The age of martyrs is not passed. There are thousands of women all over the country enduring physical torture and mental anguish almost beyond description. They are not victims of persecution, like the martyrs of old; they are not called on to face the scaffold or the stake, but their sufferings—borne in silence and hidden from the world at large—are scarcely less intense.

These ladies, as a rule, are women and girls of refined and sensitive temperaments. Knowing that their sufferings are due to a disordered condition of the female functions, their native modesty deters them from seeking relief in the earlier stages; and when they de consult a physician, they usually get some drug mixture to take internally, which is not more effective for troubles of this kind than it would be for a toothache, a bruise, or any other strictly local aliment.

The seat of the trouble being in some one of the female organs, the remedy, to be effective, must act on this portion of the anatomy.

This is the secret of the success which always follows the use of ORANGE LILLY in de-

By Take In Mercangements of this kind. It is a strictly local treatment. It is an absorbed directly into the parts that are inflamed and congested and its beneficent, soothing influence is noticeable from the start. The irritation of the delicate membrane is relieved, the congestion is overcome by the discharge of the watery matter which served to oppress the nerves and cause mental depression; the nerves are toned and invigorated; and the sunshine and joy of life again becomes part of her being. Read the following letters:

sympathize with others. Your sincere friend, MRS. NORMAN WEAVER.

Mrs. F. E. Currah, Windsor, Ont.—

Dear Friend,—I feel it my duty to write you a testimonial as to what Orange Lily has done for me. Last winter I was feeling very miserable indeed. I could scarcely do my housework during my menstrual period, and for two months or more I groin, so I would frequently nearly double up. Then the pain began going up the back of my neck to my brain until I hardly knew what I was doing at times. Life was a burden indeed. I finally could endure it no longer, so went to our leading town doctor and had an examination. He pronounced it (I forget the word) in rigid condition of the generative organs, produced by repeated attacks of inflammation. He said I would have to take a course of treatment, and if that failed to overcome the rigid condition I might, in time, be compelled to have the ovaries removed. I objected to that, so filled out Dr. Coonley's symptom blank and fordecided to take Dr. Coonley's Treatment. I have used two jars of Cerate Massage, months since I began the treatment, but I feel like a new woman. I work right through everything now. Hardly know a pain, even during menstruction now. I feel that Dr. Coonley's Home Treatment is a Godsend to suffering womankind, and shall continue to sound its praises whenever I have an opportunity.

Yours gratefully.

ORANGE LILY as a remedy for these ills, as well as for leucorphoea, painful periods, irregularities, cancers in their earlier stages, tumors, displacements, lacorations, and all ovarian troubles, has long since passed the experimental stage. So confident am I of this that I will send ten days' treatment, which is worth 36 cents, home, and no physician is necessary. Send at once for the
