A NEW FAMILY MEDICINE, AND VALUABLE SPRING & FALL PURIFIER.

DR. BUCHAN'S TONIC BITTERS.

This medicine is recommended by the first Physicians of Europe and America as the most appropriate and truly harmless, yet successful general Family Medicine ever invented. It corrects disorders of the digestive and portal organs, removes obdurate constipation, promotes a proper circulation of the blood in the extremities, strengthens weak nerves, renders the mind cheerful and the body active, invigorates and establishes a healthy regularity throughout the whole system, more speedily than any other medicine ever offered to the public. It possesses all the properties of Sarsaparilla, including SALSA-PARILLA, which valuable medicinal property was entirely lost till now, by the unscientific process adopted in the manufacture of Sarsaparilla preparations. The absence of SALSA-PARILLA in all the hitherto advertised preparations of Sarsaparilla, clearly accounts for the entire want of public confidence in the virtues of Sarsaparilla. By a new chemical process, discovered by the World-renowned chemist, BARON LIEBIG, SALSA-PARILLA is now completely preserved in this medicine; and it contains, in addition, the purifying and other Hygienic virtues of various valuable productions of the vegetable kingdom, in the purest and most concentrated form. It is an alternative of great value.

The preparation acts most kindly on the liver and mucous membranes, corrects and prevents acidity, aids assimilation where greasy articles are used as food, and is suitable to every kind of constitution, complicated with defective biliary secretions; nothing can surpass it in constipation with hemorrhoidal tumours about the verge of the anus—other cases of piles—and especially so in that which accompanies all varieties of periodic menstruation—so much so, that it will be found a valuable emmenagogue where constipation is present. In constipation connected with long continued derangement of the biliary system, termed bilious dyspepsia, it will be found an invaluable medicine as well as in the constitution of the convalescent stage of fever, when the patient has begun to take food, it is of great value in preventing relapse, by regulating the functions of the bowels and promoting digestion. For the studious and others of sedentary habit and employment, it is the very best remedy in the world for obviating constipation so troublesome and health-destroying by the use of the bowels of the sedentary will seldom or never be constipated. In several parts of Europe various classes of society, as well as the sedentary, who are generally more or less of a costive habit, find this medicine to excel all others; they also find it to be highly conducive to health of body and mind; it never interferes in the smallest degree with diet or occupation. THE BITTERS will be found valuable in many chronic diseases, especially those arising from impurities of the blood and costiveness—that ban of health and source of manifold diseases—

- such as Dyspepsia—Loss of appetite—Lowness of spirits—Drowsiness—Heartburn—Flatulency—Pain in the stomach—Pain in the side—Pain in the small of the back—Pain in and between the shoulders—Acidity in the stomach—Furious attacks—Nervous, Periodical and sick headaches—in chronic hepatic affections with dyspepsia. It is a most valuable remedy—in Spasms—Rheumatism—Unpleasant sensation of fullness after eating—Marasmus, or wasting of flesh in childhood or early youth—Cyanotic Malign, or Malignant ulcerated sore throat—Hysteria, in various forms—Tetanus in various forms—Chorea Sacra Villi, or St. Vitus's dance—Chlorosis, or Green Sickness—Amenorrhoea—Dysmenorrhoea—All glandular enlargements, and various other diseases incident to females.

It produces a powerful and lasting impression upon the indular system and secretory organs, unequalled by any other article. The great and controlling power which this medicine exercises on the secretory and excretory organs, renders it a medicine of peculiar properties as a curative agent, of various complaints and diseases, not mentioned above.

As a FAMILY MEDICINE, it is safe and EFFICACIOUS. IT IS WARRANTED TO BE SUPERIOR TO ANY OTHER EVER OFFERED TO THE PUBLIC. Indeed, the Bitters is a regulator of all the secretions, as far as a general remedy can be. Several families of the highest respectability in Toronto and neighborhood, have used the medicine and speak of it with unqualified approbation.
