

'Rockwood', Prospect Lake, V.I., B.C.,

August 2nd 1931.

Lieut. General Sir Arthur W. Currie,  
Principal McGill University,  
Montreal.

Dear Sir Arthur,-

I cannot let pass the opportunity of writing to thank you most warmly for the most interesting survey of interesting events at McGill during recent times which reached us here along with an invitation from the Secretary of the Graduates Society to attend the (annual) Re-union. Unfortunately my teaching duties at the University here prevent my travelling so far afield during our session, but I shall be there in spirit at least among many comrades and dearly cherished scenes of other days.

It was a great joy to the graduates here to have you with us last autumn. The spirit of McGill is a vital thing and needs to be refreshed from time to time, and not least of these means of refreshment is a visit from our beloved and respected Principal.

I trust your health is maintaining itself since you return to McGill.

Yours very sincerely,  
Harry J. Logan.
