by a friend of our cause.

I shall seize the first opportunity when I will be in Ottawa to have an interview with you and go over this matter. I trust that you will give me a chance to learn how this report came to you.

In the meantime, I will repeat what I have said to many others that if I have undertaken to assume certain responsibilities in regard to our organization work in the Province of Quebec, at the request of my leader, I feel that I am not more than a soldier in the conservative army, burdened with more responsibilities than the others, but with no ambition to be considered a leader.

Yours faithfully,

(Signed) D. O. L'ESPERANCE
