

## Inflammation of the Lungs.

CLIFTON, N.B. 17th February, 1873

Sir:—In behalf of my family, I wish to acknowledge a debt of gratitude I owe Mr. James I. Fellows. My daughter had been ill with Inflammation of the Lungs, had raised large quantities of blood and purulent matter, attended with every symptom of Consumption. After obtaining the attendance of two eminent physicians, who afforded her no relief until she was persuaded to try Fellows' Syrup of Hypophosphites. Upon taking two bottles we had every reason to believe she would be cured. Her physicians were surprised to find her improvement so rapid, and advised her to continue its use, which she did until her complete recovery. Two years have elapsed, during which time she has neither taken or required any medicine, enjoying good health, and urges all who are afflicted with any Lung or Chest trouble to use the Hypo. without fail.

My wife also having been in bad health for some time, and having had Typhoid Fever in December last, which left her much prostrated, was advised by the physicians to use this remedy to build her up. Before taking half a bottle she found herself much benefited and still continues to use it.

I believe, under kind Providence, Fellows' Compound Syrup of Hypophosphites has been the means of restoring both my wife and daughter, and I hope the afflicted will avail themselves of its use, for although it is widely used, I think its value is not appreciated.

Yours truly,

JOSEPH A. EVANS.

## Fellows' Hypophosphites.

CAMPBELLTON, N.B. July 1873

JAMES I. FELL, ESQ.

DEAR SIR:—In the fall of 1865 William Young, Esq., merchant, Caraquet, Gloucester County, was ill with Typhoid fever. Immediately after his recovery he became affected with a cough, accompanied by much expectoration. Residing at the time in that neighborhood, my attention was called to his case, the usual tonics and expectorants were administered without any perceptible benefit. Having business in Montreal, Mr. Young consulted several eminent physicians there, including Dr. Campbell, of McGill College, who advised a residence in a southern climate, as his right lung was very seriously affected with a tubercular deposit, and agreed with the opinion I had previously formed. He spent the following winter in Savannah. On his return, little or no improvement could be observed, and in a short time, frequent and prostrating hemorrhage from the lungs, night sweats, and much expectoration, causing great emaciation, had reduced him to a very feeble state of health. Ascertaining the ingredients of Fellows' Compound Syrup of Hypophosphites, I resolved to give it a trial in his case. He commenced using the Syrup and in much less time than I could expect began to improve, the progress of his disease seeming to be arrested almost immediately. He had no return of the hemorrhage, his appetite has returned and his cough has abated. He was at Halifax a few days ago and is now attending to his usual duties. I deem it a duty to you—and the public generally to give you the above statement of facts.

I certify the above to be correct,

WILLIAM YOUNG.

Yours respectfully,

A. SMITH.

## Testimonial to Mr. Fellows.

We, the undersigned, clergymen of the Methodist Church in Nova Scotia, having used the preparation known as Fellows' Compound Syrup of Hypophosphites, prepared by Mr James I. Fellows, Chemist, St. John, N.B. and having known cases wherein its effects were beneficial, believe it to be a reliable remedy for the diseases for which it is recommended:

JAMES G. HENNIGAR,  
Pres. of Conference.  
WM. SARGENT,  
JOHN W. HOWIE,  
RICHARD W. WEDDALL,  
CRANSWICK JOST,  
JOHN JOHNSTON.

JOHN McMURRAY,  
Ex-Pres. Conference  
JOHN A. MOSHER,  
STEPHEN F. HEUSTIS,  
ALEX. W. NICHOLSON,  
ROWLAND MORTON,

## Kept Alive by Fellows' Hypophosphites.

This is to certify that in the autumn of 1867 I contracted a severe cold and cough, and
