WELL-KNOWN TORONTO MERCHANT TAILOR Permanently Cured of Deafness.

Mr. Chas. C. Hughes has lived in Toronto for 25 years, and is widely known there having been for eleven years in the merchant tailoring business. His position gives his

ying roaring sounds in the ears and head. In October, 1898, having been impressed with Dr. Sproule's advertisement, he put himself under treatment. The was greatly disappointed. After a short use of Dr. Sproule's medicine he found the hearing was not preceptibly benefited alt hough the noises were less and there was a marked improvement in his general health. He became discouraged, had for a time stopped using the general seatch. Sproule, suggesting that a mistake had been made in the diagnosis.

But Dr. Sproule was firm in his absolute knowledge of Catarrial Diseases and Catarrial Deafness in particular. He urged the patient to finish the medicine he had. For tunately for himself Mr. Hughes did so. A few weeks later, February 20th, 1839, he

My Dear Dr. Sproule,-I am sorry that I gave you the idea that I presumed to know as much about my case as you; since then I have become convinced that your diagnosis was absolutely correct, but I must say the action of your treatment was very peculiar. followed it up carefully to the last dose without any apparent effect. Two days after

wards to my surprise and delight, my hearing returned suddenly.

I feel that the cure will be permanent, for I have since had a bad atack of the Grippe, which confined me to the house for eight days. I expected it would bring back the deafness, but it has not the slightest effect upon your work. If the deafness should return at any time, I shall hasten to place myself in your hands once more.

Two Years Later.

My Dear Doctor,-As it was through your advertisement that I learned of you, I feel owe it as a duty to others to let them know of the great benefit I have received, so if you wish you may publish my letter. I will answer personal enquiries and am also willing to reply to any one living at a distance who wishes to know more about my getting back my hearing. Wishing you every success. Yours very truly,

CHAS. G. HUGHES.

HEAD NOISES KEPT HER AWAKE NIGHTS Every Fresh Cold Increased the Deafness-Constant Buzzing, Pufting Noises in Ears.

Miss Lena Etchells, a young lady residing in Grimsby, Ont., is another living witness to this GREAT SPECIALIST'S won-lerful power over disease. Her case had baffled the skill of the ablest in the medical profession. The cause all agreed, was CATARRH of the inner ear and a closure of the Eustachian tubes, but all remedies failed alike to the inner ear and a closure of the Eustachian tubes, but all remedies failed alike to open up these passages and restore the hearing. Physicians told her when the cold got better, the deafness would leave, but one cold followed another so closely she remained as deaf as ever. She would be seized with violent sneezing fits. Her eyes would run water and were very weak. She was on the verge of nervous prostration, Tais increased the head noises, and placed her in a truly pitiable condition. She was growing daily weaker and was greatly depressed in spirits, going to sleep and tremble all over.

Three years before she had taken a very heavy cold which had made her very deaf. Later the distressing noises came on—continual buzzing noises and sounds like steam escaping, which threatened almost to affect her mind.

escaping, which threatened almost to affect her mind.

The change brought about in her condition during the first month's treatment, seems nothing short of miraculous. Her surprise and delight at receiving so much relief, were truly affecting. The following are her own words: "The roaring noises in my head are very much better and scarcely ever trouble me when I lie down at night. My appetite is much better and there is a general improvement. My friends are astonished at the speedy change in me." Again near the conclusion of her treatment she writes:

speedy change in me." Again near the conclusion of her treatment she writes.

Dear Doctor,

I am so happy to tell you I am so well. This last week I have had perfect peace. For over a year I could neither lie down or get up or bow my head or scarcely move without having such a puffing noise in my head. It is so pleasant to lie down at night and never feel such a noise as steam escaping from my ears. I feel like a new creature in every way. I feel livelier, and better and hrighter. I have not the slightest noise in my head or ears at any time, and I never heard better in all my life. I am so glad I wrote to you. You have been such a blessing to me. It is such a comfort not to have those buzzing noises in my head. I hope the Lord will spare you to relieve hundreds of poor sufferers like me. I have had neither ache nor pain since I left off treatment, and I eat and sleep fine. I can't praise you half enough for what you have done for me, because you have proved a friend to me as well as a skilful doctor. My friends are astonished to think I am so well. I will never forget your kindness. I pray the Lord will let, his richest blessings rest upon you and that you may be spared to help poor sufferers. I shall never be able to tell you how much I appreciate your kindness. I am not the same girl that I was this time last year.

Yours very kindly,

A NEW LEASE OF LIFE. A Railway Agent Became Very Deaf After La Grippe -Can Now Hear Fine-Enjoys Life to the Utmost.

Dear Doctor Sproule:
You have full liberty to publish my name and case, as I feel in duty bound to be the cause of helping others if I can. I will recommend you most gladfy to any one suffering from Catarrh in any form, and especially decrees.

INHERITED DPAPNESS. Was Operated on and Tried Many Treatments—Nothing

Produced Any Permanent Good.

When I first wrote to you I had had Catarrh for years. It had gone all through my head and caused terrible inflammation. I had to have an operation. The dector took out great lumps of flesh from my nose. They greew right down so you could see them. But they came back again after the operation, so there was no passage through my nose; it all went down my throat. I had lumps in my throat so I could scarcely speak. My hearing was about gone. My ears were dry and scaly on the outside, and discharged a horrid smelling stuff that I had to take out every little while.

I had all sorts of noises in my head. There was ringing and crackling sounds, and roarings and like steam escaping. Sometimes the noise was so bad I couldn't sleep nights.

But now I can truly say, sam a well woman in every way. You cured, not only my head and hearing, but my stomach trouble which was very bad. I took treatment from you for two months, in November and December of 1900. Now, nearly a year later, I gladly testify that your work is a lasting cure. I have kept well and am still improving. I can hear all right now, and the noises don't bother me any more. I will be glad to tell anybody about my cure. But sometimes I will have to wait till I get some one to write for me as I cannot write myself.

If you want to get cured write full particulars of your case and have a Free Diagnosis. Address, Cotarrh Spec-JOE CASSIDY, Blind River, Ont. idlist Sproule, 7 to 13 Doane Street, Boston.

Ears unstopped and made to hear! SUPERINTENDENT CURED.

Had Been Deaf for Some Years—Treatment in This Case Was Conducted Under Very Trying Circumstances.

proved unavailing, and he had about concluded to abandon the idea completely, until he could choose a more favorable occupation

could choose a more favorable occupation.
One of Catarrh Specialist Sproule's Advertisements induced him to write, and how One of Catarrh Specialist Sproule's Advertisements induced init to write, and now thankful he now feels that he was induced to make this final trial.

At the outset, no marked benefit resulted from treatment, but his courage did not fail him and he continued faithfully on, until he could write the Doctor that a "decided improvement" had taken place, and that he was "very hopeful of a permanent cided improvement" had taken place, and that he was "very hopeful of a permanent course in the provided in the course of th cure." From that time on his progress was most encouraging to himself as well as the Doctor. Shortly before the conclusion of his treatment he writes:

Dear Doctor,—I never felt better in my life than I do now. I believe I am as sound as

Dear Doctor,—I never feit better in my life than I do now. I believe I am as sound as ever. My health is first-class. The change in my hearing is quite remarkable, as I was never able to tollow the treatment regularly. Some times I would be away for two or three weeks in the lumber woods, during which time I would be without remedies. You have made a new man of me. Those, distressing head noises have all passed away and I cannot thank you enough for your great kindness.
Your grateful patient,
