SALISBURY

Liberal Conservative Party Gathering in Recruits Every Day.

Some Prominent Liberals Who Opposed Mr. Powell Last Election Are Now Fighting Openly for Him.

SALISBURY, Oct. 29 .- The political situation in this section of Westmorland Co. never looked better for the conservative party than at the present time. This parish is one of the few places in the county which has always been counted upon as a liberal stronghold, but this time many liberals, who are still old time liberals, cannot brook the broken pledges of the present aggregation and have come out openly against Laurier and his supporters, and will cast in their lot with the tory party and vote for Powell. One man who wields quite an influence and who did everything that lay in his power just as much energy this election in the interest of Powell. He does not believe in retaining a government in power upon whose promises the electors cannot place the least reliance, hence this change of base. The liberals here, as elsewhere, are trying a bluff; that is, they try to impress upon certain electors that the liberals are sure to win and that they may as well vote with the popular side, as they will only lose their vote to go the other way. But this bluff is no good. When these heelers are asked to point out the men who have deserted the tory camp and gone over to the liberals they fail to rise to the occasion, and as it takes votes to elect a candidate, it is here where their bluff collapses. As a matter of fact the changes which are visible here are greatly in favor of Mr. Powell. The rotten state of our bridges in this county has greatly

The Minister of Railways Visits Gibson's Home-Big Conservative Meeting.

FREDERICTON, Oct. 29.-Hon. A. G. Blair addressed a large audience in the cotton mill at Marysville tonight. There was considerable enthusiasm, and the minister received a good hearing. Several of Mr. Blair's personal friends and followers from this city were present.

At the close of the meeting three half-hearted cheers were given for Mr. Blair. Someone in the audience then proposed three cheers for Sir Charles Tupper, which were given with a will. Mr. Gibson and the liberal heelers of this city have secured the rooms above W. T. Whitehead's office and are using them as headquarters for the distribution of the resources of civilization. The visitors to the building are many, and it keeps two men busy all the time.

One of the most successful meetings of the campaign was held by Dr. Mc-Leo1 at Burtt's Corner Saturday. Notwithstanding that only a few hours' notice had been given, the people turned out en masse, and the large hall at that place could not nearly accommodate the crowd. The enthusiasm was, putting it mildly, intense, and so the good work goes on.

F. Shute of the Merchants' Bank of Halifax, this city, left tonight for Halifax, where he goes as the bank's representative to meet J. M. Aitken, who is returning from South Africa in the Idaho. Mr. Aitken was formerly teller in the branch here. Ptes. Fradsham, McFarlane and Jones, also of Transvaal fame, left for Halifax tonight.

PARIS, Oct. 28.—There was a large gathering of socialist and workingmen's societies at the Bourse du Travaill today to welcome eight nelegates from the English trades unions, who presented a manifesto to French workingmen in favor of peace and good fellowship between the two nations, MM. Jaures and Vaillant responded, and the meeting adopted a resolution in favor of strengthening the fraternal union of the workingmen of the two countries and of submitting to arbitration any differences that light arise.

BATHURST.

Smelt Fishing Once More a Complete Failure.

After several weeks of rain and fog, including a few attempts at snow storms, the skies have again cleared and both farmers and politicians hope for a continuation of fine weather on the North Shore.

It is estimated that over one-third of the grain crop in Gloucester county has been ruined, and a considerable portion of the root crops badly damaged. Many farmers on low lying farms will lose heavily.

The smelt fishery in the vicinity of Bathurst has been a complete failure again this year, and it is feared that what was once a source of considerable circulation of money among the in 1896 to elect Robinson is exerting paor people will from this time forward almost entirely disappear. The steam saw mills of Sumner Co and O. P. Stacy & Co. are yet running.

Adams. Burns & Co.'s mill closed down some time ago, having sawed up its supply of logs. The wrecked Norwegian bark Andevake, which was sold by public suc-

tion last week, and purchased by Frank Curran, is being stripped.

ANDOVER.

ANDOVER, N. B., Oct. 27.—Hor. A. G. Blair arrived here Friday afternoon in his private car attached to the express train. He was met at the station by a few of the prominent liberals and Mr. Costigan. The meeting he addressed in the evening was held in the Court House. When Mr. Foster spoke here a few weeks ago he did not come spoke here a few weeks ago he did not spoke here a few weeks ago he did not come in any private car. The coach that met him at the station was not decorated with flags, still his audience was just as large if not larger than that addressed by Mr. Blair; indeed, if Mr. Costigan had not seen to it that his friends from Madawaska were present, the audience would have been much smaller. When Mr. Foster spoke he did not abuse when Mr. Foster spoke he did not abuse the members of the present administration. but, confined himself to facts. Mr. Blair's speech was principally a tirade against the leaders of the opposition, and it is no won-der that here and there through the audience first one man and then another went to sleen. When Mr. Foster spoke he did not abus

Mr. Costigan followed Mr. Blair, and spen Mr. Costigan followed Mr. Blair, and spent considerable time in trying to prove Sir Charles Tupper, as well as Mr. Foster and the rest, traitors to Sir Mackenzie Bowell and their party. The reasons he gave for he himself, leaving the conservative party were a little vague. He failed to state just why he did not leave that party till after they were out of power, and he was no longer a cabinet minister. Mr. Costigan made the usual promises to the constituency, namely The Tobique Valley railway is to be extended to Riley Brook; the St. Francis railway ed to Riley Brook: the St. Francis railwo is to be extended to Quebec; land to be beight from the New Brunswick Hailway Co. and settled; the pulp mill at Grand Falls to receive a stimulus, etc. He did not have the money himself, but he knew where it was. The meeting closed with the nation authem.

BERLIN.

BERLIN, Oct. 28.-Prince Hohenlohe conv. reation with a representative of the Associated Press, made some interesting statements regarding his resignation of the chancellorship. Although expressing self with great caution, he cited as the chancellorship. Although expressing the self with great caution, he cited as the principal reason for resigning the fact that he had noticed for some time a growing desire to ignore him on several occasions. He noticed that his increasing deafness, especially in the left ear, had made it annoying for Emperor William to converse with nim.

While Prince Hohenlohe would not say precisely what very recent occasion had particularly emphasized this inclination to nore him, he asserted that his was the immediate cause of his going to Homburg with a written request to relinquish his official burdens. This, he said he presented in proon to Emperor William, who seemed astinished, but replied that in view of the advanced age of the Prince he would not urge him to reconsider the resignation. I also appears that his parting with the Kaiser was affectionate and that both remain on good terms. When Prince Hohenlohr turns to Berlin for the winter he intends to frequent the court and its festivities, his physician having urged him to this course. to frequent the court and its festivities, he physician having urged him to this course as they consider that total absence of excitment would endanger his life.

He is about to go to his ancestral home at Schillingsfuerst. Later he will go to Munich, and then to Muran, in the Austrian Tyrol, or to Italy, where he hopes to go relief from an annoying cough.
