TODAY; SEALED ORDERS RULE

This battle, the speaker said, filustates how God holds the destiny of
all nations. A whole series of unexmoded events which thwarted Napolsma profoundly laid plans were cited
for plans that His own better ones
for plans

The following orders were issued by Col. Cruickshank yesterday:

Field manoeuvres will be held Monday, Tuesday and Wednesday.

Units will submit to the C. O. C. requisitions for 80 rounds of blank ammunition per rifle, which will be drawn as follows: "0 rounds for Monday, 40 for Tuesday, and 20 for Wednesday.

The expenditure of the ammunition must be most strictly controlled

The expenditure of the ammunition must be most strictly controlled by officers and N. C. officers. Any undine expenditure of ammunition is directly traceable to lack of control on the part of subordinate leaders, and points to a lack of fire discipline, the maintenance of which is one of the soldiers most important duties.

When any portion of a unit leaves camp for manosuves, commanding officers will forward a certificate to headquarters that a careful inspection has been made, and that they are satisfied that no man is in possession of ball ammunition. A similar procedure will be followed with regard to blank ammunition on the conclusion of the manoeuvres, Commanding officers of sides

What Piano Shall I Buy?

q The Gourlay comes as the real solution to this important problemmusical pleasure and education in the home.

¶ On the purchase of a piano depends permanent satisfaction and pleasure, or dissapointment and regret. It is therefore an investment that requires most careful thought and investigation.

I The thousands of Gourlay owners throughout Canada are the most enthusiastic supporters of the Gourlay tone-producing qualities. It retains its intrinsic value — winning true and sympathetic friends wherever it is played or heard.

I The marked success which gives the

Gourlay Piano

a recognized place among the best grade pianos of the world, is based on detailed perfection of workmanship. and finest qualities of materials. Each stage of construction reflects the highest human skill in piano making.

I The cost of manufacture has always been a secondary consideration first and only thought being given to quality and perfect workmanship.

g You can make no mistake if you buy a Gourlay. It kindles in the home a lasting happi-
