GROWING GIRLS AND ALL WOMEN.

Should Keep Their Blood Supply Rich, Red and Pure.

On every hand you see women and growing girls in the deadly clutches of anaemia. Slowly but surely a pallor as of death, settles on their cheeks; their Daily they are being robbed of all vitality and brightness. The trouble, if vitality and brightness. The trouble, if neglected, becomes more acute until the signs of early consumption become apparent. What women and young girls in this condition need is new, rich, red blood, and there is no other medicine can do the work of Dr. Williams' Pink Pills, in making this new, good blood. These Pills make girls and women well, and bring back the charm and brightness of perfect, regular health. Here is a bit of proof. Miss Lillie O'Carroll, Nor-wood, Ont., says :-- "About two years ago my health began to fail. I was weak, run down and had no ambition for anything. I had frequent headaches, weak, run down and had no ampluon for anything. I had frequent headaches, would be completely tired out after the least exertion, and had little or no appetite. A doctor who was giving me medicine fnally told me he feared I was going into consumption, which, of course made me very much down-hearted. As the wedicine L was taking was not As the medicine I was taking was not doing me any good I decided to try Dr. Williams' Pink Pills, and I shall ever feel grateful that I did so. My story may be summed up in the words "nine boxes of the Pills fully restored my health-perhaps saved my life, and I am now as strong and healthy as any cirl"

It is our sad duty this week to chroncle the death of an old and respected icle the death of an old and respected resident of Wyoming in the person of Mr. Park Duncan, who was called to his last resting place on the morning of Thanksgiving day. His end came with startling suddenness. On Sunday Mr. Duncan was up and about as usual and twice that day attended church. Sugar Beets Frozen.

Glencoe, Nov. 6.—The recent frosts will mean a serious loss to the sugar refineries. They contracted with the farmers in this district for beets at a stated price. Beets which have suffered from the effects of frost, and there are many such in this district, will not yield nearly so much sugar, and this is a loss which the companies have to stand.
