FRENCH FLEET CONSIDERED INADEQUATE FOR COLONIES

Matter Expected to Furnish Interesting Topic of Discussion at the Washington Conference.

Paris, Oct. 20.—Discussion concerning the French fleet was the subject of the Washington conference has brought to light some interesting data concerning the French fleet. It is usually considered inadequate for the protection of France's colonies in the Pacific and her prestige as a first class power.

Religious War Rages in Malabar

Threatened Eclipse of Turkey Rouses Indian Mussulmans Fanatics to Frenzy.

London, Oct. 20.—Potentialities for disorder in India latent in the Gandhi non-co-operative movement directed against the British Government in efforts to obtain home rule have evidenced themselves in the seditious rebellion in Malabar, according to Anglo-Indian experts.

WOMEN COMING TO THE FRONT IN JAPAN

Women of China With Distorted Feet Break Stones on Roads.

No Idle Poor. In China, she said, there seemed to be no idle poor. They were all busy with their work.

The strength of the non-co-operative movement consists in the appeal it makes to the religious instincts of the masses who collect in vast numbers to pay Gandhi almost divine honors and whom they regard as the Mahatma.

The Hindu masses are not only tolerant and their reverence for Gandhi is a steady factor. The Muslim excitement over the Khalifat question runs throughout the movement like a sinister thread and it is believed that if Gandhi's movement leads to violence it will be because he has been unable to restrain Mohammedan fanaticism.

It will be remembered that Indian Mussulmans have always insisted on a privileged position in politics on the ground of their religious kinship with the Turks, Afghans and other Moslem people of Asia.

Since the Treaty of Sevres they have pinned their faith to the Turkish Nationalist government of Ankara which they believe would become the centre of a revival of the political prestige of Islam, but the latest Greek successes have destroyed this hope and a feeling of desperation seems growing which may prove too strong for the influence of Gandhi.

The Khalifat party, maintaining a separate entity within the ranks of non-co-operation, now displays in its allegiance to Turkey and threatening a declaration of independence if the British Government embarks upon hostilities against Ankara.

Signs are seen that members of the left wing of the Moslems are going too fast for the majority of Hindus and the old jealousy between the two religions may possibly break out again.

At a meeting of the working committee of the Indian National Congress this summer discussions broke out. The left wing Mohammedans and some Hindus were anxiously to declare "civil disobedience" which means passive resistance to certain laws.

This step leads to serious disorders and Gandhi opposed it on the grounds that the country was not yet ready. He insisted that his latest plan, boycott of foreign cloth and the introduction of the old-fashioned spinning wheel into every Indian home, must first be carried out.

It is asserted here that the non-co-operation movement is based on emotion and that of the three grievances, the Punjab affair is not a living issue except on the platform, as it was settled in the first session of India's new parliament.

The fate of Turkey is a matter for the Allies and it runs entirely counter to the principle of self-determination. It is claimed that the third home rule, is being rapidly realized through powers now invested in local and central legislation with their overwhelming majorities.

Gandhi's movement is therefore said to depend purely on sustaining mass excitement at white heat to put pressure on the government.

Mining On Upgrade, Harding's Message

Urges Chicago Convention to Work for Uniform Rate of Production.

Chicago, Oct. 20.—There are indications that industry is on the up grade, President Harding stated in a message to representatives of the mining industry, read to delegates at the twenty-fourth annual convention of the American Mining Congress here tonight.

He requested the delegates to formulate if possible plans for regulating the production and distribution of coal to secure employment the year around for both capital and labor and thus prevent congestion of transportation facilities and high coal prices.

J. F. Calbreath, secretary of the National Exposition of Mines, announced the President's suggestion would be considered a mandate and made the basis of work of the convention with the announced intention of developing a constructive programme for the mining industry.

In his message President Harding said: "Realizing the unfortunate state to which the mining industry has come, along with so many others, in the period of depression following the war, I regard as especially important the effort of your congress to bring about an early improvement."

"The present unfortunate situation being a worldwide one, resulting from worldwide causes, complete recovery

must await improvement in world conditions; but there are indications that industry is on the upgrade and mining is sure to reflect the improvement which is marked in some other directions.

"I cannot forbear to suggest that your Congress might perform a useful service in connection with the improvement of conditions in coal mining. A widely variable demand makes the problem of production difficult, especially when it involves an overload of the transportation system at a time when that system is least able to bear it."

"With both labor and facilities lying idle for substantially half of each year the costs of coal are bound to be unsatisfactory to the consumer. Is there no way of regulating the demand so as to distribute it more uniformly over the twelve months? Is it not possible to provide storage reservoirs which

will enable the large consumers and large producers to accommodate their conditions to the need for a more constant rate of production?

"I feel that these questions may, with particular propriety, be addressed to your organization. Adequate improvement can hardly be expected in the coal mining industry until the army of working men and the vast capital engaged in it find constant employment."

"I would be glad indeed if your deliberations might produce some suggestions of practical value in dealing with this difficult problem."

Port Arthur, Ont., Oct. 20.—At this morning's session of the G. W. V. A. convention it was almost unanimously decided that the president of the association should be a paid official. His stipend will be fixed by the Dominion executive committee.

Announcing the Greatest Phonograph Value in Canada

A GENUINE Brunswick Phonograph only \$150

THIS extraordinary value puts the Brunswick within the reach of every home. It means that the one complete Phonograph—the only Phonograph that can play all records as they should be played—the only Phonograph that has an all-wood, oval tone chamber—is now offered in a full cabinet size at a price that you would pay for an ordinary or "assembled" talking machine.

Supply is Limited

Bear in mind that this is not a "special" or a model made to sell a price. It is a regular standard model of the Brunswick Phonograph, made in the Brunswick Canadian factory according to Brunswick standards, which for generations has placed perfection beyond production.

The supply is limited. Less than one thousand of this model will be available this year. There are over Six Hundred Brunswick Dealers in Canada. That means less than two for each dealer for the rest of the year.

To get one of these Phonographs you must act quickly. Remember, you may only buy a Phonograph once. It pays to get one that will put real music into your home, and enable you to play all records properly.

This price represents an actual saving to you of over \$30. Call at your nearest Brunswick dealer and place your order at once. Delay may mean disappointment.

To make doubly sure that this Phonograph is put within reach of every family, Brunswick dealers will arrange to deliver one of these models for only \$10 cash, and the balance spread over an entire year. You get the benefit of the cash price with only a nominal interest charge on the unpaid balance.

\$10 CASH

Order Now For Xmas

Any Brunswick dealer will gladly take your order for one of the models for delivery any time until Christmas. All you need to do is make a small deposit and arrange future payments according to delivery. This will enable the dealer to place his order at once and insure you against disappointment.

Any of the following Brunswick Dealers have this Model now:
