thorities there is settled. It is claimed that

Steam Heating a Success.

On the through trains of the Chicago, Mil-
waukee and St. Paul railway the experiment of
heating trains by steam has been successfully
tested, and now the through trains of that com-
pany, leaving Chicago every day at 7:30 p. m.,
and leaving Minneapolis at 6:30 p. m., and St.
Paul at 7:30 p. m., are systematically equipped
with steam heating apparatus.

No matter what degree of cold may exist
anywhere along the line, an even temperature
of heat is maintained throughout the interior
of the train. As rapidly as possible, all
through trains on the various other lines of the
Chicago, Milwaukee and St. Paul railway, will
be provided with appliances for the heating of
its coaches by steam.
