President of Boston Canadian Club Speculates on Possibilities of the Situation.

BOSTON, Mass., Feb. 9.-(Special.)-President Asa P. Minard of the Canadian Club of Boston has created a sensation here among the club members by the views he has given on the position Canada would take in the event of hostilities between the United States and Japan.

"Had the United States," he said, in an interview to-night, "shown a more liberal spirit in dealing with the tariff with Canada, I believe that in the event of war between Japan and the United States Canada would very probably offer its aid to this government, even tho such a step would of necessity mean the severing of its

allegiance to Great Britain." "The tariff wall," he continued, "has forced Canadian people to look to Great Britain for its markets, in a measure, and has served to in crease and make stronger the loyalty to the home government and the royal-

## CHILDREN CURED BY ZAM-BUK

Mother also Benefits

Mrs. L. Webster, of 519 Seigneur street, Montreal, says:—"Last summer my little girl contracted scalp Disease acalp disease at school. This took the form of bad gatherings, which broke out in the head, and we feared she would have a very bad head and probably lose her hair. After she had suffered about two weeks we heard of Zam-Buk, and purchased a box. Zam-Buk arrested the disease and prevented it from spreading, and in a very short time healed the sores, leaving the scalp free of any trace of this loathsome scalp trouble."

"Since then I have had occasion to test the merits of Zam-Buk in my son's case. One day as I was lifting a Boy Badly pan of boiling water off the stove, my son Eddie ran Scalded towards me and knocked the pan upwards. The water went over his neck and scalded him very badly. It was a very awkward place on which to keep a plaster, and several things which we tried failed to give him relief. We then applied Zam-Buk. This acted like a charm, quiekly drawing away the pain, and soon healed the scald."

Mother's a peculiar accident. She says:—

Eye Wounded playing indoors, accidentally struck me over the eye with a stick he was swinging about. I seemed to get the full force of the blow, and the result was an ugly gash just above the eye. This was quite painful, became inflamed a daltogether was not any improvement to my general appearance. I was forced to remain in the house until healed. As luck would have it, the previous night I had just taken home a box of Zam-Buk, so it came in very useful. A few applications quite removed the soreness, drew out all inflammation and started healing. In four or five days the wound had closed up nicely, leaving only a faint red mark to show where the cut had been. This also soon disappeared. Zam-Buk is a most useful balm, and we always keep it handy for we have proved it an invaluable Household Remedy."

## HINDU REVOLUTIONISTS AT WORK IN NEW YORK

An Interview Which Throws Some Light on a Large Imperial Problem.

NEW YORK, Feb. 9.-The World

to-day says: Hindu revolutionists are at work in New York. A hundred young Hindus have organized a movement here against British rule in India. A periodical called "Free Hindustan" made its first appearance in the city yesterday. It is devoted to the interests of the new revolutionary

movement. More than two hundred Hindu students are now residing temporarily in the United States, to obtain the benefits of its universities and col leges. They mostly are representatives of the higher caste of India and call themselves the "future citizens"

of the Indian empire.

Since the partition of Bengal in 1905, which caused much discontent among the Indians with the British Government, the Hindu movement toward ment, the Hindu movement toward independence has taken strength. The "Hindustani Association," which has headquarters in Calcutta, Bombay and Madras, has raised money enough to educate several hundred Indian young men in foreign universities, especially in Japan and the United States.

men in foreign interestates.

In Japan and the United States.

There are 5 universities, 141 colleges and 5461 high schools in India. A competitive examination is open for all the students in these institutions for the "foreign" scholarships. Out of several thousand applicants only 200 are sent every year to foreign countries. Every student sent abroad must pledge himself to return to his country and devote himself to the advancement and freedom of India.

The "Hindustani Association" recently published a pamphlet giving detailed information about the American colleges and universities. Every student is supplied with one of these

One of the rules is that the students mingle with the American pupils, obtain American ideals and study the social and economic conditions here. But they must always keep in mind they are preparing themselves to elevate and help their countrymen to gain their freedom.
