The Democrats have probably taken what appears to them to be the safest course in naming Woodrow Wilson for president. Had Bryan been nominated at Baltimore he might have induced the progressive voters, Republican and Democratic, to rally to his support, and he would have defied the reactionary elements in the Democratic party. We doubt if Frof. Wilson has the virility, the popular support, the wide acquintance and the long association in the public mind with progressive principles to do this. He will naturally desire to be elected and, with the solid south to start with, he will endeavor to carry New York and a few of the big states where reactionary influences are powerful, leaving the "sage brush" country to Roosevelt.

The Democratic party for nearly forty years has been able to carry Mississippi, Alabama, Arkansas and other states, by practically a unanimous vote, without spending a dollar, without mailing a letter, without mailing a letter, without mailing a letter, without mailing a speech, whether it favored soft money or hard, high tariff or low, peace or war, free trade or protection.

A few years ago the solid south could elect the president with the ald of New York and Ohio. The Democratis needed little beyond New York. Gets Motor Car.

To facilitate the work of inspecting the different park areas, Commissioner Chambers asked for an automobile at a cost of \$2500. It took 21 hours, he said to visit all the city's parks, and sometimes \$40 a week was spent on car tickets. The committee agreed to make the recommendation, the Controller Foster objected strongly.

Registry Office.

The most important item up for discussion at the meeting of the property committee was a copy of an order of the board of control, in reference to the advisability of calling for competitive plans for the new registry office, \$15,000 being mentioned by the committee as a sum to be spent in prizes for

Federal Square.

According to Acting Mayor Church, the Hon. F. D. Monk will be back in Toronto in about two weeks' time, when he will have some important announcements to make regarding the federal square scheme and the harbor improvements. The harbor commissioners, he said, would submit their plans to him for the Ashbridge's Bay improvements, and after he had approximated at the next session of Parliament. The commissioners he said, hoped for a substantial grant and also a loan as had been given in the case of the Montreal harbor.

Building Permits.

During the month of June the city architect's department have issued 378 permits. Of this number, 750 were lessued since the 15th of the month. The large increase in the building operalarge increase in the building opera-tions this year has delayed the department in their work, but additional assistance has been secured and at

Crowing Roosters.

The medical health officer will continue his warfare against the rooster nuisance. When told that the city solicitor had given his opinion that his bylaw was ultra vires, Dr. Hastings said he would deal with the matter with the powers conferred upon him by the Public Health Act, and treat the nuisance as a violation to health. He would instruct his inspectors, he said, to gather the necessary information, and if necessary the department would take action to silence the rooster.
