# CAN SUB. GOALIES AT START OF PERIOD

Change Made in Hockey Rules—Officers Elected by the C.A.H.A.

The Canadian Amateur Hockey Association held another session behind closed doors yesterday, just why nobody seems to know. The information handed out tells of one drastic change made in the playing rules, which next season will allow substitutes to be made in the nets. The rule formerly read that a goalie could only be changed when the regular net guardian was so badly injured that he was unable to continue. With the new rule passed yesterday a goalie may be changed at the start of a period, but not at any time during a period unless the man in the net is injured.

The constitution was revised and the Olympic Cup trustees will have to turn over a percentage to the C.A.H.A., and a committee composed of Dr. Johnston, Reginald, H. J. Stirling, Fort Williams and A. E. Copeland, Midland, will meet the cup trustees during the summer to decide the amount.

The western college unions were admitted to the association with the same standing as the intercollegiate union. The Central Canada Association applied for affiliation.

H. J. Stirling of Fort William was elected president, W. G. Chester, Vancouver, vice-president, and W. M. Nobis, Winnipeg, governor to the A.A.U. of C. The presidents of each provincial body are members yearly and they will select their secretary.

The Matlands and Victorias play their unfinished T.H.L. game tonight in the Arena after the pro match. Vics are leading by 4 to 1, and they have 20 minutes to play. They were to have played yesterday afternoon, but at the time the ice was just being flooded.

Ottawa.—The Canadian government trade commissioner at Shanghai, China, writes to the effect that there may be opportunities in China for the sale of Canadian wooden houses. He says that the cost of land and the rents of houses are probably not exceeded by any other city in the world.

# DUNLOP CORD TIRES

IF YOU had the time to note the tire equipment on automobiles these days, you would believe, as we do, that

# 1920 IS A DUNLOP YEAR

- ☐ The ascendancy that shows on our sales record, naturally tallies with the "road" record.
- ☐ You may not know where rubber comes from, but after a purchase you'll soon know that it goes into Dunlop Tires.
- ☐ Try "Traction" or "Ribbed." The verdict on these two exceedingly popular tires is
  1. That the Quality Never Varies.
  2. That the Mileage Keeps Adding Up.
  3. That the General Serviceability is Matchless.
