A Decrease of Fifty-One in Nine Municipalities.

The Assessors' Rolls in Bad Shape Some Instances and the Returns Unreliable

County Clerk Robinson is busy compiling statistics of the county for the Two Daisy Pitchers-Only Two More Ontario Legislature. From the figures given below there is a decrease shown of 51. While there appears to be a substantial increase in some municipalities, some of the county officials seem to doubt the accuracy of the figures. Cases have been known where the assessors have failed to call at the houses, and left the papers with a neighbor, taking him as authority whether he knew or not.

In the Parkhill assessment roll mistakes occurred in the summing up, the pages and compares them with the total as given by the assessor in his recapitulation. In some cases he finds the totals sadly astray, and as a consequence the returns have been and are to this present time unreliable. The clerk was inclined to think that where mistakes occurred in such simple addition, there was little hope to find the other hundred and one columns correct. The returns, so far as

SAGACITY OF HORSES. During a skirmish with the Sloux Indians, the Third United States Cavalry formed an encampment in a valley to the southern border of Dakota. At nightfall the horses were tethered by a long line to the ground. Toward daybreak a violent storm of rain and hall burst over the valley, when the terrified animals broke loose from their fastenings, and tore away up the steep sides of the valley into the territory of the enemy. Without horses, at the mercy of the enemy, we would have been lost; yet it was impossible, in the darkness, to go after them into an unknown country, probably full of In-dians. The commanding officer, as a last resource, ordered the stable call to be sounded. In a few minutes every horse had returned to the encampment, and we were saved .- Thier-
