URGENT CANADA TO FOLLOW U.S. Daylight Saving May be in Force Through Dominion This Month.

By Courier Leased Wire. Toronto, April 1.—Canada to-day from the Atlantic to the Pacific, lags behind her big neighbor to the South, in the matter of time, by sixty golden minutes.

The inconvenience resulting to travellers and others, through the difference in time, is such that many appeals will probably be made to the Canadian Government to speed up the putting into effect of the Canadian daylight saving bill so that the Canadian time will conform with that of the United States in the corresponding time zones of the continent.

Canadian Pacific trains entering Canada from the United States are being held up daily at the border for an hour to help to remedy the situation, but many people are reported to have missed connections at United States border points owing to advancing of the clocks there this morning.

The last word from Ottawa regarding the daylight bill, was that it might be put through in order to be operative about the 15th of this month.

GOOD WORK BY CANADIANS Willison Records Doings of Dominion Troops.

Now Regard Any Developments with Confidence. (By W. A. Willison, Canadian Press Correspondent.)

By Courier Leased Wire. Canadian Army Headquarters in the field via London, April 1.—On Easter Monday a year ago, Canadian soldiers moving mightily to the attack, captured Vimy Ridge.

This Easter Sunday, the soldiers of the Dominion are united with the British troops north of the Scarpe, in defence of the southern flanks of those heights, which dominate so much of the vital coal areas of northern France.

Yesterday afternoon there was a lively artillery duel between our guns and those of the enemy, but again no hostile attack developed.

Last night and throughout to-day, until the falling of this despatch, things have been very quiet. Indeed the shelling in the Vimy area for the past 18 hours has been lighter than at any time since Thursday.

Whether the enemy is hesitating to attack since his heavy losses, which he received from the gallant British troops last week, or whether he is re-organizing for a further offensive against Arras and the Ridge, the Canadians look to the future as I have stated with a morale among the troops of all ranks and the same determination to be worthy of the great record of the Canadian corps.

For days our men have waited to take their part in the world's greatest struggle. They will take it worthily.

Canadian guns played a part in defeating the German onslaught against the position opposite Cappy against Gavrelle last Thursday. Early yesterday morning German preparations for a further attack were effectively defeated by the massed fire of our artillery. At 3.45 o'clock and 4.30 o'clock and again at 5 o'clock, the southern flank of Vimy, stretching out toward Arras, was alive with fire from our guns, which rained shells on the enemy's front lines, communicating trenches and assembly areas.

Our strokes were directed chiefly upon hostile communications, our machine guns maintaining a hail of fire across No Man's Land, and upon the enemy's front line, while our heavy artillery kept up a harassing fire for two hours.
