NEW YORK, July 10 .- The comprehensive rise of the market in the early trading bore out the contention of the bulls that the short interest had been expanded considerably by recent selling, which made possible a successful drive at the bears. Announcement of President Wilson's action to avert a strike of trainmen and conductors on eastern railroads, and Secretary McAdoo's assurance that government 2 per cent bonds would be protected in framing a new currency law were primary causes of the improved ceiling. Cable advices were that pros-cects for peace in the Balkans were cetter, and London bought stocks here, rincipally Canadian Pacific and Union acific. Recent declines were largely ffaced by today's upturn. Canadian effaced by today's upturn. Canadian Pacific sold five points above yesterday's lowest. This modern Fagin, now in the Tombs, has been the sole professor in a formidable school of vice, teaching the fine art of stealing on a big scale, aided and abetted by certain first-rank detectives, according to corroborative testimony furnished the district attorney following Rader's astounding con-

Working in conjunction with these "schooled" truck thieves and pickpockets, Rader confesses, big jobbers, auctioneers, trusted dock watchmen, shipping clerks and many women were a part of this gigantic trust, which Rader conducted ostensibly as a respectable businessman from his pool and billiard hall on the East Side.

In appearance Isadore Rader is a real Dickens character. He looks just as if he had stepped out of a first edition of "Oliver Twist."

His power has rested chiefly in his ability to avoid arrest and conviction, not only of himself but of his confederates, who, like magic, at the will of their chief, have been removed from prison, often without trial and always without sentence.

His pupils followed his bidding with fear and trembling. His authority has been undisputed. It would seem that the entire underworld is involved, judging from the number visiting the district attorney's office in the hope of turning state's evidence. Each one examined either corroborates the story of the preceding ones or offers new revelations.
