ambulances within easy reach, apparently ready for an emergency, or for

an attempt at a rescue.

At 3.30 s.m. General Daletein who had charge of the troops, arrived. The attack was to be made soon after 4 o'clock. The policemen were to be used first and them, to case of desperate resistance, by the garrison, the solders.

Even up to 4 o'clock the troops continued to arrive.

Even up to 4 o'clock the troops continued to arrive.

M. Millevoye entered the fort, accompanied by M. Joseph Lasies, anti-Semite, deputy for condom, to renew his efforts to persuade the garrison to surrender. After a stormy half-hour's discussion between Guerin and his companions, Guerin informed the deputies that all would surrender, addirg that he had been compelled to use a deal of pressure to induce them to yield.

At 4.15 MM. Millevoye and Lasie issued from the fort and the arrest of Guerin followed. Guerin's companions advanced to surrender, but the police told them they were free.

The strange spectacle presented by the military and police measures drew a large crowd of well dressed Parisians, including many demi-mondaines, who

including many demi-mondaines, who stood about on the sidewalks and walked

der, and had a couple of hundred fire-men with steam pumps, fire escapes and miles of hose. All the buildings sround were filled with police and guards. Guerin's house is lower than the sur-rounding edificee and firemen were placed on upper stories of the latter, pre-pared to turn on the water as soon as the signal should be given, while below, in the street, the engines were ready for action.

Infantry officers and officers of the municipal guard paced up and down during the hours of waiting, glancing up at the windows of the fort, from which in the dim light could be distinguished a black flag hoisted from the second floor by Guelin, and a white sheet hanging down with the device in black lettering, "Vive L'Armee" and "A Bas Les Traitres."

When M. Guerin's companions separated they took coaches and were driven off. action.

Infantry officers and officers of the

the municipal guarcs and police, except a few who remained to keep order. The immense crowd then dispersed with little or no disturbance.

POULTRY ASSOCIATION.

The Annual Meeting Held Last Night -Officers Elected.

New Brunswick Poultry Association was held Monday evening in the rooms of the sesociation, Market building. D . John Berryman presided and a large number of members were present, for, besides being the annual meeting, it was expected that an interesting discussion would develop on the standing of the association regarding the poultry show at

ne exhibition.

This has before been alluded to. There This has before been alluded to. There were two points on which the association felt aggrieved with the exhibition directorate. One was the appointment by the exhibition directorate of a manager and assistant for the poultry ahow at the fair. They say the exhibition secretary wrote asking the poultry association to recommend these officials. They did so, and later received word that the officials of the previous year would be continued. later received word that the officials of the previous year would be continued. The other point was in reference to coops for the tirds on exhibition. Where it was understood the poultry building was to be fully equipped with coops, it was only partially done, and the result was that some would get these coops, others provide their own and there would be no uniformity, and some birds would not get the chance of being seen to as good get the chance of being seen to as good advantage 2s others. At the meeting

last night it was decided to make some explanation of these matters through

the press.

It being the annual meeting, officers were elected as follows:—President, Dr. John Berryman; 1st vice-president, George H. Martin; 2nd vice-president, R. D. Damery; Secretary, J. Gerald Burke; treasurer John B. Magee. Directors for city of St. John, T Ms-Cullough, R. P. Hamm, D. O'Keefe, W. L. Walsh.

Matters regarding judges for the show to be held by the association in the win-ter were discussed. This promises to excel anything of the kind ever held in eastern Canads. All rge number joined the association at the meeting.

A COMMON TROUBLE

ds Suffer From it Without its Real Character.

Tablets will cure any stomach weakness or disease except cancer of the stomach. They cure sour stomach, gas, loss of flesh and appetite, sleeplessness, palpitation, heartburn, constipation and headacher.

Send for valuable little book on stomach diseases by addressing Stuart Co., Marshall, Mich.

KILLED BY A CAR.

Little Girl Crushed to Death im

There is no adequate reason why the United States should not become both a great shipowning nation without necessarily working ruin to the mercantile marine of Great Britain. One of the commonent hereated of the present day is that of supposing that no country can make much progress without largely doing so at the expense of other nations. It we consider the relative size of the trading world twenty, thirty, or forty years ago, we shall see that this is not by any means a foregone conclusion. The increased trade of rhe only indicated in the mann of employing a mercantile marine of almost the first magnitude. During the last thirty years that trade has advanced from an average of 16.27 dols. per capita to an average of 16.28 dole nor average of 16.29 dole nor average of 16.29 dole nor average of

tory. This is not only possible but well within the range of probability. tory. This is not only possible but well within the range of probability.

What size of marine would be required to carry a trade of this magnitude? One that would certainly far outpace any marine that the American continent has thus far been able to boast. Indeed, the American shipping trade has hitherto steadily fallen off, instead of improving, despite all the cry that has been raised as to the probabilities of American competition in the markets of the world. It appears from recent official statistics appears from recent official statistics that of the total import and export trade of the United States only 9.3 per cent. was carried in American ships in 1898, Army Will Be Released by Order of the Executive—Paris Is Little Interested.

Was carried in American ships in 1898, against 14 per cent. of the whole in 1888, and 23 per cent. in 1878. It seems absurd in the face of these figures to speak of the forthcoming supremacy of the American mercantile marine, or of the danger which it threatens to our own. But events move rapidly on American PARIS, Sept. 19—The council of ministers today decided to pardon Dreyfus on principle. The pardon will take effect in a few days. Dreyfus has relinquished his appeal for a reversal of the judgment of the court martial.

It is said that Dreyfus will be sent abroad before the promulgation of his pardon in order to avoid demonstrations.

The decision of the cabinet to pardon Dreyfus ereated less interest in Paris than would the result of a big horse than would result of a big horse than would the result of a big horse than would result of a big horse than the result of a big horse than the
