Above we present you with the likeness of Dr. Morse—the inventor of Morse's Indian Root Pills. This philanthrophist has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa, and North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were hrst discovered. Dr. Morse was the first man to establish the fact that all diseases arise from intrurity of the blood—that our strength, health, and life depended upon the vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our health we are deprived of, and it nature is not assisted in throwing of the stagnant humors, the blood will become choked and cease to act, and thus our light of life will forever be blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach namely, Morse's Indian Root Pills, manufactured from plants and roots which grow among the mountainous cliffs in Nature's garden, for the health and recovery of diseased man One of the roots from which these Pills are made is a Sadorific, which opens the power of the string and proves it the power of the string ansaists nature in throwing

Not only do they give immediate ease and strength, and take away all sickness pain and anguish but they at once go to work at the foundation of the disease which is the blood. Therefore, it will be shown especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy lite will cherish and brighten your days.
