Lose in Eastern.

The fans in four of the American and National League cities got more than value for their money yesterday, an eleven-innings game, a thirteen-innings games and two twelve-innings games being played. Forty-eight innings was the total for the four games, and the the total for the four games, and the runs made only numbered nineteen.

In the American, at Boston the champions met the Highlanders (who Cleveland gave them the run of their lives for Chicago first place last year) and pulled out a Philadelphia run to the good at the end of the twelfth, the score being 2 to 1. At St. Louis, the Browns and the Athletics finishing ahead, 3 to 2, The Boston and Chicago Nationals

played at the Hub, eleven innings, the home team losing 3 to 2, and in a twelve-innings game at Brooklyn the Cincinnati Reds won 5 to 1. The Brooklyns went to pieces in the last inning, allowing four runs. Toronto and Montreal were again defeated in the Eastern. The secres: '

with the rulings of the referee, who seemed to act fairly throughout the game, and benched some of the players for very trivial misdemeanors. TUBERCULOSIS

Sea Water Injection Found To Be of Great Benefit to Patients.

Paris, July 20.-The comparatively new sea water treatment of consumption is now claiming the attention of hundreds of Parisian scientists, Ever since Dr. Trosier, on behalf of Dr. Fournel, read a short paper on the subject before the Academy of Medicine, doctors in hospitals, phthisis specialists, and general practitioners have been making experiments with the "marine serum," with- the object of seeing if the results were as favorable as those which have been obtained by Dr. Fournel at the Lariboisiere Hospital. From conversations with some of these investigators one may gather that the time has not yet come to make any positive statement as to the efficacy of the new treatment, but that this much can be said for it-the results are far more striking than those obtained by other so-called cures; so striking, indeed, that it looks as though

scientists were really on the track of great discovery. Dr. Fournel does not claim to be a discoverer, he is but a follower in the footsteps of Dr. Rene Quinton, an assistant in the laboratory of pathologiand the author of a work entitled 'L'Eau de Mer, milieu organique.' which treats in part of the applicaprize competition, 600 yards, second tion of marine serum in cases of adstage, the following scores were put vanced tuberculosis. It was as a rewith injections of sea water, so prepared that it contained the same quantity of salt as the blood, that is, grains 50 per litre (1.76 of a pint). His results were identical with those obtained by Dr. Quinton. He was then

Working in collaboration with Dr. Barberin, he used sea water containing ten grammes of salt per litre. Experiments were made with this new form of the serum on a certain number of patients suffering with tuberulosis in various stages in Dr. Landrieux's ward at the Laribosiere Hospital, and under his supervision, with he result that a marked improvement The start was made at 2:26, and from condition.
