Cattle.—Cattle receipts were more liberal at Buffalo last week than for many weeks past, there being on the opening day around 185 cars or 4,600 head, better than fifty cars of which were Canadians, there being fully twenty-five to thirty cars of shipping steers out of the Dominion. Trade was somewhat uneven on shipping steers, some selling at full steady prices with the week previous, while some few sales were made at lower prices. On the general run of butchering stuff values stood a big quarter to half lower, except on a few real choice handy cattle and some yearling stuff, which was not plentiful. Best native shipping steers sold up to \$16 to \$16.85, but were especially desirable. Range on the better grades of Canadian steers was from \$14 to \$15. Stocker and feeder trade was very quiet, around \$9 to \$9.50 taking about the best offered, little, knotty, common stocker grades ranging down as low as \$6. In the bull trade stocker grades sold at about steady prices, but the decline figured a full quarter on the sausage and fat butchering kinds, heavy bulls being especially slow sale. Fat cows sold at about a quarter decline, canners and cutters being included. In the dairy cow trade the very best sold at fairly satisfactory prices, with the medium and common grades very draggy.
