Here is a

AN OFFICIAL INVESTIGATION into the causes of the catastrophe to the Metis has been ordered by the Aoting Sec-retary of ehe Navy. It is to be hoped that the authorities will not stop at this. We had lengthy investigations when the West-field dealt death to hundreds of mnocent people, but they changed in little the reck-less system of steamboating which is the underlying cause of all such disasters. What we do want are such clear and sim-ple laws as would be likely to prevent such fine field for their extra energy, and not easily exhausted. If they know anything, they must know that these are productive of great harm in the second bath for time t What we do want are such clear and simple laws as would be likely to prevent such occurrences in the future, and to have them stringently enforced Steamboat captains who sail through a fog without tak ing the precaution of making use of their fog whistles, are guilty of reckessness which approaches very closely to a crime, and, whether or not they cause damage by such neglect, they ought to be punished for exposing the lives of others to imminent peril. We hope that the terrible warning furnished by the fate of the Metis will arouse a public attention to this matter that will compel the authorities to take such steps as will render the poccurrence of similar catastrophes rare in the future. ing pecessity.
