208.....Editorial Rooms.

209.....Job Department.

LONDON AND ENVIRONS.

—Miss O'Donoghue, of Winnipeg, is visiting in this city.

—Mr. Thomas Martin, director of music, Holloway College, has returned to the city.

—Mr. James Burgess, of John H. Chapman's, has gone on a trip to the Northwest Territories.

—Mrs. Joseph Brent, who has been visiting her son, Charles Brent, of Port Arthur, has returned home.

—J. Ross McKay, of the Western British American, Chicago, was in the city yesterday afternoon on business. He left St. Thomas this morning for the West.

—Miss Minnie Boone, daughter of High Constable Boone, of Thornbury, is spending a month's vacation with her uncle and aunt, Mr. and Mrs. W. M. Gray, Langarsh street, South London.

—Mr. John Fulcher left last evening for Elmira, N. Y., to take charge of his horses at the Elmira Exhibition, where he intends entering them in the jumping competition. He will return about Sept. 12.

—Miss Kate Anderson, formerly of London township, has been appointed assistant principal of the school at Eagle Grove, Illinois, where she will remain for a year or many friends. She is a young lady worthy of and qualified for the position.

—Great attention has been paid of late in New York, Philadelphia, Toronto and elsewhere to the writing of advertisements. It is quite an art. London has several capital advertisement-writers, as these columns from time to time indicate. In some cases, the writer is retained by one house for a single task. In other cases, one expert advertisement-writer looks after a number of establishments, although generally a writer undertakes only one business of a kind at a time.

—A bicultural quartet peered through the bars of the Police Court case this morning. Henry Gay, an old offender 73 years of age, who was discharged 24 hours previous, became intoxicated again on the strength of it. He was given still another chance.

—An Illinois vagrant from Illinois, was ordered to return to the home of his childhood. Edward Dalton appeared again after a short absence, recovering from delirium tremens. He will return to London township, whence he came. Henry West, the last of the list, was charged with overestimating his alcoholic capacity, but was allowed to depart.

Local Kernal.

In High Court of Justice yesterday:

Burns vs. Davidson.—Aylesworth, for the plaintiff, moved to continue an injunction granted by a local judge at London restraining the defendants from selling or conveying certain land in Portland, Ore., pending an action to set aside a conveyance of the land to the defendant Alexander Davidson by one Ebenezer Davidson, the plaintiff whom the plaintiffs have a judgment, and also to set aside a mortgage, by the defendant Alexander Davidson to the defendant Ebenezer Davidson on the ground that such conveyance and mortgage are fraudulent and void against the plaintiffs, T. H. Pardon (London), for the defendants, contra. Reserved.

Watt vs. Dunn.—Judgment. Order made changing the venue from London to Sandwich. Costs in the cause, W. B. Raymond for the motion. Aylesworth, for the plaintiff, contra.

They Will Have the Sewer.

The members of No. 1 Committee met last night to transact Court of Revision business, but owing to the absence of the City Solicitor, to whom the appeals of the insurance companies and the agents for outside firms had been left, the bulk of the business could not be handled. The assessment on block pavements and sewers were confirmed. A petition was received from several property owners on Horton street against the proposed construction of a sewer on east Horton street, between Colborne and Burwell, in continuation of the sewer west from Horton street, the frontage of those in favor of the construction was found to be larger than that of its opponents, and the work was accordingly ordered to go on. The committee then adjourned until after

the return of the City Solicitor, to meet at the call of the chairman.

London's Pride.

Entries Pouring in Rapidly for the Western Fair.

Thrilling Balloon Races—Shooting at Cigars in a Man's Mouth—The Southern States Exhibit—Canada's Greatest Art-cultural Show.

The prospects for the Western Fair are glowing. Everything is getting in readiness for the opening on Sept. 18. Applications for space are pouring in, and the ready number of exhibitors to date shows an increase of 30 per cent. over that of 1888, with the entries in like proportion. One of the greatest features of the exhibition will be the new art annex. The Western Art League have been anxious for several years to procure a suitable place where their pictures may be shown to advantage, but owing to the bad adjustment of light the main building was not favorable for that purpose. The league subscribed \$200 towards the erection of a proper art building, which, with the grants by the Western Fair Board and the City Council of \$300 and \$500 respectively, has now become an assured fact. Specifications have been drawn out and tenders will be called for, the annex to be added to the south side of the main building in the center.

The association has felt the necessity, since the establishment of the new fair grounds, of having a permanent boiler and power furnished on the grounds both for the running of machinery and the supplying of the electric light. With their characteristic energy everything has been accomplished accordingly and at a cost of over \$1,000. The machinery for the electric light will be furnished by Goldie & McCullough, of Galt, and Leonard & Son, of London. The exhibit in the main building will surpass in interest and novelty all previous fairs.

Something entirely new and original will be seen on the south side of the main building. Here will be shown different materials and articles in the process of manufacture. There will be seen feather-bone corsets made on the spot, cigars finished from the leaf, glass-blowers at work, the stamping by the M. Clary Company, shoes made from raw leather, furniture carving and upholstering, screws turned out in machines, harness manufactured, the various processes in pottery work from the clay, and many other things to delight the eye. Every department of the fair will be unequalled in dimensions and the quality of the exhibits.

The list of special attractions is a grand one, and the directors show their wisdom in thus catering to the popular taste.

The best horses in the country will be present to compete in the speeding contests, which commence Sept. 20.

Six hundred dollars have been appropriated towards a musical attraction, to which the bands of the Seventh Fusiliers, "D" Company, Berlin, Onondaga, Muncey, Forest City and others will contribute.

Brunch John, with his band of cowboys for four days and three evenings, will give wonderful exhibitions of horsemanship, lassoing of wild steers and general realistic prairie life, including the attack upon the lone traveler by Indians, the rescue by the cowboys and the burning of the trapper's cabin. This show is claimed to be fully equal to Buffalo Bill's. C. A. Dayman will perform marvelous feats with the rifle. He will knock the ashes of a cigar held in a man's mouth, hit a needle placed on another's ear, split a card and do other incredible things.

The wonderful balloon races by Brady Bros. promises to be a thrilling sight. At a given signal the two immense balloons will leap into space, and when at the awful altitude of 5,000 feet, each man will jump off with his parachute.

Numerous other attractions equally as interesting will be provided. The exhibit of products from the fourteen Southern States will be the only thing of the kind to be seen in Canada, and is alone worth traveling miles to see.

In fact everything points towards the West being charged to the Dominion of Canada. Thousands of people are expected from every section. All that remains to be hoped for is continuance of the presents fine weather.

Puritan and Old Chum.
