

C 55997

Dr. McCarthy says: (Q. 4097, Q. 1497)

"Mr. Fielding has been very low all day. He had a bad attack yesterday. I don't think he will pull through; he probably won't last through the night. He is in a very precarious condition; almost any time he may take a bad turn.

He has, of course, recovered from other attacks; but this is much more serious. He might rally, but I doubt it very much."
