

## Miramichi and the North Shore, etc.

**FISHERMEN.**—Will do well to take Mr. Cassidy's advice and get the factory for their barrel heads. They will save time and money and get a good article.

**TUESDAY.**—A meeting to be held in Dr. Cabot's office, Newcastle, this evening, with a view of organizing a Toboggan and Snow Shoe Club. We have no doubt it will result in the formation of a strong organization.

**R. E. CHURCH.**—Rev Mr. Windfall will conduct service in the Reformed Episcopal Vestry, on Monday evening 6th inst. at 8 o'clock, and there will be a social entertainment on Tuesday evening at the same hour.

**THE HOLIDAYS.**—The coming and our advertisements will, no doubt, announce their intentions to have to do for. Mr. McKinnon places some reasonable articles before the public in his store, West end of Commercial Block, Chatham.

**RICHMOND'S RECTOR.**—Rev D. V. (Gwyn) of Campbell, the rector of the church of St. Mary's church, Richmond, and it is hoped by the people that his Lordship the Metropolitan will approve of the appointment, as the parish has been without a rector since last August.

**A BIG DAY'S WORK.**—The roof of the basement of the Roman Catholic Church at Bathurst was covered on Saturday with the well known Sackville Hay Press Cement, under the superintendence of Mr. J. J. Miller of Bathurst. The roof gave entire satisfaction to the committee of the church. Mr. Miller had a force of 25 men employed.

**ACCIDENT ON THE I. O. R.**—On Saturday forenoon, Brakenham Gould had the middle finger of his left hand caught in the wheel of a locomotive to cars at the station. Dr. Pedlin dressed his finger and he was taken to his home at Moncton. Ferguson, mentioned elsewhere as walking of the car in his sleep, was going to Moncton to take Gould's place after the accident.

**IN DANGER.**—Running into on Saturday last almost carried away the temporary supports from under the roof of the new third span of the new bridge being so slowly erected over the Southwest at Nelson. Fortunately sufficient of the supports were left to maintain the chord, although they were left somewhat out of shape. The work has been secured and it is hoped no further trouble will be experienced.

**"THE BOSS."**—The Advocate, under the head of Chatham items, says, "J. Ferguson & Co. grocers have been closed by the sheriff after failing to pay their debts." The action being so booming, Mr. Wyse sold out the Griffin furniture on Monday. The party stock on Tuesday and the H. P. Marquis stock on Friday.

**IT TAKES A TORY PARTY TO DISCOVER A "BOON"** in connection with four bank-ruptcies under the N. B.

**AN ITEM.**—The Advocate which is edited by the Grand Worthy Patriarch says:

"Three gentlemen from Newcastle took a trip to Lunenburg last week on a freight train. Through their ignorance of the Branch's time-table, and delay by the station of Frank James, who was waiting for them, they missed the train and had to wait a considerable time before they obtained a horse to convey them home. When a horse is taken to the tune they find it to carry a time table with them."

**A THIRD OF A CENTURY.**—To mark the accomplishment of a third of a century in business together, Messrs Hall and Fairweather of St. John have presented their friends with a volume of the "Journal of Commerce," which is a large and well mounted. Although St. John is not now relatively the important trade centre it was when these gentlemen went into business, it is gratifying to know that their standing, the effects of co-operation and the N. B. they are doing a flourishing business.

**IN TROUBLE.**—We recollect to hear that the late Mr. D. Housie has been in the hands of the law. The "Journal of Commerce," says:

"George Housie, a well known shipbroker of Lunenburg, N. B., is undergoing a tedious trial at 9 o'clock on the 2nd inst. He was indicted on one time on a charge of embezzling \$7,000 and on another on a charge of \$4,000. The indictment will be divided among the cases. The first trial is to be held on the 10th inst. and the second on the 17th inst."

**AGENTS WANTED.**—Messrs C. & Co., 48 W. Kingston Street, Toronto, or St. Francis Xavier Street, Montreal, want a General Agent. They are the exclusive owners of the Schofield Patent Cake Griddle, the Celebrated Emory Knife Sharpener (known as the "Carver's Friend"), the Emory Knife Sharpener, the Jay-Knife, the W. & C. Comb, and other specialties. If you are a man of money, write to them at once for an outfit, and to secure what territory you can handle.

**ROADSIDE PUNISHED.**—We are glad to learn that a number of rowdies who created a considerable disturbance at Newcastle, B. N. B. railway station, last night, have been made an example of. The "Advertiser" says:

"When Burke, of the I. O. R. came up from Moncton on Monday and arrested the following young men on a charge of disorderly conduct, he was met by the officials of the Newcastle Station house in the discharge of their duties: Jas. Wheeler, David Dunn, David Mahoney, Angus McKay and James Jones. They were brought before Justice Nevin on Tuesday and fined \$50 cents each."

**THEIR STYLE.**—"Blake's" style, "the jubber Anglin," are terms employed by the Belleville "Intelligencer" and copied into the "New Brunswick Times," in referring to the Hon. T. W. Anglin—Globe.

When the standing and character of Mr. Anglin are compared with those of men whom the "Times" describes in honouring, the employment of the language quoted can have but one effect with decent people. The "Times" and its Tory allies are nearly all alike in their faith in calling names. We are unfortunate in having to employ the same Tory style on the North Shore.

**WHY HE WAS HONOURIFIED.**—A case of horse-whipping occurred at New Glasgow a short time ago. It appears that a number of bandits of a certain private lawless house, decided to change their lodgings. This was done, and no reason given for the change. The young lady of the house wrote a polite note to one of the young men asking for an explanation, and it is said, he sent back a very ungentlemanly reply. The young lady's brother arrived home in the street, and meeting the young man in the street, gave him a severe whipping. Moral: Don't write polite notes to young ladies, but write to their fathers.

**LEO VENTRO.**—The talented showman, who has been in the city for a certain number of days, is now in the city of "Marjorie Leland" in his new territory.

## Maurice Leland

**MAURICE LELAND** (Case of Necessity) etc., and at the bottom of the bill there was a postscript, "Don't expect to be admitted unless you come yourself." It seems, however, that Leland could not be kept straight, even by an Amherst constable. After giving a performance at Spring Hill on Wednesday night of last week, he ran away on Thursday afternoon, after borrowing money from the landlord of the hotel at which he stopped and also from the constable who was in charge of him. He was pursued to Athol and re-captured.

**ASKING TOO MUCH.**—The Advocate thinks that the Newcastle policemen ought to do duty at the I. C. R. Station of that town. It says:

"Some roughs gathered at the station of the I. C. R. last Saturday night and behaved in a very disorderly manner. They upset the coal bin, turned out the lights and tried to take possession of the station. Disturbances often occur round the station while passengers are waiting for the train, and it would be well if the policemen would occasionally 'drop around' that way."

**THE STATION IS QUITE A DISTANCE** from the town proper, and if the policemen were there the town would be left unprotected. It would be quite proper for those policemen to go to the station if summoned to act in case of a disturbance arising, but not otherwise. If disturbances about the station are the rule, as the Advocate indicates, the Railway authorities, and not the town should bear the expense of enforcing order.

**INAGUTITUDE.**—The local Tory organ in Chatham seems to take it for granted that Mr. Mitchell is not to be chosen by its friends as their candidate in the pending Dominion election. It says:

"Mr. Mitchell has been down river this week, calling on the electors. This is probably a farewell tour. He has served the community well, and was a man of the opportunity of doing so, again if he had not turned his back on the Government, and joined these agents against him and his old friends had been fighting for twenty years."

**Mr. Mitchell is in the same attitude** to day so far as Sir John A. Macdonald is concerned as he was when he and Mr. Adams visited Kenora River last summer. At the public meeting held on that occasion Mr. Adams declared that so long as Mr. Mitchell refused to offer for the representation of Northumberland he would not oppose him, but should Mr. Mitchell return, he (Mr. Adams) would then take the field. Has the organ gone back on Mr. Adams and his pledge?

**THE SNEYD THEORY.**—The statement having been made to one of our reporters that smelts have been shipped from the North Shore ever since the middle of October, in defiance of the law on the subject, Fishery Inspector O'Brien was interviewed. He stated that the law forbids smelt fishing by hook and line at all times of the year, but prohibits net fishing until after last December. The seizure of smelts which he made the other day—and the only one which he has made this season—was because the shipment was so large that it was scarcely possible for the fish to have been caught in any other way than by net. The fishery department is aware, he says, that fish have been caught in violation of the law, but stringent measures have been adopted, and a great deal of the netting has been stopped. Several of those who have been engaged in violating the law have signified their intention to take licences.—St. John Globe.

**WALKED OUT IN HIS SLEEP.**—Among the sleeping passengers on the Quebec express to Moncton yesterday morning was a young man named Jas. Ferguson, belonging to New Mills. When about two miles from Moncton, a brakeman, in accordance with the custom, went to the train and made the usual announcement. Ferguson, being aroused from sleep, did not grasp the situation, but with great surprise and indignation, he made the statement of the car and looked off. The train was then on a down grade, going at full speed, and the brakeman, who was making a change of wheels, and he was very angry. Ferguson's face and head were badly cut and bruised and he received injuries about the body, the most serious being internal injuries of the chest. He was taken to the hospital at Moncton, where he is now lying. The train was stopped at the station of St. John, where he was taken to the hospital. The train was then on a down grade, going at full speed, and the brakeman, who was making a change of wheels, and he was very angry. Ferguson's face and head were badly cut and bruised and he received injuries about the body, the most serious being internal injuries of the chest. He was taken to the hospital at Moncton, where he is now lying. The train was stopped at the station of St. John, where he was taken to the hospital.

**RIOT AT SALEM, MASS.**—North Shore people are interested in anything that affects the tanning industry of Salem, in which the mass of our herring bark is used. The tanneries there are now crippled in their operations by a strike and on Tuesday of last week there was a riot. Steven K. Weston and Joshua Weston, brothers, the former a non-workman and the latter proprietor of a non-workman, were pursued in the street by a mob of 500 strikers, who followed them to K. & B. & Co.'s yard, where the pursued men were arrested by two police officers, who closed the gates. The mob tore down the fences and terribly assaulted the Weston brothers. James Weston then fired his revolver into the mob, the bullet striking John F. Halpin, one of the rioters, in the side. Halpin was taken to the hospital severely wounded, and the Westons were finally safely escorted to the police station by the officers. The mob wrecked a street car, smashing it to splinters. They then savagely attacked Andrew Ferguson and Andrew Foster, non-workmen, and they too were badly beaten. Next the mob visited Foster's boarding house, where two more non-workmen were assaulted and badly beaten. By this time a large body of police had arrived on the scene, and the mob was dispersed. The leaders have been arrested.

**CHERL TOLIN.**

A good beginning was made on Monday evening last at the meeting called to consider the desirability of forming a Chatham Anti-Slavery Association, consisting of Mrs. Snowball, Miss Fairley, Miss Anderson and Miss E. Windfall were present to assist the speaker, a certain private lawless house, decided to change their lodgings. This was done, and no reason given for the change. The young lady of the house wrote a polite note to one of the young men asking for an explanation, and it is said, he sent back a very ungentlemanly reply. The young lady's brother arrived home in the street, and meeting the young man in the street, gave him a severe whipping. Moral: Don't write polite notes to young ladies, but write to their fathers.

**THE LIBERAL CANDIDATE AT ROBERTSVILLE.**

Mr. Snowball, Northumberland's Liberal candidate for the House of Commons, accompanied by Roger Flanagan, Esq., of Chatham, visited Robertsville on Tuesday last, to see the progress of the work of the place and drive through portions of the county, to see the progress of the work of the place and drive through portions of the county, to see the progress of the work of the place and drive through portions of the county.

**FOR A CHANGE IN THE ADMINISTRATION** of Government, of support being given to those who were interested in the building up and progress of the country and its business interests, the choice of men for public positions whose words could be relied upon and who could not afford to pursue a course of deception, marked by broken promises and dishonest pledges, were among the points forcibly put and enthusiastically applauded. Mr. Snowball's candidature is hailed with the same approval as that of Mr. Flanagan in the County, and that new and large parish will show great liberal strength when the contest comes off.

**INJUSTICE TO LOWER CHATHAM.**

Black Rock people justly complain of the fact that they have been badly treated in the matter of the Fishery Overseer. A few years ago there were two Overseers in Chatham parish, below Middle Island—Mr. Amos Parley and Mr. John Blake. Mr. Parley was one of the most competent and efficient officers in the Miramichi service, but he was dismissed at the instigation of the Inspector of Fisheries, simply because he was competent.

**Was he Satisfied?**

The Advocate of last week placed Mr. Donald Morrison's name in its list of officers of the called "Liberal" party. "Association of Newcastle and the Advance said."

**LAURENCE'S SPECTACLES.** When are Spectacles Required?

When the eyes water or become so fatigued by use as to be obliged to be frequently closed or relieved by viewing different objects. When more light is required than formerly. When the letters of a book appear to blend with one another or to become double.

When the lamp has to be placed between the eye and the object. When objects cannot be seen without holding them at an increased distance.

When much difficulty is found in threading a needle. When the eyes appear confused as though they had a mist before them.

When black specks seem floating in the sight. When any of the above indications arise all affection should be laid aside and a pair of Laurence's Spectacles or Eye Glasses should be worn immediately.

Good fitting glasses are a great comfort. Our facilities for testing the sight and suiting the age are not surpassed anywhere.—Prices to suit everybody.
