

## 2. Specific VOC Reduction Commitments

- (a) The United States shall implement controls in the PEMA that reduce VOC emissions as required by 40 CFR Part 59, Subpart B (automobile repair coatings), Subpart C (consumer and commercial products), and Subpart D (architectural coatings).
- (b) The United States shall implement controls on hazardous air pollutants in the PEMA that also reduce VOC emissions as required by 40 CFR Part 63. This includes the following Subparts:

Subpart M (dry cleaning);  
 Subparts F, G, H, and I (Hazardous Organic NESHA);  
 Subpart GG (aerospace industry);  
 Subpart N (chromium electroplating);  
 Subpart L (coke ovens: charging, top side & door leads);  
 Subpart O (commercial sterilizers);  
 Subpart T (degreasing organic cleaners);  
 Subpart R (gasoline distribution (Stage 1));  
 Subpart Q (industrial cooling towers);  
 Subpart EE (magnetic tape);  
 Subpart Y (marine vessel loading operations);  
 Subpart DD (off-site waste and recovery operations);  
 Subpart CC (petroleum refineries);  
 Subpart U (polymers and resins I);  
 Subpart W (polymers and resins II);  
 Subpart JJJ (polymers and resins III);  
 Subpart KK (printing/publishing);  
 Subpart X (secondary lead smelters);  
 Subpart II (shipbuilding and ship repair);  
 Subpart JJ (wood furniture);  
 Subpart XXX (ferroalloys production);  
 Subpart III (flexible polyurethane foam production);  
 Subpart YY (generic MACT);  
 Subpart DDD (mineral wool production);  
 Subpart HH (oil and natural gas transmission and production);  
 Subpart MMM (pesticide active ingredient production);  
 Subpart GGG (pharmaceuticals production);  
 Subpart AA/BB (phosphoric acid/phosphate fertilizers);  
 Subpart PPP (polyether polyols productions);  
 Subpart OOO (polymers and resins III: amino/phenol resins);  
 Subpart LLL (portland cement manufacturing);  
 Subpart LL (primary aluminum production);  
 Subpart TTT (primary lead smelting);  
 Subpart VVV (publicly owned treatment works);  
 Subpart S (pulp and paper (Non-combust) MACT I);  
 Subpart S (pulp and paper cluster rule MACT III);  
 Subpart RRR (secondary aluminum);  
 Subpart CCC (steel pickling);  
 Subpart F (tetrahydrobenzaldehyde manufacture); and  
 Subpart NNN (wool fiberglass manufacturing).

- (c) The United States shall implement controls in the PEMA on motor vehicles and non-road engines as described above in Part III.B (1) above.
