The Pandora Reservoir

The Pandora is the only range with a reservoir stamped in one single piece of steel and enamelled. It is the only reservoir without seams, rivets or places to catch dirt. It has no sharp angles. All angles are made with rounding curves, and the whole reservoir is beautifully enamelled.

McClary's are the only range makers in Canada with a plant for making enamelled steel reservoirs, and that is why the Pandora is the only range that has a one-piece reservoir.

A HAZING TRAGEDY.

Origin of the Slang Phrase "Who Struck Billy Patterson?"
"It's many years now since the slang expression, 'Who struck Billy Patterson?' was heard all over New York and Brooklyn," said a veteran of the metropolis. "Few people remember the origin of the expression, which was really the killing of a young man by sheer fright. Hazing at colleges was as rough then as now, and a common plan was to capture a new student, try him for some imaginary offense, condemn him to execution, and then hold his head on a block while a blow was struck on the ground with the dull side of a hatchet. A student named William Patterson was caught and tried in this way and was led weeping and shouting to the block. He was then blindfolded and held down, told that his last day had come, and then the bogus blow was struck with the hatchet. His cries ceased instantly, and when the students in alarm tore off his eye bandages and felt his pulse they discovered that he was dead. Several investigations were held to ascertain who struck the fatal blow, and it was because it was finally ascertained that no one ever struck Billy Patterson at all that the aggravating question referred to was shouted at every stranger by street boys, bootblacks and other juvenile nuisances."

OVEREXERTION.

It Leads to Weakness of Heart and Early Death.
A prominent university professor says that an investigation of some years has convinced him that much evil has resulted from college athletics. College athletics, he finds, bring on by overexertion a number of ill, of which the worst and most common is weakness of the heart, that, developing with maturity, unfits the victim for continued efficient effort in business and eventually carries him off before his time.
Sprinting and tennis he believes to be the two sports which work the most havoc with the heart.
Oliver Wendell Holmes said that a condition which often promoted long life was prudently poor health at an early age. He meant by this that a man who in his youth had to husband his strength and by slow and careful process develop the good health that he lacked would be more likely to escape the dangers of overexertion in which the careless giant was tempted to indulge.
Still, given strength and good health in the beginning, moderate exercise of one's powers cannot fail to be a source of renewed strength as well as of healthful enjoyment.
Fortune never disappoints the man who knows he will fail.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE AND STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

O. W. Rowe, of Jackson, Mich., says: "I had varicocele in the secondary stage and two strictures of 3 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT OF DR. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Humor and Philosophy

By DUNCAN M. SMITH

PICK OUT THE GOOD.

Good may be found in everything, in chaff as well as wheat; Although the bullfrog cannot sing. His legs are good to eat; The snake that crawls along our path Or use to some one is, And even he a virtue hath— He oil cures rheumatiz.

Some at the thieving crew may fall Because he waxes fat; But, though he won't adorn a tale, His tail adorns a hat. The worthless pup with ragged ear, Of low and yellow grade, May later in the month appear As sausage for the trade.

The humble rat, whose usefulness Would seem to be the least; To give a wild and random guess, Might grace a Chinese feast. So the mosquito, though-in him Is hard to see a joke, He gives the man whose wife is prim A good excuse to smoke.

Thus, chasing up and down the line, Some good we may observe In every creature, great or fine, Some angle or some curve. That shows some praises are their due, But it is hard to note The streak of virtue running through The man who rocks the boat.

Reading Chinese.
It must be lots of fun to learn to read Chinese. I often thought when I had nothing else to do I would take a few centuries off and learn to read the language. Not that I care anything particular about it, only I would like to be able to throw back at the Chinaman the superior glance he gives me when I look over my laundry ticket to see if he has spelled all of the words right.

It must cause joy unspeakable, certainly unprintable, to be able to sit down with a Chinese cheap labor cigar and a Chinese newspaper and be able to tell whether wheat or the Russian navy has gone down overnight. Of course, I may be mistaken, not being able to understand the signs, but it would seem as though the Chinese paper should be popular in America, because to me every separate and distinct character on the page looks like a complete account of a prize fight, or, at least, the details of one round.

The Milkman.
He lives no languid life of ease, Joy hardly fills his cup. In winter time his well may freeze, In summer it dries up.

All Could Climb.
"There are plenty of lower berths on the train, but every upper is occupied." "Isn't that a peculiar state of affairs?" "Well rather, but not under the circumstances. You see, they are delegates to a woman's convention and it was understood that the lowers were to be left to the older members of the party."

Good For Something.
"The girls go to sleep while he is talking to them." "Why doesn't he put himself on the market as a cure for insomnia?"

An Exception.
Her diamond was a shining rock, And though display she scorned, She really couldn't take much stock In beauty unadorned.

Should Tickle Him.
"It was funny enough to make a horse laugh." "Must have been a joke about a disabled automobile."

PERT PARAGRAPHS.
An empty head looks small enough, but it is one of the hardest things in the world to fill.

Some women are so kind when a stupid man tries to be funny!

No man ever loses anything from lack of confidence in a mule's heels.

Secrets in regard to her own shortcomings can't be dragged from a woman by a team of oxen.

A single man may not know as much about women as a married man, but he is surer of what he knows.

Most any one is willing to do a kind act if he thinks he will be able to draw a dividend on it in the near future.

The reason some of us want some things so much is because we think that there are others who don't want us to have 'em.

Some men would pop the question several months sooner if they were mind readers.

It is better to be right than president, but how about United States senator?

The Red Rose Flavor and Strength

NO Ceylon tea nor Indian tea alone can have the "rich fruity flavor" of Red Rose Tea, because neither variety in itself possesses all the qualities of strength, richness, delicacy, and fragrance. Each has its own peculiar qualities, but each has its weaknesses.

By combining the two in the Red Rose proportions, I produce a tea with the "rich fruity flavor" and strength of Red-Rose Tea, a flavor and strength found in no brand of Ceylon alone.

Like Many a Man.

A horse was entered in a trotting race. When he was put on the track to be warmed up he seemed to move with great energy, and a number of inexperienced persons put up their money on him, but when the actual race came off a rawboned, yew necked animal that had no style about him passed the showy horse with great ease and on the home stretch distanced him. "That horse," said an experienced race track man who had been wise enough to back the rawboned steed, "which lost out is like a good many people. He spends too much time and energy going up in the air instead of getting over the earth."

Self Respect.

It is a mistake to associate pride or foppishness with self respect. The one rises from a judicious consideration of what we are, the other from an extravagant notion of what something extraneous has made us. The one is true, the other is false, and both cannot exist together. A man that respects himself cannot be proud, and a proud man does not respect himself.

Ability.

Father—You ought to be ashamed of yourself, Dick. You are now in your twenty-fifth year and you haven't earned a penny yet. At your age I had already married a woman with \$10,000.—London World.

TAFFY CANDY.

Why It Becomes White Through Pulling and Working.

You have often wondered and have even gone so far perhaps as to ask your scientifically inclined friend why candy or taffy made from brown sugar or even molasses becomes white when pulling and working. The question is not a hard one to find an answer for, provided you look in the right place, but it is ten chances to one that you have never seen a solution of the enigma in print.

First, the exposure to the air and the friction evaporate the sirup, which contains most of the coloring matter, and facilitate the oxidation of the carbon in the sugar, which is always white. Sugar contains eleven atoms of oxygen to twelve of carbon and eleven of hydrogen. The sirup drained from this same sugar in the refining process not only contains more or less of coloring matter, but has a smaller proportion of oxygen to the amount of carbon.

Another reason why taffy is whitened by the pulling process is because it is in effect similar to crushing. Pure, clear rock candy, when crushed, has its powers of absorbing light destroyed or greatly impaired, it pulverized portions reflecting all the elementary colors in each ray, which, of course, results in the eye receiving the impression of white light.
