

A REASONABLE DEMAND.

The opposition last season in the building of the Red Mountain railway from Trail to a point in Washington was put on the high ground of patriotism. It was said that a line having one end in a foreign country would divert the trade of the new mining camp into the hands of Americans.

Strange though it may seem, the patriots who sought to defeat that scheme by such a cry are among those who oppose the request of the Canadian farmers of Okanagan valley for speedy connection with the large consuming population of the Kootenay mining centres.

The Times believes in railway construction wherever there is need of a railway, and would give a charter—the interests of the country being properly safeguarded—to any company not asking for aid to construct a road where none at present exists.

The Canadian Republican Committee is the high-sounding name of an organization—more probably of one or two cranks—in the city of Toronto, which has issued a manifesto to the people of Canada in favor of Canadian independence.

The names of the committee are not published, but the man who wrote the "manifesto" is likely to be a recent importation from a foreign and alien country.

Our correspondent "A Victorian," refers to the British Pacific Railway as Mr. Armstrong's scheme, while the Journal editorially mentions only Mr. Bodwell as the party who submitted the proposition to the government.

The Colonist quotes the News-Advertiser on the British Pacific. The News-Advertiser is Mr. Cotton's paper, and Mr. Cotton is not a very enthusiastic supporter of that project, notwithstanding he promised to vote for assistance to it on certain conditions.

but it is easy to draw the line between the spirit of militarism and the patriotic feeling which would teach men to be ready to resist invasion and oppression.

There are, possibly, two standpoints from which to criticize the conduct of the government. First, the promises and pledges at the general election; and second, the proposition as submitted by the syndicate.
