SOME ADVENTURES OF VICTOR!A HUNTERS

Work Done to Date by the Pulp Mill Company-Big Game is Plentiful.

W. F. Best returned on Saturday from a two-month visit to Quatsino Sound on Tees, having embarked at Hardie Bay after crossing the trail at the northern end of the Island. He travelled over the new Hardie Bay trail, which he reports has recently been put in good condition. Mr. Best superintended the work of repairs to the trail, having volunteered to do so for the govern-The Quatsino Power & Pulp Company, with which Mr. Best is identipany's most valuable timber limits being situated in the neighborhood. All the bridges along the line have been put in good order; fallen trees have been cut away, and a new bridge has been built across a creek which formerly had to be waded. This trail, which is not shown on the maps, has entirely superseded the Fort Rupert one, and even Indians from that place use it in preference to the old trail.

steamer Tees calls are to be made at Hardie Bay by every C. P. R. steamer on the northern British Columbia run, a post office having recently been installed at the place. Arrangements are being the place. Arrangements are being the place at the place a post office having recently been installed at the place. Arrangements are being made for a carrier to take the mail from Hardie Bay to Quatsino, and a fortnight-ly service in connection with the new large and severs committee having recently been installed at the place. Arrangements are being built it is almost certain such farmers reported as follows:

Gentlemen:—Your streets, brages and severs committee having recently been installed at the place. Arrangements are being built it is almost certain such farmers reported as follows:

Gentlemen:—Your streets, brages and severs committee having considered the undermentioned subjects beg to recommend vention" was the title of a paper by Mrs. mfortable hotel, clean and well/kept, at Hardie Bay, so that those who fear the West Coast passage in the winter can land at Hardie Bay and cross to the West Coast from there without the pro-

spect of sickness. Mr. Best states that the Quatsing

The limits selected by the company are situated close to the water, which will reduce the expenses of carrying on the lumber industry to a minimum. The chief woods selected were spruce, fir,

Forest fires cannot spread in the dis frict on account of the moisture, says Mr. Best. Three fires started this summer none of which spread over half a mile until finally extinguished by the autumn

During Mr. Best's stay at Quatsino considerable development work was witnessed. On the June group and on the creek, south of Canal Flat, obtaining new zinc deposit near Victoria lake this was to be seen. The latter to a very extensive outcropping of blende of great purity, and has every appearance of being permanent and valuable. The Yreka tunnel on the property struck a good ore body directly below a large surface outing which apparently extends for a depth of 150 feet at least.

Mr. Best visited the iron mines West Arm, and found very extensive deposits of ore, which will be valuable for mixing with some of the refractory ores of the coast.

Quatsino Sound has many resources erals and forest wealth. A factory is is looked for next year." located on the Sound, where clams are canned after being ground. Theey are used for soups, and as such are in de-mand in a number of big Eastern cities. Salmon and herring are found in great quantities, as are also haddock and cod During the autumn and winter big flocks of wild geese and ducks frequent the marshes. As illustrating the plentifulness of this Mr. Best states he shot is abundant, and can be found on Marble creek and Victoria and Alice lakes. One of these, caught by Mr. Best, was 28 flavor. Catching them affords the best arise next year.

The climate of Quatsino during the summer is perfect, and in the winter time the ice, which forms on the fresh water streams never retards navigation. number of ranchers have small orchards. and the trees bear well. All kinds of small fruits, such as raspberries, currants, gooseberries, strawberries, etc., are plentiful.

one who has not seen the Sound, says Mr. Best, could have an idea of the extent of the navigable water of that arm of the sea. There are over 100 miles of waterfront, and ships of the largest size can sail in any part of the Arm.

Mr. Best had a number of interesting hunting experiences, and incidentally eured a good collection of photos. He and his companion had to travel in an

lam and Eve costume a distance of wenty miles. They had been out in a eavy shower, and had got their clothes ery wet. At night they built a camp counted for the high quotations. very wet. At night they built a camp fire and hanging their clothes around. udely awakened by the sound of Bullets were flying in every on, and they thought for a moment went to sleep. During the night they were rudely awakened by the sound of that they had been transported to Port

Arthur. Rushing out of their tent they discovered that their clothing had caught fire. Their ammunition had been left in their pockets. This had explod-ed as the fire spread over the clothing and bullets flew about, one lodging in a tree within a foot of where they had been sleeping and another passed through the tent. Fortunately, however, the men escaped uninjured, although they lost all their clothing, and in this condition were CONSIDERS POUND AND obliged to walk back to the settlement the distance mentioned.

Another interesting story related by the just returned Victorian is that of two timber cruisers employed by the Pulp Company, who had an adventure with a she-bear with two cubs. The cruisers were without firearms, and when bruin made her appearance one of them, it is recorded, did some fine sprinting. The other, however, stood his ground and succeeded in frightening the bear away by waving his hat in her face.

Near Winter harbor there are a great many hears also minks Evidences of found in Quatsino in the spring and ed. fied, intends to make good use of the trail this winter, a number of the company's most valuable timber limits being sino during the past season found three Referred to the city engineer for report.

NEXT SEASON'S PROSPECTS.

R. M. Palmer Predicts Gratifying Things For Okanagan.

After a very satisfactory trip through the Okanagan and Similkameen districts, R. M. Palmer, provincial government commissioner of freight rate fullness of this Mr. Best states he shot one from his tent door. Rainbow trout on Saturday evening. Mr. Palmer was a chundant and can be found on Marble accompanied by Wm. Kirkpatrick, A. G. F. A. of the C. P. R., and the journey was made for the purpose of inq inches long and proved of very fine into the conditions which are likely to

In an interview Mr. Palmer said: "There will be much more fruit shipped next season, and the object of our trip was to size up the situation and see what facilities would be required. Mr. Kirkpatrick has a clear grasp of the situation, and he will make recommendations to the head offices at Montreal, which will result in great benefit to the fruit raisers of the Okanagan district. Kirkpatrick will recommend that the before accommodated, both on the main and branch lines. These, of course, will not be issued for some time, nor is it certain that his recommendations will be adopted, but it is very likely, as Mr.

Kirkpatrick fully realized the import ance of the situation." Continuing, Mr. Palmer told the Times secured a good collection of photos. He tells of a rather unique experience of a young man from Victoria who went up there a short time ago. The young man and his companion had to travel in an ed up, the town of Kelowna was being extended considerably, and the outlook generally was bright. A very fair price was being obtained for fruit and hay.

THE TARDY SHAWMUT

Arrived Tuesday Morning-Victoria Wa Correspondent Returns From the Orient.

After one of her characteristically slow

passages from points in the Orient, the steamship Shawmut arrived on Tuesday, eighteen days from Yokohama. She brings a big cargo and a small number of saloon passengers. J. Gordon Smith, formerly of the Colonist staff, who had been engaged by the London Mail to act as war correspondent early in the year, and who after wards joined the Morning Post staff, was among the arrivals. Until July he and other correspondents had been held at Reported to Be Preparing For a Conflict Tokio, the Japanese promising them for at Gomei, Russia. months that eventually they would be allowed to proceed to the front. Leaving Tokio, Mr. Smith says that a party of Talienwan Bay. All thought they were disappointed. From Tallenwan Bay Mr. Smith says they went on to Kinchou. They passed over the battlefield of Nanshan, At Kaiping they were caught in a tremendous thunderstorm, and here it was that Melton Prior came near losing his life, tumbling off his horse and down an embankment int a river. Messrs. Wallace and Whiting, of the party, went to the rescue in an instant and saved Mr. Prior from drowning. General Oku was visited at Haichang, and the correspondents during their stay there made a round of the outposts. From there they went on to Anshan and thence to Laio Yang. Here Mr. Smith saw the rear-guard fight which had been made to block the advance of the Japanese, and he tells of one thrilling episode where men had been shot down around him. Battlefields strewn with dead, exciting chases after the enemy, hand-to-hand encounters and struggles for strategical positions—all were seen passing under Mr. Smith's observation. make his own experiences in newspaper enterprise commonplace. Other passengers on the Shawmut were

B. Cerf, a business man, who is going to Seattle and to other American cities to create an interest in the establishment at Shanghai of a commercial museum, and also to interview a number of American exporters; P. J. Morse, a slik buyer, who has been travelling through China and Japan; F. W. Bradley, belonging to the Mission Press, of Singapore, who is going to Buffalo; W. E. Lyons, his wife and family, from Kobe; and Miss Gładwin, a member of the Dr. McGee party of army nurses from Philadelphia, who for four months was engaged in the big army hospital at Hiroshima.

FROM JAPAN'S BIG

NURSE ARRIVED ON SHAWMUT YESTERDAY

She Spoke Highly of Surgeons and of Treatment of the Wounded

At Saturday night's session there were An arrival here on the steamer Shaw mut Tuesday, one who wears the decor ation of the Emperor of Japan for honored service, was Miss Gladwin, a members of the Dr. McGee party of nurses, which was organized in Philadelphia early in the year, and sent to Japan. They are now returning home after ren-

Miss Gladwin was engaged nursing man on the trip across the Pacific, and in consequence she separated from other via San Francisco, on a transport.

The Hiroshimo hospital, the big army institution of Japan, where all the sufferers are conveyed, as soon as their wounds permit, from the scene of battle, is where the party enlisted for duty. This is the central station for all the work of this kind carried on in Japan, and it was while serving out a four months' en-gagement at the Hiroshimo hospital that Miss Gladwin gained experiences which she considers invaluable.

Members of the party had served as nurses during the Cuban war, but there were things to be learned in Japan which had not previously come under their ob-servation as professionals. "It took us a while to adapt ourselves to the methods employed by the Japanese," she said. "Their system was different to that to which we had been accustomed, but it was thoroughly up-to-date. Their surgeons were very clever,

and their nurses were not only skilled, but exceedingly kind and attentive. "The Japanese had been anxious to secure our services. They were desirous of learning what they could from us, and while they probably profited some in this way, we certainly acquired valu-

able experience ourselves.
"The endurance of the wounded sol diers was something wonderful. They bear pain with remarkable fortitude. To be wounded is an honor. They have no fear of death, and they look forward to this rather than a safe return to their

Miss Gladwin said from none of the big

After business of minor importance had been transacted a motion to adjourn officers, of grumbling about deeds on the battlefield, or of any miscarriage of the injured men were kind to other hospital attendants waited on did Sunday afternoon a mass meeting of plans. The injured men were kind to rangements of the big hospital Hiroshimo are carried out. She saw large transports arrive with a thousand wounded, but there was no confusion Such contingencies had been provided for, and the moment the ship landed the wounded men were taken away to appointed places where their injuries were attended to without delay. They were kept in the hospital until they became convalescent, and afterwards were re-moved to country hospitals, and so the injured are scattered all over Japan There are trains specially adapted for

the work, and almost as fast as the hospital filled it is emptied. There is but one regret heard from the little warriors. They fret over their de tention, and express their anxiety to get away to the front as fast as they would Their wounds, however, rapidly, according to Miss Gladwin, and unless a man has been very seriou hurt he is soon back into the army. In recognition of the services of the American nurses, Miss Gladwin reports that the Emperor made them members of the Japanese Red Cross Society, and introduced them to the Empress, who

treated them very graciously. NEW PLAY HOUSE.
