## I. L. P. APPEALS TO "REDS" BUBBLE

### BRITISH LABOR ATTEMPTING TO GET THROUGH BALLOT BOX WHICH IT CANNOT SECURE BY DIRECT ACTION

Fraternal Delegate From British Trade Union Congress Urges Moderation For Canadian Workers—Points the Road to Success—Scores Labor's Opponents.

In bringing the fraternal greetings of the British Trade Union Congress to the Trades and Labor Congress of Canada, Mr. John E. Davison, M.P., general organizer of the I.T.O. Founders of Great Britain, urged on the assembled delegates the wisdom of avoiding the absolute necessity of reliance on the ballot. He pointed out that the British workers have tried many ways to defeat the "Reds" in that country, but they have failed. He said: "Attempt to get by the ballot box what you cannot get by direct action."

His address is in part follows: "There has never been a time when more gratuitous insults and advice were levelled at the working classes throughout the world, as today. Here in Canada have read of the clergy attempting to not only dictate your policy, but also to suggest to you the lines upon which you should proceed."

"In Great Britain, we have a group of very eminent statesmen who made an appeal to trades unionists early during the war to come to the assistance of the Empire during the hours of need. No other section of the community responded so nobly, 'loyal and wholeheartedly as Labor to this call. We have been political power in England for generations past, and if it is true that the democracy of Great Britain is unfit to govern, then it is true that the democracy of the world is unfit to govern."

"Old Parties to Blame." "But the reason for this unfitness is perhaps easily found. There have been only two political parties that have been political power in England for generations past, and if it is true that the democracy of Great Britain is unfit to govern, then it is true that the democracy of the world is unfit to govern."

"Unfit to Govern." "One of the most pronounced opponents of trades unionism in Great Britain is Winston Churchill, Secretary of State for War. He is of the great family of the Duke of Marlborough, whose position was gained through surreptitious dealings with a head king. This man will go down to posterity as far as the working classes are concerned, as the Adventurer of Antwerp, the Gambler of Gallipoli, the Falser of the Peace of Versailles, the politician, and the fomentor of strife to impose militarism upon the United Kingdom. Originally a Tory, he has become a Liberal, and a Liberal, unstable as water, he has been faithful to none. And this is the man who tells Labor that it is unfit to govern."

"But no party in the British Empire, whether in England or in Canada can form a sound government if based solely on class privilege and the interests of the few. Labor party has opened its ranks to everyone who can subscribe to our policies. We invite every man, woman and child to join and agree with the Labor party in saying 'we will gather the fruits of our industry to ourselves and not allow them to be gathered by the capitalists, but the Labor party always remains a trades union party."

"Causes of Unrest." "There are many who believe that the present unrest in all the countries is due to the abnormal circumstances arising out of the war. To a certain extent this is true. There have been aggravated and intensified by them, but it is not all the truth. We have had in Great Britain an old feudal landed class which owned all the land, and not only the land, but every individual in it. Then there came, in the early part of the 19th century, an industrial domination with an appalling policy. It believed in grabbing everything it could get its hands on. It believed in buying in the cheapest market and of selling in the highest. This meant the bringing of a million of five and six years of wages into the pockets of the few. It is the policy of that period which is the cause of the present unrest."

### LABOR PARTY TO GOVERN

"The Labor party of Great Britain has now decided to govern the United Kingdom, and to govern it in a more equitable manner than either of the two old feudal parties. Great Britain is in the throes of an industrial turmoil at the present moment. The miners are on the eve of striking. Those men, prior to the war, were among the worst paid classes of workers. They were able to force the situation, in so far as wages were concerned, during the war. Not because they were dishonest did they do so, but because they discovered that the profits they were creating were not being distributed for the good of the nation, but were, instead, making their way into the pockets of the wealthy few."

"Nationalization of Mines." "The policy of the nationalization of the mines is that no man put the mineral wealth in the earth, consequently no man should be left on their extraction. The mine operators want the mines back, but this is what the miners are opposing. They are opposing the building up of great bank accounts for a few private individuals. I saw a statement recently in a Canadian paper with regard to the success of the tax. The article in question would lead to believe that

### British Labor Shows Increase Of 1,221,806

A feature of the British Trade Union Congress, this year, was the remarkable growth of the Labor movement, indicated by the number of members of unions affiliated. During the past eight years this membership has increased by no fewer than 4,722,530, or three-quarters of the current figure. Last year 851 delegates attended, representing 1,221,806 members—52,000 more than the year before. The increase was provided wide comment. They are, however, dwarfed by the new record set up by the attendance at Fortmouth of 1,221,806, representing a total membership of 5,105,452, or an increase over last year's figure of 1,221,806.

### FAMILY BUDGET DROPS A LITTLE

Wholesale Index Number Down Five Per Cent.

In prices the movement was again downward, says the current issue of The Labor Gazette, the index number of wholesale prices being lower at 390.3 for August, as compared with 346.3 for July, 349.3 for June, 356.4 for May, 1920; 361.1 for August, 1919, and 126.3 for August, 1914.

The decrease for the month, approximately five per cent, was due chiefly to lower levels in the fruits and vegetables group, but also a decrease in grains, cattle, sheep, hides, leather, in some metals, and in raw fur; in some of the other groups, increases occurred in the dairy group, in iron, coal, coke, and in petroleum products. In building materials some lines went up and some down, but there were considerable decreases in linseed oil, shellac and turpentine.

In retail prices the average cost of a weekly family budget of staple foods in some of 59 cities was \$16.47 at the middle of August, as compared with \$16.84 in July, \$14.43 in August, 1919, and \$7.45 in August, 1914. The decrease for the month was due chiefly to a drop in potatoes, but there were also slight decreases in meats, with increases in eggs, butter and sugar. In coal, wood, and coal oil there were increases.

### FIRST CHILD WELFARE CONGRESS MEETS OCT. 19.

The first child welfare congress held under Dominion Government auspices has been arranged by the department of health for Oct. 19 and 20, in Ottawa. The deputy Minister of Public Health, Dr. J. A. Amyot, has consented to meet the proposed conference on the dates named.

### PROSPECTS OF DEVELOPMENT OF STEEL INDUSTRY BRIGHT IN B. C.

Never in the history of British Columbia has the prospect for development of the manufacturing stage of the iron and steel industry been so bright as at the present time, according to a statement by Major D. B. Martin, provincial industrial commissioner, who with Jas. H. McVeety and Nicol Thompson, has returned from a trip of investigation and inquiry in the United States and Eastern Canada for the British Columbia government.

### REVOLUTIONARY SEED SOWN IN CITY OF TORONTO BEARING FRUIT

Some Butcher Workers and Electricians Secede From Internationals Because "Reds" Cannot Dictate Policies—Internationals Will be Maintained.

Seed sown by the Toronto revolutionary group is bearing fruit. A secession movement has been inaugurated in the Butcher Workers' organization and the Brotherhood of Electrical Workers. The daily press call the move a sensation but so far as the International organizations involved and the Trades and Labor Congress of Canada are concerned there is nothing new or sensational about it. The move has been known in any one's mind he should regard it as a question of when the action would be taken.

Leaders of this secession move would lead one to believe that it was due to the fact that these workers were Canadiana, first, last and all the time. If this opinion existed in any one's mind he should regard it as a question of when the action would be taken. The Butcher Workers' Union of Toronto has refused to pay per capita tax to headquarters because the International organization would not appoint a Toronto "Red" as its Canadian representative. The International Union would not be intimidated and thus the secession. With the Electrical Workers conditions preceding the secession are about on a par with the Butcher Workers. Some weeks ago the Electrical Workers voted to their support was agreed the sum of \$500. This was followed by a secret session and

### COMMUNIST PARTY SEEK DESTRUCTION OF THE TRADES UNION MOVEMENT.

By J. A. P. Haydon.

Under the caption, "Destructive Propaganda," the Executive Council of the Trades and Labor Congress of Canada in their report to the Windsor convention drew attention to the campaign being carried on in some parts of Canada by those who would set up in Canada a form of government similar to that now prevailing in Soviet Russia. Since my return from the Windsor convention I have received a copy of the constitution of the Communist Party—British Section of the Third (or Red) International. It is an interesting document and there is no mistaking their purpose.

A Few In Canada. Unfortunately, we have in the International Trades Union movement in Canada a few individuals who are carrying on the work. Some of them may be doing it unconsciously but the condition exists and it behooves every trade unionist who believes in the constituted Government, to be on his guard and see to it that these individuals are put in their proper places. The International trades union movement is no place for such individuals and they should be ousted from membership.

Massed Action. One of the first sections of the constitution of the Communist Party deals with massed action and those in our midst who are howling for direct action are but playing into the hands of the Communists. The manifesto says on this question: "The Communist party believes that the revolution will be accomplished by industrial massed action, massed strikes, and more so-called 'direct action' than that which is now being used by the workers' movement. The Communist party states that massed action is the first step towards the establishment of Soviet Russia."

Restricted though we are under our present laws, there can be no free speech or expression of opinion under the rule of the Communist Party. In their declarations of principle they make their position quite clear in the following language: "The Communist party believes that the dictatorship of the proletariat is the only form of government which can be established until the transition period has been safely passed and the counter-revolution completely suppressed. The purpose of this being, as pointed out in another section of the manifesto, that they will be 'prepared to seize the power of Government, to carry on production, and to defend their conquests by force.'"

Who May Vote. That is not all. Unhappily with the suppression of free speech and a free press the franchise is taken away from all who do not think as the Communists. The Communist Party, in their manifesto, states that they "will deprive of political power all those who attempt to perpetuate or reintroduce capitalist exploitation and who refuse to do socially useful work." In another section it defines who shall and who shall not vote. "No person," says the manifesto, "may vote or be elected to the Soviet government or to work for the community, who employs others for private gain, engages in private trading, or lives on accumulated wealth. Let us all co-operate and make persons will soon cease to exist."

The Trades and Labor Congress of Canada at its last convention passed a resolution to the effect that Canadian workers had nothing in common with the Communists. The Congress has done much to retard the influence of these destructive forces and it will continue to do so.

### LABOR UNIONS PRAISED

In a full page advertisement in the Oregon Labor Press, Wells Brothers Construction Company thanked the organized building trades of this city for co-operation in making possible the erection of the largest steel building in the northwest on schedule time.

### ANOTHER O. B. U. LIE NAILED

(Daily Herald, London, Eng. September 15, 1920.) Robert Smilie yesterday denied the statement ascribed to him in a message from Calgary to the effect that he had wired the "One Big Union" on the subject of a strike by the British miners.

### PROHIBITION HAS NOT PUT AN END TO POVERTY.

Increased activity in all departments of the work conducted by the Toronto House of Industry was shown last week in the reports submitted at the monthly meeting at 87 Queen street. One hundred and thirty new families have been added to the list of those receiving assistance. Five tons of coal, nearly 7,000 loaves of bread, 2,000 pounds of groceries and 17,145 pints of milk were distributed. The number of receiving assistance shows an increase of 33 per cent over that of the corresponding period last year. Two hundred and thirty-three persons were sheltered in the Ward from April 1 to September 1, an increase of 10 per cent over last year. At present there are 29 inmates at the home. Alderman C. E. Blackburn and ex-controller John O'Neill were elected to the board of managers. Rev. T. Crawford Esq. presided at the meeting.

### MACHINISTS REFUSE TO BE STAMPEDED.

The International Association of Machinists in convention at Rochester, N.Y., this week, voted down a resolution offered by Miss 113, Chicago, to withdraw affiliation from the American Federation of Labor as being unprogressive, unable to bring harmony in the ranks of Labor, and having officials that have become reactionary.

### The Ballot Box Is Wage Earners Only Salvation

"The British Labor movement has made many mistakes, and through these it has suffered. We have tried many times to defeat constitutional conditions by direct action, but we have inevitably failed. If we have failed over there, now do you think you can succeed in Canada? In a strike you inflict great hardship on the working classes themselves, especially upon the women and children, when the pinch of food shortage is felt. You deprive the moral efficiency of the people on strike when hunger creeps in. The strike is then defeated. Your programme ought to be to defeat constitutional conditions by direct action, but we have inevitably failed. If we have failed over there, now do you think you can succeed in Canada? In a strike you inflict great hardship on the working classes themselves, especially upon the women and children, when the pinch of food shortage is felt. You deprive the moral efficiency of the people on strike when hunger creeps in. The strike is then defeated. Your programme ought to be to defeat constitutional conditions by direct action, but we have inevitably failed. If we have failed over there, now do you think you can succeed in Canada? In a strike you inflict great hardship on the working classes themselves, especially upon the women and children, when the pinch of food shortage is felt. You deprive the moral efficiency of the people on strike when hunger creeps in. The strike is then defeated. Your programme ought to be to defeat constitutional conditions by direct action, but we have inevitably failed. If we have failed over there, now do you think you can succeed in Canada? In a strike you inflict great hardship on the working classes themselves, especially upon the women and children, when the pinch of food shortage is felt. You deprive the moral efficiency of the people on strike when hunger creeps in. The strike is then defeated. Your programme ought to be to defeat constitutional conditions by direct action, but we have inevitably failed. If we have failed over there, now do you think you can succeed in Canada? In a strike you inflict great hardship on the working classes themselves, especially upon the women and children, when the pinch of food shortage is felt. You deprive the moral efficiency of the people on strike when hunger creeps in. The strike is then defeated. Your programme ought to be to defeat constitutional conditions by direct action, but we have inevitably failed. If we have failed over there, now do you think you can succeed in Canada?
