

INDEX.

	PAGE.		PAGE.		PAGE.
First Casting on the American Continent, (1,642 lbs.)	310	Membership of Engineering Societies	266	Record in Shaft Sinking	357
Fireproof Construction	184	Meters, Pocket	105	Reversing Gear, Mitchell's Patent	341
Firing out the Fools	385	Metallurgy of Iron and Steel, Descriptive,	196, 266	Revetment Wall at Quebec Docks, The	185
Flanges, Forged Steel	3	Metric Measures	32, 94	Revolution, The Coming	315, 349
Fly Wheel Formula, A New	347	" System, The Present Position of the	183	Robb-Armstrong Corliss Engines	198
Follower Rest, High-Speed	58	" System in the Colonies	284	Role for Success, A, Nov. ad. p.	69
Ford Compound Steam Trap	379	" Kallacy, The	133	Sand Sifting Machine, A	282
Forges, The Sturtevant Portable	29	Milling, On Commercial	197	Set Screw, A New	325
Forged Steel Flanges	3	Mineral Production of Canada	87	Sewage Disposal Works in Gloucestershire, England	31
Fowler's Boiler Room Chart	313	" Production in Quebec	129	Sewage Plant, Operated by Compressed Air, Feb. ad. p.	79
Frazil Ice	3, 46, 93	Mining Statistics in Canada	113	Shaft Sinking, A Record in	357
Furnaces, Electrical Thawing of Blast	38	" in British Columbia	127	Shawinigan Water and Power Co.	129
		" District in the North of Quebec, A New	121	Shawinigan Water and Power Co., Sub-Station at Montreal	138
Garbage, Power from	136	Mining Matters, 4, 41, 68, 124, 142, 190, 227, 260, 288, 323,	360	Shovel, 3 1-2 Yards, "Atlantic Type," Steam	233
Gas Engine Cylinders, An Improved Lubricator for	310	Miscellaneous Notes	166	Sir Wm. Mulock	101
Gas Producer Power Plants	251	Misrepresenting Canada	219	Sixty Inch Turning Lathe	30
Gasoline Centrifugal Pumps	217	Mitchell's Patent Reversing Gear	341	Smokeless City, A	179
Gear Design and Manufacture	247	Montreal Sub-station of Shawinigan Water & Power Co.	138	Society of Chemical Industry, May ad. p.	73
" Wheel, Moulding a Large	337	Montcalm, The	132	Softening Water for Railway Use	117
" Wheel Formula	348	Morgan Blowing Engines	302	Soo Canal, The First	179
Geipel Steam Trap	308	Motor Starting Panels with Circuit Breakers.	92	Spark Telegraph in Germany, July ad. p.	17
Generator, The Test of a	21	" Motor Boats	94, 128, 194	S.P.S. Annual Dinner	113
Generating Set with New Features	47	Moulding a Large Gear Wheel	337	Standard Floor Plates	277
Germany, Made in	243	Municipal Works, etc., 5, 43, 71, 127, 142, 190, 228, 261, 289, 324,	361	Steam and Electric Trains, Comparative Tests of	263
Goldie & McCulloch, New Boiler Works of.	211	Municipalities and the Telephone	139	Steel Buckets for Elevators	312
Great Britain, Progress in	285	Municipal Ownership, Examples of.	6	Steel, Queer Facts About, Aug. ad. p.	15
Great Britain, Postal Rates in	66	Municipal Telephone Plant at Neepawa, Man.	44c, 93	Steel Hardening Metals, The	96
Grain Pressure in Deep Bins	345	Napanee vs. Comtee Act	146	Storage Battery Electric Locomotive	342
Grinding Machine, Hand Wheel	24	National Ownership of Town Sites on G. T. P. Ry. Lands	287	Sturtevant Generating Set, A	312
Half Yearly Canadian Pig-Iron Statistics, Oct. ad. p.	69	" T. P. Ry. Lands	287	" Portable Forges, The	29
Hamilton Cement Contract	101	Natural Selection	286	Successful Independent Telephone Co., A.	45
Hand Wheel Grinding Machines	24	Navigation Notes	106	Suction Gas Producers and Gas Engine Plants in the Province of Quebec	301
Harbor and River Works in Canada	77	New Brunswick, Surveys' Ass'n. for.	196	Surveyors' Association for New Brunswick.	106
Heat Lost by Radiation, Nov. ad. p.	13	Niagara Falls, Canadian Niagara Power Company's Electric Plant at	82, 109	Switch, Electric	244
Heating System of the Angus Shops	169	Niagara, Development at	168	System for Industrial Establishments, 215, 271, 296, 332,	366
Heating the Human Body	89	" Falls, Canadian Electrical Development at	232	Technical Education, On	218
Heroult Electric Steel Process, The	154	Northumberland Straits, Proposal for Viaduct across	200	" Education and Business	63
High Speed Follower Rest	58	Notes, Miscellaneous	166, 395	Telegraph	17
Highland Lament, A (Poetry)	193	Nothing is a Trifle, Nov. ad p.	54	Telegraph in Germany, Spark, July ad. p.	17
Honest Effort	17	Notice	285	Telephone in Parliament, The	99
Horse Power Steam Turbine, 10,000, Aug. ad. p.	17	Nuggets from other Mines	324	" Problem, The	108
		Ontario, Comtee Act of	132	" Enquiry, The	131
Ideal Stationary Engineer	355	" School of Practical Science, New Buildings of	175	" Enquiry, The Government Summary of Evidence	170
Improved Lubricator for Gas Engine Cylinders, An	310	Oscillatory Engine and Crank Motion	379	" and Telegraph, 5, 44, 71, 126, 192, 228, 289, 324,	362
Improvements, The Canada Rubber Co.'s, July ad. p.	69	Parliament, The Telephone in	99	" Legislation	33
Industrial Establishments, System for, 215, 271, 296,	332	Parliament, Applications to	16	" Competition vs. Telephone Monopoly	34
Industrial Outlook, The	255	Patent Record, International	391	" Plant at Neepawa, Manitoba, Municipal	44c, 93
Industrial Notes, 21 38, 68, 122, 141, 188, 226, 258, 288, 321,	357	Pearl Square Augur	347	" A Successful Independent Co.	45
Independent Air Pump and Jet Condensers.	77	Peat, Progress in	92	Temiskaming Railway Commission	101
Incorporations, New, Jan. ad. p., 9, 23, 44b, 67; April ad. p., 4, 126, 146, 178, 192, 229, 261, 293, 324,	362	Perforated Metal and Wire Cloth	30	Test of a Generator, The	21
Indianapolis and Cincinnati Traction Co.	158	Personal, 6, 44, 71, 125, 144, 192, 227, 258, 289, 323,	361	Thermit, The Process in American Practice	240
Iron and Steel Sheets, Annealing Process for	24	Pig Iron, The World's Output of, Nov. ad. p.	70	Thermometers and Pyrometers, Application of the Telephone to Electrical Resistance	311
" and Steel, Descriptive Metallurgy of	196, 266	Pipes, Transformer Outfit for Thawing	73	Threading Machines, "Wells" Pipe	30
" and Steel in Canada	257	Platinum	35	Tidal Investigation Appreciated, Canadian	21
" Foundry, A Large Modern	299	Playtner, H. R.	363	'Tis Wonderful, Oct. ad. p.	64
Is this Success? Oct. ad. p.	69	Plumb Bob, A New	346	Tools, Diamond	17
Jet Condenser and Independent Air Pump,	59, 77	Pocket Meters	105	Too Bad He Was Not the Last	324
Keeping at it	278	Port Arthur and Fort William	6, 7	Transformer Outfits in Thawing Pipes	73
Keys for Electrical Machinery	380	Port Colborne Harbor Works	115, 147	Traction Co., Indianapolis and Cincinnati	158
Lake Temagami District, May ad. p.	12	Portland Cement Industry in Canada	186, 210	Trap, The Pratt Return Steam	187
Large Modern Iron Foundry	299	Postal Rates in Great Britain	66	"Transite" Asbestos Fire-Proofing Lumber	36
Lathe, 60 in. Roll Turning	30	Power Plant at Ottawa, New	373	Transport of Air, Mechanical	73
" McDougall 26 in.	2	Power Plants, Gas Producer	251	Turbinia, The	165
Liege, Belgium, Canadian Exhibition at.	309	Power from Garbage	136	Universal Milling Machine	395
Lifting Magnets	378	Power of an Engine	36	United States Merchant Marine, The	28
Light, Heat & Power, 5, 42, 88, 125, 143, 191, 227, 260, 323,	360	Pratt Return Steam Trap, The	187	Value of Water Powers and Damages caused by Diversion	9, 59
Literary Notes, 44a, 105, 139	194	Precious Metals Tempered, Nov. ad. p.	69	Value of Engineering	257
Live Loads, About, Oct. ad. p.	7	Premier Whitney on Water Power	162	Valves, Improved Cranes	18
Lock Nut, A New	326	Production of Pig-Iron in Canada, in 1904	128	Ventilation, Amount of Air Required For	239
Locomotives, Efficiency of Modern	239	Producer Gas Units	150	Vested Rights and Vested Wrongs	65
Lubricator for Gas Engine Cylinders, An Improved	310	Progress in Canadian Railway Engine Building	19	Viaduct Across Northumberland Straits, Proposal for	200
Lumber, "Transite" Asbestos Fire Proofing Co.	36	Progress in Great Britain	285	Victoria Falls Bridge	364
		Prospective New Steel Industry, A, Aug. ad. p.	15	Water Hoist, A Novel	371
Machine Shop Notes from the States, 21, 48, 97, 107, 162, 185, 215, 263, 290,	312, 353	Public Ownership of Public Franchise	1	Water Powers of Quebec	160
Machinists Tools, New	252	Public Ownership	108	" Power, Premier Whitney on	162
Make Friends, Sept. ad. p.	69	Pumps, Gasoline Centrifugal	217	" Purification	172
Marine, The United States Merchant	28	Quebec, Mineral Production in	129	" Pipes, Electrical Thawing of	80
Man of the Future, The	317	Quebec Docks, The Revetment Wall at	185	" Powers, The Value of, and Damages caused by Diversion	9, 59
Marine Engineers	128	Quebec Bridge	331	" Pipes	Oct. ad. p. 7
Marine News, 8, 41, 72, 123, 144, 191, 228, 261, 323,	360	Radiator Valves	354	" Supply of Compressed Air, June ad. p.	73
McDougall 26 in. Lathe	2	Radium and its connection with Chemical and Physical Problems	181, 201	"Wells" Pipe Threading Machine	30
