THE CASHIER AND THE STOCK

Central Bank Cases—Vice-President, Director and Solicitor Examined.

The Cashier-Ordinary resumed the examination of Central Bank cases yesterday.

Witness saw Cashier Allen and Oliver's. Joseph K. Niven acted as broker for the parties.

On Jan. 31, 1937, he bought five shares for each of them at \$100. They could have sold at a profit on this price.

After the stock went down in October of that year, he told witnesses to sell at the current price.

West Toronto Junction.

The public have been favored of late with having plans of estates placed before them, but their attention is now most particularly called to the plan above. The block is situated in one of the most lovely spots near High Park Avenue and close to High Park in the whole of West Toronto Junction proper, and indeed of any place for miles around. This high and healthfully situated property commands an extensive view of the Lake, and the town, and the surrounding country which gives one the idea that they are living far away in mountain scenery. Another great feature regarding this estate is, that the facilities of getting into the city to any part of the world are so great that it does away with the necessity of keeping a horse. There is also a first-class school, churches of all denominations, good stores, where everything needed can be obtained and as reasonable as you can purchase in the city. I am open to negotiate for the sale of the whole block or in lots under most favorable terms.

Early application is strongly advised, as the demand for lots at West Toronto Junction is increasing daily.

As an investment nothing can be safer or more desirable. Apply early to
