The Garrisons of Towns Surrender and the Places Burned.

Towns Being Burned and Forts Cantured-More Serious News Expected

Havana, June 26.—General Navarro has returned to Hongolo Songo, after having captured the insurgent camp and strong positions in the Sierra Maestra. For three days his column exchanged shots with the insurgents at Jacatecas, Begona, Escundell Cuajuba. The insurgents lost twelve killed, had many wounded, and the troops captured two hundred sale horses an a quantity of ammunition and clothes. Only four soldiers were wound-

Havant, June 26 .- The most serious news of Spanish disasters received since the outbreak of the rebellion was received here this evening. The garrisons of two towns have surrendered and the places thmeselves have been burned by Maximo Gomez, Firing was heard constantly around Puerto Principe last night and extraordinary precautions are being taken to protect that city. Owing to the restrictions placed by the government upon the transsion of telegraphic news concerning the insurrection only the most meagre details of the disasters to the Spanish arms are obtainable. It appears certain, however, that the garrison of El Mulato, in the province of Puerto Principe, about thirty kilometers from the city of Puerto Principe and the capital of the province, has surrendered to

The garrison consisted of about twenty-five Spanish soldiers under Lieut. Becorra Romero and they were quartered in a guano house, fortified with palisades and pierced with loopholes for rifles. The place was also pro visioned and contained a considerable stock of ammunition. During the unfort was surrounded by about 1,000 insurgents under the command of Maximo Gomez. The latter sent a message to the garrison of El Mulato announcing that he gave the soldier's fifteen minutes in which to surrender, with the alternate of being fired upon by the full insurgent force if they refused

It is added that the soldiers were willing to fight and were preparing to do so when Lt. Romero arrived at the fort and his presence being made known to Gomez, the latter sent him a second note saving the insurgents had no desire to shed blood unnecessarily, and therefore the lieutenant was given five minutes more in which to surrender the fort and its contents to the insurgents. Thereupon the lieutenant surrendered the garrison against the desire of his soldiers who were most indignant at being compelled to capitate without firing a shot.

When the garrison was in the hands of the insurgents Maximo Gomez ordered the village of El Mulato to be burned, and after depriving Lieut. Romero of his arms set him at liberty.

The lieutenant was afterwards arrested by the authorities of Puerto that he will be promptly tried by court martial and shot.

Lieut. Gallage, who commanded a garrison which was surprised in a similar way while the lieutenant in

command, was away. In addition to the towns of Sangeronimo, situated about fifteen kilosouthwest of El Mulato, has met the same fate as the latter place. It was attacked by the insurgents under Maximo Comez and was burned to the ground after its garrison of about fifty men had surrendered. In this case, however, it is stated that the soldiers succeeded in burying a great part of their stores of ammunition before the fort of Sam Gueronimo was captured by the enemy.

It is rumored that Antonio Maceo has succeeded in making his way from the province of Santiago de Cuba into the province of Puerto. Principe, at of a large body of insurgents, and it may be his intention to join his forces with those of Maximo Gomez and make a combined attack

upon Puerto Principe.

It is also rumored that the rear guard of the insurgent forces comanded by Gomez has been attacked by the Spanish troops, who killed twelve of the enemy and captured nineteen prisoners. Although the authorities here will not admit it, the situation of affairs in the province of Puerto Principe is looked upon as being most serious. With a large body of insurgents under Maximo Gomez burning towns and cupturing forts a short distance to the south of the city of Puerto Principe, and with Antonio ceo at the head of another large body of insurgents, reported to be advancing upon Puerto Principe from the north, further and more serious news may be anticipated shortly.

FURNISH NEWSPAPER CLIPPINGS.

There is a peculiar industry in Gotham which has grown to astounding proportions. This is the business of furnishing newspaper clippings to individuals, firms and corporations. There are half a dozen of these concerns in New York, which supply customers, not only in the United States, but in all parts of the world. One of these newspaper clipping bureaus received an order the other day from the Hawaiian government to send President Dole all the notices, editorials, cartoons and other published matter regarding Hawaii, its government, and its affairs. This is one of the largest orders ever received by a clipping bureaus orders ever received by a clipping bureaus, and a busy man finds the system very convenient, for he is enabled, as it were, to read his newspapers by proxy.

Telegrams of Condolence Received Fron Friends Throughout Canada.

(Special to The Sun.)

Bathurst, June 26.—The funeral of the late Senator Burns today was attended by an immense concourse of people from all parts of the province. A special train brought a large number from Newcastle and Chatham, be-sides those coming in on the express and accommodation trains from the north and south. Many prominent men were in the procession. including Attorney General Blair, Senator Snow-ball, F. E. Winslow, Richard Turner of Quebec, Sydney Desbrisay, Richard Lawlor, R. R. Call, George Moffatt, W. H. Thorne and others.

The ceremonies at the church were

conducted by Bishop Rogers, assisted by Rev. Frs. Lollard, Barry and Carter. Father Carter preached and passed a well deserved eulogium on the deceased senator. The church was beautifully draped in mourning and the ceremonies very impressive. Over twelve hundred people were in the church and many could not gain admittance.

The senator's death has produced a profound feeling of regret and sympathy throughout the county where he has been for many years the most prominent figure. With the relatives walked as mourners J. J. McGaffigan of St. John and F. Waterson of St.Ste-

The Jubilee Celebration of Bishop Cameron a Grand Success.

A Road Overseer Being Pursued by Constable For Striking a Laborer.

Halifax, June 26 .- Today marked an epoch in the history of the diocese of Antogonish. It was the quarter century milestone of the episcopacy of Bishop Cameron. His diocese comprises 75,000 Catholics in Pictou, Guysboro, and the four counties of Cape Breton. It may not be generally known that Bishop Cameron parents and the rest of the family were originally Presby-terfans. Another famous Catholic dig-nitary, the late Bishop Gilmour of Cleveland, Ohio, was formerly a Pictou Presbyterian. Bishop Cameron enjoys the highest respect and esteem of the Protestant population as well as the reverence and loving devotion and confidence of his own people. He is quiet and reserved, a student and scholar, a man of strong convictions and of saintly character, and such a man the whole people delight to honor. ns, asters, lilies of the valley and clouds. Accompanying gifts aggregated nearly four thousand dollars.

His lordship's reply was brief, but touching. He said he was so affected by kindly sentiments contained in the addresses that he was at a loss for appropriate words to reply. He was glad that he was an old man nearing the judgment throne, otherwise he might be in danger of being made vain by the complimentary illusions in the addresses. His lordship said he was deeply touched with the sense of the generosity of his people. At one time he had thought he never would live to see the day when the debt would be wiped of the cathedral, through the zeal of the clergy and the generosity of its people it had all been paid off within three years of that time.

His lordship's reply was brief, but (San Francisco News-Letter.)

The suffrage is a real need to the new woman. She has turned her back on the cradle, and henceforth will rock the ballot box instead. No more maternity for her; but, in place of the old domestic serfdom, the musty ties and the galing chains of home drugery, she will step forth to fulfill her manifest destiny; not to take man by the back the crown of glory from the dizzy mountain top of intellectual achievement; to soar into the bowels of the unfathonable; to penetrate all mysteries and solve all problems; to mould the destiny of nations and to bring drays reform up to the highest pitch of human perfection. All this, and more, will be brought out in its fulness and beauty by the conference, along with the latest thing in bloomers and the most profound conclusions as to the expediency of divided skirts for the Old Man. three years of that time.

His lordship expressed his confident hope that after he had mouldered into dust it would be the glory of his successor to be able to give the same assurances and that the diocese of Antigonish would continue to be noted for its model clergy and model laity.

The jubilee festivities concluded to-

night with a grand banquet served in the assembly hall of St. Francis Xavier's college. Plates were laid for eighty bishops and priests. Bishop Cameron is a strong believer in the national policy, native products, and it is the proud boast of himself and his people that every one of his priests are nat-ives of the diocese and nearly all were educated in their own college at Antigonish.

His lordship was seated on a raised dias, supported on either side by Arch-bishop O'Brien and Bishops Sweeny, Macdonald, Howley and Larouquet, and Vicar Generals Quinan and Mc-Donald.

It ended without speeches. Every one is delighted with the success of the celebration. There was not a hitch from

KING LOBENGULA'S HOUSE.

Of Lobengula's house nothing but a low heap of bricks remains. It is very pathetic to see the great deserted kraal, once so populous and now tenanted only by a few screaming plov-ers, flying round and round over it. One or two miserable looking blacks were squatted among the ashes, grubbing for a few glass beads. Far away—the only thing that breaks the monotony of the horizon-you see Thabas Induna, the hill where Lobengula won his first vistory. In spite of all his cruelties one cannot help being rather sorry for the old king. I think that feeling is held by most of the people

engaged in the war. The Matabili seem absolutely quiet, and have no sense of the ignominy of defeat. But their insolence before the war is almost beyond belief. They would enter an Englishman's wagon, unbidden, pull the book he was read-ing out of his hand and throw it on the floor again and again, spit into his water tottle, snatch off his hat, and if he tried to recover it chuck a knob-kerrie (club or knotted stick) under his
