101 DUFFERIN ST. WEST

VANCOUVER, B.C.

The essential characteristic of Shorthorns is beef, but a beef breed that can show a herd with more than 40 cows with milk records ranging from 10,000 to 13,332 lbs. is worthy of careful consideration. —B. O. Cowan.

SHORTHORN CATTLE

Pembina Peerless Coal

"It Burns All Night"

Second only to the Famous "Lethbridge Imperial"

By Dominion Government test (1915, Department of Mines, Ottawa, report No. 331) Pembina Peerless Coal is proved to be superior in efficiency and actual heat obtained to Taber, Drumheller and Edmonton coals.

It is, without exception, the cleanest coal mined in Western Canada today. "Not a rock in a carload." It mines in big, bright, hard lumps, and positively will not clinker. If you are using a coal that clinkers, or if you have to let your fires out every few days to remove rocks, you will appreciate Pembina Peerless.

Pembina Peerless Coal is NOT an Edmonton coal. It is mined over 70 miles west of Edmonton in the Pembina Coal field, and is prepared over one of the most up-to-date plants in Western Canada. Capacity, 1,000 tons daily.
