

Report of Knox Church S. School,

1894.

The Officers and Teachers again take pleasure in presenting their annual report. To our Father in Heaven we would offer our first tribute of gratitude for His goodness to us as a Sabbath School, in permitting us thus to work for Him, and for sparing in life and health, so many of those who are interested in this blessed work, although we have not perhaps, done everything to the best of our ability, or in the best way, yet we rejoice over the success that has attended our feeble efforts in the year just closed.

We are pleased to report that 14 members of the Bible Class and Sunday School have this year made public profession of their faith in Jesus Christ, by uniting themselves to the communion of the church. May the Holy Spirit lead many more of such who shall be saved to follow their example.

Our school has been progressing steadily in attendance and finances. We have had an increased attendance. The total for the year being 14,510, an average attendance for the days met, 292, and as shown by the financial statement, an advance in the regular contributions.

This year there has been no special effort put forth by the school to augment its receipts beyond the weekly collections, knowing that many of the congregation have been contributing so largely to other branches of church work.

The teaching of the Bible Class, by Mr. Malcolm, still continues to be highly appreciated, and has met 40 Sabbaths during the year. The average attendance has been about the same, viz: 52. Just in passing we would ask those who have been recently drafted into this Class, still to continue in their interest by their regular attendance on this means of grace.

Death has visited us and called three of our number, viz: Miss. J. Macdonald, I. Young and David Armstrong,—to the parents and relatives of whom we extend our heartfelt sympathy.
