The Most Beautiful Car in America

A New Development in Light Sixes

Before we began experimental work on our new six-cylinder motor three years ago, we made a very thorough investigation of the light six field.

We found out just what qualities car owners desired in the power plants of their motor cars and then we designed an engine to meet these requirements.

The wisdom of our method is attested by the unanimous approval given our five-passenger "Glenbrook" model. With its first appearance, it immediately won the enthusiastic support of motorists.

And, by its dependable and economical performance, it has so clearly demonstrated its high character as an investment value that our production schedule is already proving unequal to the demand.

The "Glenbrook" is a truly remarkable development in five-passenger cars. Won't you arrange for a demonstration while our dealer is in position to meet your requirements as to delivery?

Essex, Six-55; Larchmont, Six-55; Glenbrook, Six-42. Complete Line of Enclosed Cars.

SMALLPOX AT TWILLINGATE.—message to the Health Department yesterday stated four cases of smallpox had appeared at Twillingate. Dr. Drew is attending the patients and enforcing the quarantine regulations.

BANDSMEN'S OUTING.—The bandmen of the T.A. and B. Society will hold their annual outing on May 24th, going to Salmonier, where they will spend three days' fishing.

Seen From the Lobby.

House of Assembly, April 26.
Sir John Crosbie's two-and-a-half-hour speech, dealing mainly with the Fish Situation, was one of the best ever delivered by him, and everybody in the House, friend or foe, could not but congratulate him on his effort.

Considerable amusement was caused by a "conversation" carried on across the floor, between Sir John and Mr. Coaker. For a minute or two there was a real flash of wit on both sides.

There are in Oporto, now, 55,000 qtls. of fish, and 6 cargoes outside, waiting for entrance. That makes 40 weeks consumption, or 10 months. Looks serious for the new fish market?

"Labrador fish last year would have sold for about \$6 but for the Spanish buyers," was one of the interesting statements made by Sir John Crosbie.

One hundred Newfoundland fish-carrying ships have been lost during the last year, or about 100,000 quintals of fish. "Lloyd's Insurance Company was one of our best customers," remarked Sir John.

Mr. J. R. Bennett, in the evening session, told how, when he was Colonial Secretary, the Imperial authorities had offered Newfoundland 100 aeroplanes. A fat lot the Englishmen must have known about Newfoundland, to offer such a flotta of aircraft. Perhaps they thought we'd use them fishing?

Mr. Bennett, referring to the Labrador Boundary, touched on the vast forest resources of that peninsula. Just now, particularly, when all American newspaperdom is yelling for newprint, it is very interesting to think of the wonderful supply of pulp that is waiting on Labrador for the keen edge of the woodman's axe. This is one powerful reason calling for a quick solution of the Boundary Question.

Pensions will cost Newfoundland from \$750,000 to \$800,000 per year, said Mr. Bennett. This is some money!

Newfoundland's war expenditure is \$1 or \$2 million dollars—also a pile of money!

Touching on industrial matters, Mr. Bennett said a mouthful when he stated that workmen who a few years ago got from 50 cents to a dollar a day and are now getting what seems to be good wages are worse off than then, because the cost of living has increased at a greater rate than wages. Still people wonder what is causing "unrest!"

Mr. Higgins, also, broached this subject of "unrest." What is this unrest? he asked. What is its cause? Is it not, first, that the workman is disillusioned as a result of the war, and second that he is dissatisfied with his lot? Never was the workman sailing closer to the wind than now.

Mr. Higgins raised a laugh when, dealing with the gift of two Admiralty ships to Newfoundland the British Government, he stated that in Dover they wouldn't accept Admiralty ships to sink for breakwaters.

There was a big crowd in the evening, men filling seats and aisles, upstairs and down, and even filling the hall outside.

Incidentally, I might observe, it is a pity that the visitors' gallery and "pit" are so small and admit of such a few. It would be a real boon if they could be enlarged.

I saw a funny thing happen in the afternoon. An honorable gentleman was shifting about uneasily in his chair for a few minutes. Then he caught the eye of another member and made a sign to him. He then passed the word and the first member secured another member. The four then left the House together.

Oh, you Assemblymen!

Jones Election Petition.

YESTERDAY AFTERNOON.

After recess Mr. Samuel Hynes of Kelligrews was called to give evidence. He was examined by Mr. Mews and cross examined by Mr. Howley. The Deputy Minister of Marine and Fisheries, Mr. Goodridge, was the last witness called. Mr. Howley for respondent began his address which will be continued to-morrow.

LIFT OFF CORNS!

Doesn't hurt at all and costs only a few cents

Magie! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift the corn off with the fingers. Truly! No humbug! Try Freezone! Your druggist sells a tiny bottle for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the discovery of a noted Cincinnati genius.

Cadet Athletic Association.

BIG SPORTS PROGRAMME.

The C.C.C. Athletic Association meet to-night to outline the seasons programme. It is the intention of the committee to hold a big sports day at which it is hoped, the couple of hundred returned soldiers, members of the O.C. will give an exhibition of drill and exercises. Rowing, football and cricket will be amongst the events in which the Association intends to participate during the coming season.

Diamond Dye is Aid to Fashion.

OLD, FADED APPAREL CAN BE RE-COLORED AND MADE OVER, STYLISH, NEW.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods—dresses, blouses, stockings, skirts, children's coats, feathers, draperies, coverings.

The Direction Book with each package tells so plainly how to diamond dye over any color that you can not make a mistake.

To match any material, have druggist show you "Diamond Dye" Color Card.

Land Settlement for Ex-Service Men.

The Government is prepared to consider the question of affording to ex-soldiers and ex-soldiers of suitable character, education and adaptation an opportunity of settling on the land.

The training that would be required of men who would like to take advantage of any scheme the Government may propose would be as follows:

(a) Work on a farm under some approved farmer for the Summer and Autumn of 1920.

(b) Every man who during his summer's work had demonstrated his industry and adaptability to agricultural pursuits would be given an agricultural course in some approved agricultural college, experimental farm or similar institution for the winter 1920-1921.

(c) Every man who had completed the winter's course and during the course had demonstrated his industry and adaptability to agricultural pursuits would be given work on a farm under some approved farmer for the summer of 1921.

(This second summer on a farm might not be required of men who prior to enlistment in Navy or Army had been practical farmers.)

Men who had by their work and conduct during the above courses demonstrated their industry and adaptability to agricultural pursuits and their ability to earn a livelihood for themselves as farmers would be furnished by the Government with a loan of money on easy terms of repayment to enable them to secure small farms with the necessary equipment and stock to start a farming enterprise.

As it is probable that but few men would be able during training to earn sufficient for their own support and the support and maintenance of their dependents, their wages would be supplemented to a reasonable amount, depending upon the circumstances of each case. Dependents' would include the wives and children of men married before demobilization.

Until a reliable estimate of the number of men who desire to take up agricultural pursuits under these proposals can be formed, it is impossible to announce details of this agricultural plan.

All ex-soldiers and ex-sailors who desire to undertake agricultural work this summer intending to pursue agriculture for a livelihood are requested to make application at once to the Vocational Officer, Militia Building, St. John's, for an application form which must be properly filled in and returned to the Vocational Officer not later than the 30th day of April next.

If any ex-service man has any other proposition for settling on the land that he would like to have considered, he is invited to state it in writing to the Vocational Officer at the earliest date possible, but in any event not later than the 30th day of April next.

This announcement does not necessarily imply that a Land Settlement Scheme will be prepared and announced. The action which will be taken in the matter will depend on the number and nature of the applications.

No man who is physically unable to undertake or is afraid to face the hard work entailed by a training to become a successful farmer need apply.

W. W. BLACKALL,
March 27th, 1920. Vocational Officer.

Moonshine Outfit Seized.

Yesterday afternoon the police made a raid on a house in Belvidere Street and succeeded in locating a "still" and also a quantity of booze. Head Constable Byrne, Constables Lee and Simmonds made the seizure. Though the manufacturing plant is of the crudest make, consisting of two tin cans and a coil of pipe, the brew has some kick in it. It is said to contain 40 per cent. of alcohol. It will be submitted for analysis to-day.
