

M'GILL BATTALION COMES TO TORONTO

Six Hundred Set Out for Niagara-on-the-Lake Training Camp.

SAIL ON THE CORONA

Overseas Company Will Join Thirty-Eighth Battalion at Ottawa.

As the Corona left the dock at the foot of Yonge street yesterday noon a rousing "Rah, rah, rah, Old McGill!" was given by 600 khaki-clad men. This was the parting salute of the McGill Canadian Officers' Training Corps. It was given to those who had come to welcome them upon their arrival in Toronto, and to those who had come to the dock to see them off for Camp Niagara.

The corps is in command of Lt.-Col. Robert Starke, whose staff includes Major A. A. Magee, Major McKergow and Adjutant-Capt. Kemp. Capt. Creaser Barkley is in command of the overseas company. There are five companies in the corps, a brass and bugle band accompanied them.

University Men. Shortly after the corps returns from camp the overseas company will join the 38th Battalion, C.E.F., at Ottawa under command of Capt. Barkley. All the members are Canadian university men.

The corps left Montreal Saturday at 11 p.m., C.P.R., and arrived at North Toronto Station 10:30 Sunday a.m. In order to give the men a glance of Toronto, they were marched to the Canada Steamship Lines wharf, along Beasby avenue, Avenue road, Queen's Park, University avenue, Queen street, Bay, down Bay to foot of Yonge.

Greeted by Mayor Church. Mayor Church, accompanied by the corps on behalf of the city, Lieut. G. R. Geary represented the C.O.R.

This corps, in conjunction with the University of Toronto Canadian Officers' Training Corps, who leave today, are to attend a camp of instruction at Niagara-on-the-Lake during the next two weeks.

McGill University was the first to establish an officers' training corps in Canada. It had been in existence three years before the war broke out, but consisted of only one company. In response to the request of the military authorities that the universities meet the great demand for officers, the establishment of the McGill contingent was increased to four double companies.

At the close of last year over 1000 members were enrolled and in active training. This number has been greatly depleted by men who enlisted for active service in the second contingent. Most of these men received their C.O.R. stripes. The battalion has supplied 80 officers, 10 of whom obtained commissions in England.

Eczema Was Cured Twelve Years Ago

Dr. Chase's Ointment Proved to Be a Permanent Cure.

The old idea of eczema being a disease of the blood has been pretty well exploded by the results of cures made by Dr. Chase's Ointment. Some doctors still advise internal treatment, but the results are slow and uncertain, and too often a lamentable failure. With Dr. Chase's Ointment it is different. You apply the ointment to the sore parts. It cleanses the sores and soon sets up the healing process. In a few days you can see with your own eyes the wonderful change that is taking place, and are encouraged to keep up the treatment until the cure is complete and the sores replaced by smooth, natural skin.

It is wise to look after your general health, keep the bowels regular and the blood rich, but you can depend upon Dr. Chase's Ointment to cure the eczema if you will do your part and apply it regularly.

Dr. Chase's Ointment can be recommended by any doctor, and is recommended by Dr. Chase's Ointment to anyone suffering from itching skin disease. I had

LIEUT. RICHARDSON FEARED CAPTURED

Friends at Kingston Unable to Find Whereabouts of Wounded Officer.

Special to The Toronto World.

KINGSTON, May 2.—It is feared Lieut. George Richardson, reported wounded, has been taken prisoner by the Germans. Every effort possible has been put forth to trace him without success.

Pte. George Watts of the Princess Pals arrived today from the front. He is a victim of rheumatism.

Word has been received that Pte. George Wickham has been wounded. He was in Lieut. George Richardson's company of the Second Battalion.

MR. ASHCRAFT. The man who in six years reorganized and successfully managed the Union Stock Yards of Toronto, in the face of all kinds of opposition, now goes west as manager of the Edmonton Stock Yards, Limited.

Mr. Ashcraft has proved himself to have no peer on the continent in the management of live stock interests, and the management of the same, and, as usual, the active business men of the west recognized this fact, and have secured his services to build up and organize the Edmonton Stock Yards. In doing so they have done much towards making the venture a great success, which we predict it will be.

UNION STOCK YARDS. There are 148 carloads of live stock at the Union Stock Yards, comprising 294 cattle, 1453 hogs, 54 sheep, 213 calves and 37 horses, for sale at Monday's market.

What It Is and What It Is Not.

THIS great science, originated by Dr. Palmer twenty years ago, has been developed from the most modern art, and deals with the true cause of diseases in man. The theories of many men have been advanced, but no one has been able to give a specific for cancer or even chronic bronchitis is leprosy. It is the science of the bones (vertebrae) being slightly displaced. Poisonous drugs and serums are only a poor remedy for actual disease. Chiropactor philosophy has proven in thousands of cases here in Ontario and especially in the most modern art, and deals with the true cause of diseases in man.
