TREASURER

A. GRANT FLEMING, M.C., M.B., D.P.H.

MANAGING DIRECTOR

9 COURSOL STREET

MONTREAL,

September 10, 1926.

## TO WHOM IT MAY CONCERN:

The Anti-Tuberculosis and General Health League has been in existence for two years. What it has accomplished with its competent staff has been of great public service. It was instrumental in securing the passage of the milk by-law, whereby a supply of pure milk will be secured. It was instrumental in securing the passage of the meat inspection by-law - a most important measure. It was instrumental in securing the opening and administration of the St. Agathe Sanatorium for consumptives. It has done a great work in its house to house visitation, and in its educational measures to improve the public health generally.

All this work has been made possible by the bounty of one citizen who subscribed one hundred thousand dollars for the purpose. It is not to be expected, however, that one citizen can bear the total expense which runs to sixty thousand dollars a year. To those who appreciate the great work that is being done an appeal for assistance is now made.
