**The Attitude of Farmers.**

The farmers who supply the city with milk are displaying a most admirable spirit in relation to the fight against consumption and disease by co-operating in the enactment and enforcement of rules and regulations which will conduce to a pure supply of milk of good quality. Their suggestion that cattle should neither be imported nor sold without a veterinary certificate to insure they are free from consumption is well worthy of consideration, and it seems to us a not unreasonable contention that after the prohibition of the sale and importation of cattle affected with disease, it would be a wise and economical course for the Government to stand the reasonable cost of animals, that it is in the interest of the people to have destroyed. Of course precautions would have to be taken that only a fair value was paid, and that the proposition did not resolve itself into Government jobbing. The latter precautions is necessary in view of the reckless way agricultural matters have been administered the past three years. This criticism, however, only goes to the way in which the proposition is carried out. The proposition itself seems a fair and even economical one, when regard is paid to the terrible devastation of life, health and resources made by consumption, and the fact that our farmers are not a wealthy but a hard-working class of men, struggling to make ends meet, and to bring up their families respectably.

The suggestion as to the destruction of refuse by an incinerator is an admirable one and should be carefully considered, and their objection to the dumping of old clothes, mattresses and refuse in lanes adjoining farm lands is well taken. It seems incongruous for some authorities to be busying themselves with rules and regulations to insure sanitary conditions on farms, while the city sanitary authorities themselves are polluting the periphery of farms by dumping all kinds of refuse in these places.

**Milk Problem.**

Yesterday a deputation of the St. John's Agricultural Society waited upon the Premier to lay before the Government their views in regard to the A. P. C. rules for milkmen and the Board of Health rules for Farm Inspection.

They contend that the Board of Health should provide a Veterinary Surgeon for the examination of cows; that a District Veterinary Surgeon should report cases of tuberculosis in cattle to the Board of Health, and that in cases of cattle destroyed in the interest of public health, the Public

**Enquiry Into Barratry Case.**

To-day at the Magistrates Court a preliminary enquiry was held into the loss of the schr. Annie C. Raymond, owing to which two men named Barrett of Spaniards Bay, were arrested on a charge of barratry. The proceedings were taken before Judge Knight and Messrs. Cyril Teasler, P. J. Shea and Inspector General Sullivan gave their evidence.

**COMING THEATRICALS.**

**Mr. T. M. White** and his company of well-known players will stage a charming Southern romance in four acts in the T. A. Hall on Shrove Tuesday night. It is a dramatic story, entitled "His Brother's Sin," and contains scenes of human interest and appealing situations. In the hands of this capable company it is safe to predict that the performance will be an unqualified success.

**HOCKEY MATCH.**—The pupils of Springdale St. School had a hockey match at the Prince's Rink this forenoon. The contest was between the seniors and the juniors. The latter won after a hard game.

Health Department shall pay for them. They consider also that no cattle should be imported into the country or sold in the country unless the person importing or selling them produce a certificate, showing that the cattle are not infected with tuberculosis.

The farmers also pointed out that the quality of milk is affected injuriously by retailers mixing new milk with old milk. They favour the idea of registration of milkmen, the rules relating to the cleanliness and quality of milk. They suggest that precautions should be taken about the places where milk is sold in the city, and that the custom of using the country roads as dumping grounds for dirt, old sacks and refuse should be discussed, and an incinerator procured for the city. The Society has retained Dr. Stewart to represent them at the test for tuberculosis which will take place at the Agricultural Stables and they will also confer with the A. P. C. as to the rules of the latter.

**McMurdo's Store News.**

TUESDAY, Feb. 13, '12.  
We have had at late very many enquiries for Danderine the latest thing in hair tonic, and we are glad to be able to announce the arrival of a goodly consignment of it. Danderine, judging from the testimonials we have seen is a remarkably successful preparation for stimulating the growth of hair and removing dandruff from the scalp. It is also excellent as a dressing for hair. Price, 25c. a bottle. Also, just opened: Brick's Tasteless Extract of Cod Liver Oil the well known tonic. Two sizes, 50c. and \$1.

**The Telegram is THE Medium.**

**Bruce's Firemen.**

The firemen and others who came out in the new Bruce from Scotland, have signed on the ship for six months service. These men are union men at home but not here nor have they command of the funds at present to join the local union. The executive of the Firemen's Union met last night to discuss their position in the matter, and it was decided that the men must join the local union after their month's service on the ship is concluded and when they will have the necessary money to do so.

**Fleet Leaving.**

The Nellie Louise, Water Witch, Clementine, General Laurie, Arnold, Attila, Clutha, E. S. Hocken were all ready to-day to proceed to sea and four of them went out during the forenoon. All except one—the Arnold—are bound for Brazil, and she goes to Gibraltar for orders.

**Both Ways.**

The hotel visitor had taken his dinner elsewhere with a friend. When, on coming to pay his bill, he found himself charged with a day's board, he protested vigorously. It was explained to him that the American plan adopted there was based strictly on a day rate, and that if he chose to eat elsewhere it was his own look-out. The man, however, refused to be pacified, and paid the bill under protest. Then, to everyone's surprise, he asked if dinner was "still on." He was informed that it lasted until nine in the evening.

"I've eaten one dinner," he exclaimed, "but I'm going to get my money's worth out of this house if I suffer all the tortures of dyspepsia!"

He rushed into one of the dining-rooms, seized a bill of fare, and ordered everything he could think of. When he finally reached his limit, the waiter handed him a bill for a good round sum.

"What's that for?" he demanded.

"Your dinner, sir."

"But I have already paid for my dinner in my bill," protested the unfortunate man. "I am staying here on the American plan."

"Then you should have gone into the other dining-room," said the waiter. "This part of the hotel is conducted on the English plan!"

**New Sealer in Collision.**

Mr. Tasker Cook had a message to-day saying that his new sealing steamer, the Lloydsen, had arrived at Grangemouth, Scotland, for repairs, necessitated from the fact that the ship had a collision with another vessel, and received some damage. She will take bunker coal there also and after a few days, when repairs are effected will sail for this port.

**Railway News.**

The east bound express reached a point a half mile west of Rantem at noon to-day with two engines, and a plow. The road is very heavy and the Reid Nfld. Co. are unable to say when she will get in. This train made only 11 miles since yesterday, having left Rantem in the afternoon. The rotary plow left Brigus Junction at 8 a.m. to clear up the road to St. John's.

**Here and There.**

**NELLIE M. SAILING.**—The Nellie M. will come off dock to-morrow and will load fish for Bahia at Monroe's South Side premises.

**LOST.**—At the Prince's Rink on Saturday afternoon, a Ladies' Silver Watch with Fob attached. Finder will be rewarded on leaving same at this office.—Feb 13, 12.

**ICE AT THE COVE.**—The ice extends about two miles off Portugal Cove to-day. The Other, from Bell Island, is frozen in at the Cove. The Baleine got within two miles of the harbor last evening and landed the passengers. She did not turn up at all to-day.

**STAR SAVINGS BANK.**—The officers of the Star of the Sea Society will meet to-night at the hall to discuss the question of the foundation of a Savings Bank. All the members and their families will attend. E. M. Jackman, Esq., the President, will occupy the chair.

**The Honeymoon.**

"Billson and his wife went off for their honeymoon in a motor-car." "Where did they spend their honeymoon?" "It was a brand-new large touring car the bride's father lent them for the occasion." "Where did they spend their honeymoon?" "Billson drove the car himself. He didn't know anything about driving, but his wife trusted him." "Where did you say they spent their honeymoon?" "They whizzed along at about sixty miles an hour, and—" "Yes; but where did they spend their honeymoon?" "And Billson steered the car with one hand and held Mrs. Billson with the other." "But what I want to know is, where did you say they spent their honeymoon?" "In the hospital."

**THE LONDON DIRECTORY**

(Published Annually)  
ENABLES traders throughout the World to communicate direct with English MANUFACTURERS & DEALERS in each class of goods. Besides being a complete commercial guide to London and its suburbs, the Directory contains lists of EXPORT MERCHANTS with the goods they ship, and the Colonies and Foreign Markets they supply. STEAMSHIP LINES arranged under the Ports to which they sail, and indicating the approximate sailings. PROVINCIAL TRADE NOTICES of leading Manufacturers, Merchants, etc., in the principal provincial towns and industrial centres of the United Kingdom. A copy of the current edition will be forwarded, freight paid, on receipt of Postal Order for 20s. Dealers seeking Agencies can advertise their trade cards for 2s. or large advertisements from 2s.

**The Number '13' DISTURBS THEM.**

In the Daily News editorial of this morning we find the following:—"The present year they look at with dismay, because the sum of its digits—1912—make 13. Next year is also regarded with fear, for is it not 1913? Come to think of it, though, Newfoundland may have reason to put some faith in the misfortune, for the present winter has certainly been the worst for many years, as there has scarcely been a civil day since January 3rd. No wonder men are asking what will 1913 bring forth."

There is no doubt about the Government living in fear and trepidation. They wonder what the present year has in store for them and feel certain that the year 1913 will put an end to their career of extravagance, givings out, and deals. The outlook is gloomy for them, but it has a silver lining for the country.

**Big Cafe Hold-Up Scares Vancouver.**

Lonesome Bandit, Unmasked, Robs Till in View of Thirty Diners.

Vancouver, B. C., February 2.—The most spectacular and the boldest hold-up in the city's recent wave of that brand of crime, occurred shortly after nine o'clock last night, when a lone bandit, armed, but unmasked, entered McIntyre's Cafe, in Seymour street, one of the largest in the city, and flourished his revolver at the heads of thirty men and women seated at the tables.

The bandit had apparently awaited his opportunity, which came when the cashier was called to the telephone. He dashed through the front door, made his haul in a few minutes and disappeared.

**\$25 in GOLD Given Away**

The great "QUEEN LINIMENT COMPETITION" open to every Man, Woman and Child in Newfoundland. On the 1st of March, 1912, will be given away to the Four or more successful winners of this competition the sum of \$25.00 in Gold.

We have on exhibition in the window of our Medical Hall, Theatre Hill, a rectangular box having an inside space as follows: length, 8 inches; breadth, 4 inches; height, 3 inches. This box is filled with Antidiphtheria Pills of about the size of a pea.

The competition is to guess as near as possible the number of pills contained in the box. The person guessing the exact number, or the nearest number of pills in the box, will receive for the first prize \$10.00; second prize, \$5.00; third and fourth prizes, \$2.50 each.

In the event of two or more persons guessing the same number, the amount of the prize will be proportionately divided amongst the successful winners. That rule will apply to all prize winners. Every person purchasing a bottle of our "QUEEN OF LINIMENTS" whether in the city or outport towns, and mailing us the outside green wrapper of bottle, with the number of guess, together with their name and address, will have a chance of winning the grand prize.

If outport competitors who are unable to obtain this Liniment in their town will mail us Twenty Cents in Stamps, together with number of guess, name and address in full, we will forward post paid by return mail a bottle of our "QUEEN OF LINIMENTS," but with the outside wrapper removed and retained by us, as a pledge of purchase, and a due record kept of that fact. The person forwarding us the greatest number of the outside green wrappers of bottle together with their name and address will not only receive an additional prize of \$5.00, but will have a chance of winning some other prizes as well, if they send a guessing number with each accompanying wrapper.

This competition will close on the 1st day of March, 1912, at 12 o'clock, noon. Estimates after that date and hour will not be considered.

On the same date the box will be opened by two reliable and competent judges, who will carefully count the number of pills, and make the awards to the successful competitors.

"STAFFORD'S QUEEN OF LINIMENTS" is one of the most perfect and penetrating Liniments that can be purchased in Newfoundland, and it ought to be in every household. Once used always used.

**INJURED FOOT CURED.**

"I speak for Zam-Buk because I cured me of a terribly bad foot," Mrs. Alice Berryman of 150 John North, Hamilton. She adds: "My injury was caused by a wagon wheel, the sore was on my right foot. It came very inflamed and swollen and painful that I found it away. In spite of treatment, the wound got no better, the foot became more and more swollen until it was several times its usual size. The flesh was terribly itched and it was so sore that I could not walk. My husband's mother at brought me a box of Zam-Buk. It was applied to the foot and it was a relief how soon I found relief from severe pain. A further supply of Zam-Buk was obtained and I persevered using this liniment alone. In a couple of days the swelling had gone down considerably, the discoloration was distinct and the pain was banished. Four days I could go about as usual, bruised and injured foot had been thoroughly cured by the timely use of Zam-Buk."

**Farmer Writes on Milk Question**

Editor Evening Telegram.

Dear Sir.—Allow me space in your widely circulated paper to make a few comments on the Rules and Regulations brought before the farmers of the Association for the Prevention of Consumption.

There is no farmer around the skirts of the city, so ignorant as to know that it pays him to keep his cattle in the best possible condition that he can, and like-wise, he knows it pays him to keep their production of milk as clean and pure as he can for if not, either he loses his customer or he will not get the regular price for it.

Allowing that milk and the cream that produce it should be kept clean as possible, I turn to the A. P. C. rules which the poor farmers of this country could not live and exist by any means. Do these mean to put the small struggling farmers of Newfoundland on a par with the wealthy farmers of the United States and Canada, who by every encouragement given them their respective governments, in shape of large county Agricultural Colleges, and the best breeding stock that can be procured in the world. Farming in this country is only in infancy as yet, all for the want of encouragement and fair play, and can very much of the wisdom that will remain, if the farmers are to be dictated to by every Tom, Dick and Harry, and if the Government tends to waste the public money such as these in preference to children of the old pioneers that created here over a hundred years ago, and strove to make a home, the wild forests, under the most trying circumstances without roads, machinery of any kind to work land. Then we farmers will come
