To gain the public confidence is essential to business success, and it can only be gained by a steady course of faithful dealing with them. It is by this course that Messrs. Tuckett & Son have secured the great success of their "Myrtle Navy" tobacco. This confidence is not only a source of business to the firm, but also a source of economy which the consumers get the benefit of. The merchant never loses a moment of time in examining the quality of the tobacco. The name fixes the quality as absolutely as the mint stamp fixes the value of the guinea. It is not even necessary for the commercial traveller's trunk to be burdened with a sample of "Myrtle Navy." All his customers know what it is, and know in an instant when it has been supplied. There is no room for any dispute about it. No waste of time or postage in writing complaints about it. These may look like trifles to the uninitiated, but they save money, and enable merchants to perform the work of distribution at the smallest possible cost. They are part of the reasons why the finest quality of tobacco grown can be sold at so cheap a price.
