A Disc Clutch that never needs oil

THE new Chevrolet has a new, improved dry-plate disc clutch that needs no lubrication. It has no internal adjustment. It has a positive, smooth action that makes gear shifting easy. A light pedal pressure operates it, yet it has more than a thousand pounds pressure action delivering all the power to the rear axle without slippage. It is fully enclosed.

This is but one of the many quality features of the new Chevrolet that are daily making thousands of people ask: "How can they produce such fine cars to sell at such low prices?"
