

*Canada-U.S. Free Trade Agreement*

That the amendment be amended by deleting the period at the end thereof and adding the following:

"and its implications on the economic and political sovereignty of Canada."

The House divided on the amendment to the amendment (Ms. McDonald), which was negated on the following division:

*During the taking of the vote:*

**Mr. Speaker:** I hesitate to interrupt the vote but I am bound by the rules of this place. May I ask Hon. Members, having made the point, to co-operate with the Chair and take down the flags.

**Some Hon. Members:** Oh, oh!

**Mr. Speaker:** I know that all Hon. Members know that this is the end of a debate which is of great importance to the country and to this House. But there is another issue here, and that is how we handle ourselves. I would ask the co-operation of Hon. Members.

Perhaps I can ask other Hon. Members, in return for the co-operation of some others, to remove the buttons.

*(Division No. 568)*

**Mr. Speaker:** I declare the amendment to the amendment lost.

I would ask for the attention of Hon. Members for just a moment. The rules of decorum in this place are primarily designed to maintain order. There is no magic precedent for what on another occasion was allowed or not allowed. I have asked Hon. Members to co-operate, and for the most part they have. There are some Hon. Members who are not yet co-
