"THE ENDS OF THE EARTH MAKE ANSWER"

Dardanelles Free Under Supervision Of League of Nations

Declaration of British Policy Made Today by Lloyd George—More British Ships to the Straits—Special Prayers in English Churches on Sunday.

(Canadian Press Cable.)
London, Sept. 23.—The policy of Great Britain in the Near East is to establish the freedom of the Dardanelles under the supervision of the League of Nations, declared Prime Minister Lloyd George in a statement at a conference with newspapermen this afternoon.
Premier Lloyd George said that whatever steps the government had taken to strengthen the military and naval forces in the Dardanelles and the Bosphorus had been dictated by two supreme considerations:
First—"Our anxiety as to the freedom of the seas between the Mediterranean and the Black Sea," and
Second—"To prevent this exceptionally prodigal war from spreading into Europe."

It is not pretended that this map is drawn to scale. The idea is to show the approximate positions of the overseas Dominions to the seat of possible conflict in the Near East. In constant communication with the British Cabinet in London, awaiting definite word as to the developments. They are in constant communication with the British Cabinet in London, and there is no doubt that if the Mother Country asks for assistance in a campaign against the Turks it will be quickly forthcoming from all of them.

McGraw Uses Six Pitchers Wins Final and Important Game from Pittsburg

Very Slim Chance to Oust Either New York Team—Joe Bush's 26th Victory—Ty Cobb Gets Four Hits Against Red Sox.

(Canadian Press)
New York, Sept. 23.—Take it from New York's baseball fan, the major league pennant races are "all over but the shouting." Mathematically speaking, the St. Louis Browns in the American and the Pittsburg Pirates in the National have a chance to overhaul their Gotham rivals, but it is a slim chance.
The Giants, with ten more games to play, were leading by four and a half games today as a result of defeating Pittsburg, 8 to 7, in a sensational hand-to-hand grapple upon which the last tangible hope of the Pirates rested. The Yankees, with six games yet to be played, followed Cleveland, 3 to 2, in their fifth straight victory, and kept a lead of three and a half games over the Browns, who defeated Philadelphia, 5 to 4, in their fifth straight win but half their games—
The Giants five and the Yankees three—to retain their championship titles, even if the Pirates win all seven of their contests and the Browns are victorious in their five.
McGraw used six pitchers and an overdose of strategy to take the final contest from Pittsburg, the climax coming in the ninth when the champions succeeded in piling up a five-run lead in the fourth, but Johnny Morrison paved the way for the beginning of the end of blowing up in the next inning.
Joe Bush hung up his twenty-sixth triumph of the season at the expense of Speake's Indians as the American League champion pounded Edwards and Winn consistently.
George Sizer returned to the game while the Browns slugged out their victory over Philadelphia. Ty Cobb laced out four hits to help his Tigers down the Red Sox, 4 to 3, while the White Sox bunched hits to beat Washington, 6 to 4.
In the National League Philadelphia and Boston divided double-headers with Chicago and Clemons of the Cardinals each collected four singles in as many times up while St. Louis took 7 to 4, game of the series from Brooklyn.

Prominent Folk Among the Mount Claire Passengers

Quebec, Sept. 23.—The Canadian Pacific 17,000 ton steamer Mount Claire in command of Captain R. G. Latta, docked at 6:45 o'clock yesterday afternoon, with 857 passengers and crew members. Among the prominent passengers were Sir Thomas Fisher, K.C., general manager Canadian Pacific steamships Ltd.; Lord Egerton of Tatton Park, Knutsford, Eng., who is on his way to B.C. to visit his ranch in that province; Very Rev. A. E. Burn, D.D., Dean of Salisbury, who has come to Canada to lecture in various cities of the Dominion; J. S. Keith in charge of a large party of Americans from California, who have been touring Europe since June last; Dr. H. Ami Fraz, famous Canadian geologist; Prof. R. A. Daly of Boston; Prof. E. T. Lashur, M.A., professor of comparative literature at McGill, who attended the 70th anniversary of the Padua University at Padua, one of the famous seats of learning in Europe; Prof. Hon. Justice W. Ross of Toronto; Prof. J. Roy of Toronto, and Prof. F. M. Warren of New Haven, Conn.; W. H. Ellis, Canadian government official at Sullivan Island, New York; Lieut. Col. D. McAlpine of Toronto; Miss L. Du B. Rockefeller, Rev. C. Bickerseth, J. W. Patterson, and H. D. Cuttler, barrister, of Winnipeg.

Gemma, Held as Liquor Vessel, Is Released

Halifax, N. S., Sept. 23.—The British steamer Gemma, recently seized off New York, and held at port on suspicion of rum running, has been released and is proceeding to Havana, according to advice to the Halifax customs from New York. The Gemma cleared for Havana from Halifax with \$100,000 worth of liquor.

More Ships To The Straits

London, Sept. 23.—It is said that several more units of the Atlantic fleet, including the battleship Revenge, have been ordered to prepare for service. The fleet, which in a few days will be concentrated in the vicinity of the Dardanelles, comprises a formidable array of naval power. With the addition of the Revenge there will be seven capital ships under the orders of Admiral Brook, mounting altogether sixty 13-inch and eight 15-inch guns.
Malta, Sept. 23.—Further military detachments for the reinforcement of the British forces in the Dardanelles are expected to leave soon for Constantinople, and the preparations for their departure are actively proceeding.
Units of the second destroyer flotilla, detached from the Atlantic fleet to reinforce the squadron now in the straits, have been ordered to come in. The warship Centaurion, which is returning here from England, is expected to proceed to Constantinople immediately after taking on supplies.

Arrest Father and Daughter in Murder Case

Calgary, Sept. 23.—Enril Piccarillo, alleged murderer of Constable S. O. Lawson, at Coleman, Alta. on Thursday, and his daughter, Mrs. Charles Lassandrea, a few hours later, according to information received here last night. It is said that Mrs. Lassandra will be jointly charged with Piccarillo.
Both parties to the alleged murder surrendered calmly. Whether or not Piccarillo or his daughter fired the shot which ended Lawson's life is unknown. Eye witnesses say Piccarillo fired two shots and the woman one. The nine-year-old daughter of Lawson, who witnessed the cold blooded slaying of her father, said the police officer fell at the fatal shot. Police believe this was the fatal shot and that for this reason, Piccarillo surrendered himself and afforded his daughter an opportunity to escape. An inquest will be held at Coleman.

Theatre Lobby Floor Collapses

Pittsburg, Sept. 23.—Two girls and a boy were crushed to death and twenty school children, most of them under ten years of age, were severely injured yesterday afternoon when they were hurled into the basement of the Strand Theatre by the collapse of the concrete floor in the lobby. The injured were taken to nearby hospitals. Several may die.

A Libel on the Hawaiian Women

Honolulu, Sept. 23.—The Hawaiian Civic Club, composed of prominent Hawaiians, today adopted a resolution denouncing "exhibitions given in Hawaii and the mainland, under the name of the ancient Hawaiian hula in costumes alleged to be typically Hawaiian, as being indecent parodies and unjust aspersions upon the character of Hawaiians of today, especially women, of whom such exhibitions are degrading libels."
The resolution also requested all persons promoting or performing so-called hula dancing to desist. It was adopted following a heated discussion.

Painter Hung To Cornice High In Air

Kingston, Ont., Sept. 23.—Ned Kelly, a local painter, had a miraculous escape from death today. He was painting a building sixty feet high, when his ladder slipped, but he grabbed the cornice of the building and held on for fifteen minutes until a passerby put the ladder in position and rescued him.

Trouble In The Jordan Country

British Forces Being Sent From Palestine To Prevent a General Uprising.
Cairo, Sept. 23.—Amman, a trans-Jordanian town on the Hedjaz Railway line, southeast of Es Salt, has been captured from Emir Abdullah's troops by Wahab, the irregulars commanded by Ibn Saud, according to a Jerusalem report. British infantry and planes are being dispatched from the Palestine garrison to suppress any general uprising east of the Jordan.

Better Outlook For Our Fruit

Montreal Reports New Brunswick Sales Better and Prices Showing Higher Tendency.
(Special to Times)
Fredericton, N. B., Sept. 23.—The outlook in the fruit market is more encouraging for New Brunswick apple growers. The early apples did not bring satisfactory prices because of heavy production and unusually late crops in other parts of the Dominion but later apples should do better.
Recent telegraphic reports from Montreal are that sales have been numerous and that prices there are offering a good prospect. Canada, said Dr. Ami, took \$250,000 worth of apples from the Canadian export during the last year, in comparison to only \$14,000,000 when he had first become connected with the department.
He attended the world's geological congress in Brussels, which was tremendous in its importance, and was elected one of the vice-presidents. This congress, said Dr. Ami, was a delightful meeting of scientific men from all parts of the world, and there were twelve important matters that came before the meeting was the resources of Africa and Asia which demonstrate a wealth of mineral resources awaiting development.

Noted Geologist Home From Abroad

Quebec, Sept. 23.—Dr. H. Ami, F. R. G. S., famous Canadian geologist, returned to Canada in the C. P. steamer Mount Claire yesterday, after being eighteen months overseas. He said that one of the principal duties he had to perform abroad was to attend to a request of the Canadian minister of mines to look into the iron, petroleum and coal mineral situation, especially petroleum, and to have him get the British viewpoint. He said that the British view of the world, as well as other parts of the world, were of tremendous importance at present. Canada, said Dr. Ami, took \$250,000 worth of minerals from the Canadian export during the last year, in comparison to only \$14,000,000 when he had first become connected with the department.

Strike Closes Steel Works and Colleries; Nearly 15,000 Men Out

London, Sept. 23.—(Canadian Press)—All the Ebbwvale collieries and steel works, employing nearly 15,000 men, closed yesterday as a result of a wage dispute which previously led to a twenty-four-hour strike.

Neck Broken Month Ago; He Still Is Alive

St. Louis, Sept. 23.—Physicians today said there was a chance for the recovery of Paul Bonch, twenty-six years old, whose neck was broken four weeks ago while he was diving. The fifth vertebrae in his neck is fractured, and his spinal cord is severed. Physicians say his life literary has been "hanging on a thread," and declare the case to be without parallel in medical history. He has been conscious. Physicians say the fracture is knitting.

Two Automobiles Were Seen Speeding Through Streets of New Brunswick, N. J.—Screams and Shots.

New Brunswick, N. J., Sept. 21.—New Jersey officials investigating the murder of the Rev. Dr. Edward Wheeler Hall and Mrs. Eleanor Mills of New Brunswick, last Thursday, have taken up a report that the couple had been kidnapped in two automobiles from a trapped place and slain near a farm, about a mile and a half from Dr. Hall's church.
Mrs. Charles Jones, who lives less than 1,000 feet from the place where the two bodies were found, told of having seen two automobiles speed south past her house toward Rutgers College near midnight on Thursday. Mrs. Jones said that she was sitting at the window nursing her baby a few minutes before the automobiles passed when she heard a woman's screams coming from the direction of the Phillips farm house on the top of the hill to the east of her home. Her husband, who was in another room, ran to the window beside her, and they were standing there perhaps five minutes, she said, when they heard four shots.
"The sound of the woman's wail appeared to come from Landing Lane," Mrs. Jones said, "but the shots unmistakably came from the direction of the Phillips farm house in the rear of us. It was a very quiet night and while we felt that the woman's scream and the shots were in some way related, we were puzzled to know why they appeared to come from different places."
"My husband and I stood at the window discussing the incidents for a few moments. He started toward the rear to a rapidly approaching automobile coming from the direction of Landing Lane, about two blocks to the north of my home. My husband is an automobile dealer, and he said to me, 'That fellow is going at a terrific speed.'"
The prosecutor's attention was called to the fact that reports were being circulated in New Brunswick that the slayer or slayers were being shielded from arrest.
"If we get the right kind of evidence," he asserted, "it will not make any difference who the murderer or murderers were. I am confident, however, that there will be an arrest."

Man Badly Beaten By Youthful Thugs

Toronto, Sept. 23.—When he attempted to grapple with three juveniles who broke into his home in broad daylight, James Johnson, 2190 Dufferin street, was badly beaten with sticks carried by the youngsters. One of the lads was taken into custody by the county police, but the others are still at large. The lads are all about fifteen years of age.
The scene of the robbery is a small cottage just beyond the city limits on Dufferin street. It is occupied by two families, the Johnsons and a Mrs. Oldfield and her children. At the time of the entrance the tenants happened to be out, but Johnson, returning, caught the lads helping themselves to whatever they could lay their hands on, and interfered.
In the fight that followed he was badly beaten about the head by the youngsters, and would in all probability have fared even more badly had not a bread driver and some other men, who happened to be about at the time, taken a hand in the fight. The lads were chased, and one was captured.

Three Boys Caught in Act of Robbery Attacked Owner of House.

Toronto, Sept. 23.—When he attempted to grapple with three juveniles who broke into his home in broad daylight, James Johnson, 2190 Dufferin street, was badly beaten with sticks carried by the youngsters. One of the lads was taken into custody by the county police, but the others are still at large. The lads are all about fifteen years of age.

Weather Report

Secretary of the Methodist Social Union of Toronto, who says that two and a half million dollars will be needed for extension work of the Methodist Church.
Phelix and Ferdinand
Dolly Wany a Cracker?
Issued by authority of the Department of Marine and Fisheries.
R. P. Bishop, director of meteorological service.

War or Peace May Be Known By Sunday

Decision of Angora Cabinet as to the Peace Conference
France Expected to Renew Pressure to Keep the Turks from Hostile Action—Kemalist Concentration Continues—Greek Plot to Restore Venizelos to Power.
(Canadian Press Cable.)
Constantinople, Sept. 23.—Within thirty-six hours the world will probably know whether the Turkish Nationalists have chosen war or peace. The Angora cabinet, meeting at Smyrna, is expected hourly to declare whether the Kemalists will await the peace conference proposed by the powers or take matters in their own hands by invading Thrace.
France is expected to exert renewed pressure to keep the Turks from any hostile action which would jeopardize their present extremely favorable position at the forthcoming conference, but many competent observers are frankly skeptical that the Nationalist cabinet will accept at their full value promises that the conference will result in the realization of all their claims.
The Turks are fully aware of the weakness of the British land forces now precariously holding points along the Asia Minor shore and are convinced of their ability to defeat them.
In Greece.
Athens, Sept. 23.—The discovery of a plot to return former Premier Venizelos to power is announced. Several persons have been arrested, and the authorities are conducting house searches. No details of the plot have been given out.
The Greek government, it is understood, has decided to convoke the national assembly immediately after the reconstitution of the army. The minister of the interior has received a message from Gallipoli stating that a commission of French officers with a high Turkish official had visited Chanak to inspect war material concentrated there in 1920 by the commission charged with the disarmament of Turkey and since under allied supervision.
Morning on Island.
London, Sept. 22.—The Kemalists forces are rapidly increasing on the Chanak frontier, but have not committed any overt act, says a Reuter despatch from Constantinople dated Friday. Reliable reports say a still more serious concentration is occurring in the island, to which region Mustafa Kemal Pasha, the Nationalist leader, is proceeding, and there seems to be ground for believing the Kemalists will make Constantinople their objective, rather than Chanak, inasmuch as larger quantities of supplies are available in the island region, while the population of Constantinople would cause trouble in the rear of the British.

Reorganize The Fisheries Department

This is One of the Recommendations of Commission Headed by William Duff, M. P.
Ottawa, Sept. 23.—(Canadian Press)—Some sweeping recommendations are understood to be included in an introductory report of a commission on British Columbia fisheries submitted by Wm. Duff, M. P., of Lunenburg, N. S., chairman of the commission, to Hon. Jacques Bursaux, acting minister of marine and fisheries yesterday. Contents of the report have not been made public, but two of its main recommendations are said to be:
1.—Curtailment of the issue of fishing licenses to Japanese.
2.—Re-organization of the department of marine and fisheries.
In the latter connection the suggestion has been that a minister of fisheries be created distinct from the department of marine. The report is understood to take up this point and to urge re-organization of the department with a view to greater attention being given to fisheries and to the pursuance of a more consistent policy.

Plane Crashes in Forestry Work in Quebec

Quebec, Sept. 23.—The forestry branch of the department of lands and forests was advised last evening that for the third time this season an accident had occurred to hydroplanes operated by the Dominion air board on the north shore and utilized by the provincial forest service for surveying purposes and observation.
Only meagre details reached the department, but these were to the effect that a forestry engineer had been injured. The engine crashed, and that the machine was a complete loss.
The engineer hurt was Henri Methot, who received a cut over the eye. The hydroplane reported lost had reached its post only a few weeks ago from Halifax.

Planted Still to "Frame" Farmer

Brantford Magistrate Scores Cuts, Former Ontario Temperance Act Official.
Brantford, Ont., Sept. 23.—"The meanest man I have been found here, according to the local police—a man so mean that Magistrate Blake yesterday commented 'I can walk with a drunk and I can walk with a bootlegger, and even a man who has a still in his possession, but a man who would play a trick like that on a man unknown to him is too much for me.'"
The man is R. Cutts, who, with J. Simmons, was charged with having a still in his possession. Cutts, a former O. T. A. operative, said that he and Simmons wanted to "frame" a farmer named Shore, of this district, so they placed a still in a pond on the Shore farm, then tipped off inland revenue officers. Simmons, who recently was fined for having a still, denied having anything to do with it.
Magistrate Blake asked Cutts if he ever read the Bible, and on being informed by Cutts that he had asked if he remembered the story of Judas Iscariot. Cutts didn't remember. Magistrate Blake then commented as quoted above that both men \$800, with a six months option, until Monday to get the money.

Well Pleased With Observation of the Eclipse

London, Sept. 23.—(Canadian Press)—Professor C. A. Chant of the University of Toronto, one of the astronomers who went to Australia to witness the eclipse of the sun, telegraphed to the Melbourne Herald, according to a Reuter despatch from Melbourne, stating that the total phase of the eclipse exceeded five minutes. During this time one hundred photographs were taken, including a series of the sun as seen in polarized light and photographs of mysterious shadow bands.
The general feeling among the astronomers who viewed the eclipse is that the observations were satisfactory, the English party particularly being delighted.

Carpenter Is Picked to Win

Twenty Rounds Tomorrow, With Senegalese
Latter Refuses to Train Seriously, But Depends on Ruggedness—Horses Fail to Beat Time on North Randall Track.
(Canadian Press)
Paris, Sept. 23.—Georges Carpentier is looked up by the experts as a sure winner over "Batling" Siki, Senegalese pugilist, in their twenty round battle for the European heavyweight title to be held tomorrow afternoon outside Paris.
The contest has drawn the biggest gate ever seen in France. Few expect to see anything but a easy knockout, and the big prospective attendance is looked upon as an indication that Carpentier has regained much of his popularity.
While conceded to be the hardest headed fighter on this side of the ocean and capable of taking unlimited punishment, Siki has lost favor by his refusal to train seriously. His backers, however, hope that his naturally rugged constitution and splendid physique will carry him through. Although he will not conform to training rules he takes a hard workout daily, facing six training partners in a row.
Did Not Beat Time.
Cleveland, Sept. 23.—Peter Manning, world's fastest trotter, failed to break his mark of 1:57.3 made at the Lexington track, October 6 last year, in his attempt at the North Randall track here yesterday but he did break the track record of 1:58.3, made by Ullian in 1909, trotting the mile in 1:58.3. He also broke the track record here yesterday by trotting the mile in 1:58.3, the three quarters in 29 flat. Nedda, which trotted a mile in 1:59.1 at Toledo last August, beat the track record of 2:01.4 for trotting mares made by Hamburg Belle in 1904, and the track record of 2:01.4 driven by Harry Fleming, the mare made the quarter in 59.4, the half in 1:59.4, the three quarters in 1:59.4, and the mile in 1:59.4.
Arion Guy, world's champion trotting stallion, with a record of 2:00.14, held by Lee Axworthy. Driven by Tom Murphy, the best Arion Guy could do was 2:01.4.
Guardian, best champion three-year-old trotter, failed in an effort to lower his record of 2:08.3. The best he could do was 2:08.4.
Columbus, Ohio, Sept. 23.—Nothing but class races can be a success of \$1,000, will be raced here this afternoon at the Fall Grand Circuit meeting. The four events on the card—the 2:16 pace, 2:13 trot, 2:08 pace and 2:04 trot—have good sized fields with the exception of the last trot, which will have only four starters, two of them from the Cox stable. Several horses which have been racing in the west will be here for next week's racing.

Says Continental System is Best

So, Australian Investigator Advises Against U. S. Prohibition Legislation.
Vancouver, B. C., Sept. 23.—The continental system of light wine and beer and dispensing is the best solution of the liquor problem—better than any system of government control, in the opinion of F. L. Flanagan, who has been inspecting on behalf of the government of South Australia. He said last night on the Niagara for Adelaide. Prohibition as practised in the U. S., he declared, is a farce. He will advise the South Australian government against trying any similar legislation.

Boys Return

The wanderers have returned. Samuel and Albert Leyden, aged seven and nine years, of Millidge avenue, were produced at the police station this morning by their father, and it was expected that some disposition of their case would be made this morning by the magistrate.
