On June 3, according to a letter from Manitou, Colorado, they had a very cold time of it in that neighborhood. Here is time of it in that heights the statement: "Tuesday it snowed hard on Pike's Peak, and then grew intensely cold, the thermometer marking 8° below cold, the thermometer marking 8° below zero. Notwithstanding this a party of fourteen ladies and gentlemen started for the arctic region on horseback, with the express purpose of discovering the tip ton."

The administration of the French navy has been wasteful enough to be seandalous. Under the prevailing system supplies have Under the prevailing system supplies have been granted on an absurdly lavish scale. For example, in some of the naval hospitals there were in stock 18 nightcaps, 46 night shirts and 50 sheets per patient. One store contained one kind of rope in sufficient quantity to last a century. During the past two years goods valued at nearly \$6,000,000 have been condemned as useless.

The sales of Dresden china at the works in Meissen last year amounted to \$475,000, the greatest sum ever realized in a single the greatest sum ever realized in a single year. There is a Saxion tradition that the financial condition of the Meissen works is political barometer. In 1720, for instance, he receipts were only about \$6,000. In 1807 they sank from \$100,000 to \$45,000, to rise again in 1815 to \$120,000. At the approach of the revolution of 1848-49 and of the Austro-Prussian and the Franco-Prussian wars the receipts fell off still more speceptible.

Mr. George Warner, who has been traveling nearly 2,000 miles up the Yangtse-Kiang River in China, says he and his Kiang River in China, says he and his white comrade were treated better by the natives, he thinks, than Chinese travelers would be in this country. There is reason to doubt the entire justice of this observation. The frantic efforts of many Chipese to get into North America by the underground railroad do not indicate that they have any lively lears of ill treatmenthere. Mr. Warner hinself admits that his pathway was smoothed to a large extent by the fact that he word native attire and also a pigtail as a concession to Chinese pejudices in favor of that appendage.

The debate continued for a considerable time, and was concluded by the Bishop making a statement with regard to Rural Dean Langtry's figures of villages and church work. There was no reason for the charges of destitution in the diocese.

The report was adopted.

At the evening session there was a lively discussion on the report of the Prisoners' Aid Association Committee. The Bishop took occasion to refer to the resignation of Rev. George Lloyd, chaplain of the Penetanguishene Reformatory. His letter to Hon. Mr. Mowat with reference to the question had not, he said, been answered in the most respectful manner, and had given him to understand that a Church of England clergyman could hardly be expected to and clergyman could hardly be expected to receive the appointment. An innocent-looking motion on the election of delegates to attend the Winnipeg convention next August was the means of opening out the batteries of both high and low church parties, and there was a heated discussion on whether the said delegates—cleric or lay—should be selected together, or whether each body should vote separately on the delegates. Those who favored the distinctive vote were principally of the "high church" stripe, and those favoring the other and apparently more reasonable plan were chiefly of the "low church" party. Rev. Mr. Forneret asked leave to introduce a motion to make one of the delegates a layman. This was agreed to, and he moved the names of Archdeacon Dixon and Mr. F. W. Burton as the Synod's selection. NIAGARA.

HAMILTON, June 12.—The Synod of Niagara resumed its session this morning. The report on prison reform, presented by Rev. Mr. Geoghegan, traced the work of the Prison Reform Association and showed that there are seven jails in the diocese—at Hamilton, Milton, Welland, Cayuga, St. Catharines, Guelph and Orangeville—in which were incarcerated last year 1,818 prisoners, 630 of whom were attached to the Church of England. Of these 69 were under 16 years of age. The proportion of English Church members being one-third, the proportion of expenses for their detention amounted to \$6,000, a sum greater than that expended by the Synod on mission work during the same period.

The discussion on the Prison Reform Committee was given a new lease of life to continue its good work.

The Synod accepted the trust deed drawn up by Chancellor Martin in relation to the determined intention of the Canadian Government, represented by that railway company, to inaugurate competition at every possible point with the Grand Trunk Company, which is independent of the Government, and it is a poor reward to the pioneer Canadian line which, while paying little return on the capital invested, has done so much to build up that country.
