Miss Grace Green, and the groom Mr. Mackay, both of Hackensack. The bride is the daughter of Mrs. Mary Green, a widow, of Belvidere, and a relative of W. W. Gibbs, a multi-millionaire of Philadelphia.

Mr. Mackay is a young lawyer. The ceremony was performed by the Rev. Mr. Brooks, in the presence of a large number of guests.

An unusual feature was the presence of men and women wearing shirt-waists. The bride was handsomely attired in a light blue gown. Dr. Bosley played the wedding march. The bride was given away by her uncle, Miss Gibbs. She was accompanied by maid. Mr. Charles Van Scooten was best man. A wedding breakfast was served at the home of the bride, after which Mr. Mackay and his bride left for the Catalina.

WHIPPED IN MISSOURI.

Kansas City, Mo., July 19.—Judge George L. Walla, known as the whipping post judge, today caused a young girl to be given twenty lashes in his court room.

She was the first girl to be sent to the whipping post.

The girl, Lillie Thomas, had been convicted of stealing a purse containing \$5, which she spent for soda water and candy. According to his custom in cases where children are convicted of petty crimes, the justice pronounced a full sentence, with a stay of execution providing the parents of the girl gave her a whipping.

The mother of Lillie Thomas eagerly grasped the offer and before Judge Walla and court she gave her child such a whipping as she will not soon forget.

THE COMMONEST OF ALL TROUBLES.

DODD'S KIDNEY PILLS ARE USED MORE FOR BACKACHE THAN FOR ANY OTHER KIDNEY AFFECTION.

Bright's Disease Not so Frequent of Late Years—Dodd's Kidney Pills Undoubtedly the Cause—Diabetes Also Far Less Prevalent.

Matane, Que., July 27.—(Special.)—Not only in this neighborhood but throughout the Province of Quebec there is a marked decrease noticeable in the number of cases of Bright's Disease reported. This fact is undoubtedly due to the wide use of Dodd's Kidney Pills in the earlier stages of Kidney Disease.

Bright's Disease at one time was the cause of a large proportion of the deaths in this province. It was considered incurable, and until Dodd's Kidney Pills were introduced it was incurable. Not so, however, now. Dodd's Kidney Pills have almost wiped the disease out. Nor is Diabetes heard of now to any great extent.

The most common form by which Kidney Disease manifests itself is Backache, and here Dodd's Kidney Pills are doing their most active work. They are recognized as the surest and quickest cure for Backache ever invented. They work on the principle of going to the root of the trouble—the kidneys—wherein they differ from all other backache medicines except Dodd's Kidney Pills. They do more than merely relieve. They positively and permanently cure, as thousands of people are ready to testify.

O. Dionne, a well-known resident of Matane, says: "Dodd's Kidney Pills have made a grand success in curing me of Backache and I recommend everybody to keep them in the house. They are a wonder as a remedy for Backache and Disease of the Kidneys."
